CONVENTION ADJOURNS TO MONDAY, 11:00 A. M.

FAILED TO REACH A FINAL VERDICT

Twenty-Six Ballots Taken in Democratic Convention and Party's Standard Bearer is Not Yet Named—Wilson Made Steady Gains, While Clark Lost—Political Records Are Broken.

Baltimore, June 29.—With Governor Woodrow Wilson gaining on each ballot and Speaker Champ Clark constantly losing ground in the race for the Presidential nomination, the Democratic National Convention at 11:05 o'clock tonight adjourned until Monday morning at 11 o'clock.

Twenty-six ballots had been taken since the first call of the States and there was no hope of a final verdict tonight. It is against all political precedents for a National convention to sit on Sunday, but tomorrow will be a day of important conferences among the party leaders and a day of hard work for the campaign managers.

When the convention adjourned tonight Speaker Clark was hurrying to Baltimore from Washington in response to an urgent call from his campaign director.

William Jennings Bryan at the afternoon session had attacked Clark and had said he would vote for no man willing to accept a nomination at the hand of "Murphy", of Tammany Hall." It was the plan of Mr. Clark to appear before the convention and make an answer. In this way his managers hoped to bolster the failing vote.

The ballots today ran from the 13th to the 26th. Wilson began at 356 and ended at 407 1-2, a net gain during the day of 51 votes. Speaker Clark began at 554 and fell to 463 1-2, a loss of 90 1-2 votes. The anti-Clark leaders in the convention called attention to the fact that this almost exactly offset the 90 votes given to Clark by the New York delegation.

Breaks to Governor Wilson were coming from many different delegations as the balloting closed. His managers believed that once he had overtaken Speaker Clark the switching of delegates would become general.

The Clark forces plan to make a desperate effort tomorrow to win back some of the delegates lost today and in this work they probably will have the personal direction of the Speaker himself. The Wilson forces, meantime, expect to fight not only to hold their gains of today, but to induce more to desert the other candidates.

Senator Stone, of Missouri, tonight made a motion to eliminate the candidate receiving the lowest number of votes on each succeeding ballot after the 27th until only one—the winner was left in the race. There was a storm of objection and the subject was pressed no further.

The Harmon delegates from Ohio threw their support to Speaker Clark on several ballots, but did not materially help him toward the necessary two-thirds vote because of the gradual inroads made by Wilson. They then changed back to Harmon and remained there until the last ballot of the evening.

The greater bulk of the Massachusetts delegation deserted Clark tonight and started the Foss boom. It created little excitement.

The deadlock confronting the Democratic convention is the most remarkable of modern politics.

There was no one in the convention today able to recall another instance in recent years in which it had required anything like the number of ballots to nominate that so far have been taken without result.

Having failed to nominate with the week-end it is not anticipated that the delegates will hurry to a decision on Monday and the fight may be prolonged for several days. The Clark people are still confident that enough of their delegates will remain steadfast to constitute the necessary one-third to prevent a nomination. Many of the delegates were hopeful that an early decision might be reached, but the two leading candidates were tonight so far short of the 725 1-3 votes necessary to nominate that the problem ahead seemed a most difficult one.

Clark Will Answer Bryan.

Baltimore, June 29.—Speaker Clark came to Baltimore tonight in response to the urgent request of former Senator Fred T. DuBois, his campaign manager, and George Fred Williams, of Massachusetts, who represented that the Missourian's candidacy had suffered by reason of an "attack upon his honor" made by William J. Bryan. The convention, apparently hopelessly deadlocked, had adjourned until Monday before the Speaker's arrival.

Back of Mr. Clark's coming was a rumor of disruption in his political camp. Senator Stone, former Governor Francis and the main body from the Missouri delegation, were said to be strenuously opposed to the Speaker making any appeal to the convention in his own behalf. They objected to the activity of Messrs. DuBois and Williams as they believed the convention would misinterpret Mr. Clark's appearance on the platform.

It was no surprise, therefore, when Governor Francis, of the Clark forces, seconded the motion of Representative A. Mitchell Palmer, of the Wilson camp, that an adjournment over Sunday should be taken. Mr. Clark's train left Washington at 10 o'clock and the adjournment was taken within 15 minutes of the time the news reached the convention floor.

There is a good deal of bitterness against Mr. Bryan among the Clark adherents.

They feel that the Nebraskan had no right to attempt to place a Morgan-Belmont-Ryan brand on the Speaker just because the New York delegation gave its support to him. They have attempted to offset the effect upon the progressives made by Mr. Bryan's statement that he would withhold his vote from the Missourian so long as New York's vote went to him. At the same time they argued that he could not wipe out the injury without attacking Mr. Bryan in the forum where Mr. Bryan's assault was delivered. A majority of the Missouri delegates felt that while Mr. Clark had been justified in facing Mr. Bryan and defending himself before the convention, his opponents would charge that his appearance was for the purpose of personally seeking vindication in the form of votes.

Mr. Williams and former Senator DuBois were said to have ignored the advice of their associates and to have told Mr. Clark that his only chance of redress lay in an immediate confrontal of Mr. Bryan at the convention. They urged him to take the first train, believing that it would get him here before the adjournment of the session. The chances are that Mr. Clark would have reached the convention hall in time to make a dramatic entrance had not the plans of Messrs. Williams and DuBois became known. It was the plan to adjourn shortly before midnight and the Clark forces not wanting another ballot after the 26th, had entered upon a counter Wilson demonstration. As soon as the Clark leaders heard that Senator DuBois had gone to the depot to meet the Speaker they called in their following and the elaborate demonstration quickly subsided.

The adjournment over Sunday gives to the Clark forces opportunity to adjust differences. These are not thought to be serious and it is thought Mr. Clark will be able to heal them. It could not be learned tonight whether Mr. Clark would attempt to see Mr. Bryan. Some members of the Missouri delegation believe he will be content to make a statement to the convention through some friend, or that he will ask that a letter be read setting forth such statements as he cares to present. There is no way he could address the convention except by invitation, but it is not likely this would be withheld if he desires to speak on Monday.

Mr. Clark arrived in Baltimore at 11:45 and went direct to the Emerson Hotel. There he went into conference with the managers, ex-Senator Fred DuBois, of Idaho, and William R. Hearst, of New York.

After his conference with Mr. Hearst, Senator Stone, David R. Francis and others, Speaker Clark issued the following statement:

"Today in the National convention an outrageous aspersion was cast upon me and through me upon the Democratic party by one who of all men ought to be the last to besmudge or betray his friends or his party. So far as I am personally concerned it is enough to say that the charge which reflects upon my personal or party integrity is utterly and absolutely false. I might afford to forget myself, but I am by the choice of the Democratic majority of the House of Representatives the ranking official Democrat in National public life. I cannot be false or corrupt without reflecting upon my party in the most serious way.

"Any man who would enter into an alliance with any selfish interest or privileged class of this country to gain the nomination for the Presidency is unworthy of the Presidency and of the Speakership of the House. If I have not entered into such an alliance then the Democrat, however distinguished, who charges me with this act is a traitor to the Democratic party and to his professed friendship to me.

"I am not here to plead for a nomination or to attempt to influence any man's political action. Let every man proceed in this convention according to his convictions and the expressed will of his constituents. I ask no undue consideration from any man, be he friend or foe, but I demand exact justice from every Democrat, either in this convention or throughout the Nation. With William J. Bryan and his charge made in the convention today, the issue is proof or retraction. I shall expect him to meet that issue. (Signed) "CHAMP CLARK."

The hour the statement was issued, 1:40 A. M., Mr. Bryan had retired for the night, leaving word that he was not to be disturbed.

Baltimore, June 29.—While the roll was being called on the 26th ballot another Wilson demonstration was begun. When Maryland, which had passed, was reached at the end of the roll call, a poll of the delegation was demanded. The chairman of the delegation announced 16 votes for Clark, but stated that two members of delegation wished to state a preference for another candidate.

When the roll was called the second

WILSON'S VOTE GOES OVER THE FOUR HUNDRED MARK

Jersey Governor Makes Steady Gains During Afternoon and Night—Clark Forces Worried By Defections in Their Ranks—Bryan Stirs Up Trouble and Gets Another Chance to Speak.

Convention Hall, Baltimore, June 29.—The Democratic National Convention struggled in vain through a long and sultry afternoon session this afternoon, trying to make a nomination for President. Tonight the perspiring delegates were still at their task, many of them on the verge of prostration from heat and lack of rest.

Champ Clark steadily lost ground during the afternoon and evening, dropping from 554 on the 13th ballot to 467 1-2 on the 26th ballot.

Woodrow Wilson made important gains during the late afternoon and evening balloting, going from 356 1-2 on the 13th to 405 on the 26th ballot.

The Wilson forces were enthusiastic tonight and were claiming they ultimately would win. The Clark people plainly were worried by the defections in their ranks. Kansas was the first important State to desert Clark as a whole for Wilson. The sentiment in that delegation had favored Wilson from the beginning, but the Wilson contingent was not able to get a two-thirds vote until today. Then under State convention instructions the entire 20 Kansas votes went into the Wilson column.

After the 21st ballot the Clark people in something of a panic sought to have a recess ordered. The Wilson people encouraged by their steady gains, fought the motion and defeated it on a roll call.

The afternoon session was marked by another dramatic outburst from Mr. Bryan. Claiming the privilege of explaining why he and more than a dozen delegates from Nebraska were going to switch their votes from Clark to Wilson, the former candidate held the floor for nearly an hour and was the center of a storm which swept the hall in changing waves of protest and approbation. He declared that so long as Champ Clark continued to accept the services of "Charles F. Murphy and Tammany Hall", he would not vote for him. In changing to Wilson, Mr. Bryan said he reserved the right to switch again if New York or any other State delegation "controlled by the interests" should go to the standard of the New Jersey Governor. From the floor a score of delegates hurled questions at the Nebraskan and applauded as he attempted to make himself heard. Several delegates wanted to know if Mr. Bryan would support the ultimate nominee of the convention in the event that his nominating vote included the 90 from the State of New York. Mr. Bryan said he was content to make his protest in advance of any decision by the convention. He "expected" to support the nominee. A lawyer, he shouted, was permitted to "defend a criminal" after the crime was committed, but he would not be permitted to defend the criminal if he had abetted the crime.

Some of the delegates believed Mr. Bryan was making a final bid for the nomination. If it was intended as such, it appeared to fail, for there seemed to be a crystalization of the forces against him, and their strength seemed to indicate that a Bryan stampede so often predicted was out of the question.

Baltimore, June 29.—Under the guise of explaining a change of vote in the Nebraska delegation, William Jennings Bryan got another hearing in the Democratic National Convention today and again threw the delegates and spectators into a disorderly uproar.

Bryan, who under primary instructions had been voting for Champ Clark, announced that he would not vote for him again while New York was included in the Clark column.

He changed his vote to Woodrow Wilson, but defiantly declared he would change again if "Mr. Murphy" and the "Ryan-Belmont-Morgan" crowd should vote for Wilson.

Bryan was assailed from the floor by many delegates who demanded that his speech be stopped and by others who demanded to know if he would support the nominee. Bryan said he "expected" to do so, but he also expected the convention to nominate a man without the support "of the interests."

Balloting Begins Anew.

Convention Hall, Baltimore, June 29—The convention hall was again the center of intense animation and expectancy. The hour for resuming the balloting drew near. In the hall the delegates straggled to their seats, though the crush was not so great as on previous days. This was attributed to the intense heat and the fact that tired thousands remained in the hall until adjournment this morning.

Many of the leading supporters of the Presidential aspirants were in the hall early conferring earnestly with advance members of the delegations.

Chairman James called the convention to order at 1:06. The chaplain, the Rev. Dr. John Roach Straton, of Baltimore, then said the prayer.

The hall was in confusion with delegates crowding into the aisles. Order was finally had at 1:15 p. m., and for the thirteenth ballot the clerk began the calling of the roll.

The 13th roll call began with the same monotous repetition that marked last night's voting. When Connecticut was reached Wilson's 1-3 vote to Underwood. The rumored shift in the vote of the Nebraska delegation did not materialize on this ballot, the record remaining Clark 13, Wilson 3.

There has been some question as to whether New York would cast its 90 votes for Clark, but Charles F. Murphy made his usual announcement of 90 for Clark again and it was apparent that there would be no nomination.

North Carolina gave Wilson a gain of one from the Underwood column.

Wilson also took two from Clark in Ohio.

In Alaska Clark gained one from Wilson. Hawaii gave Clark a gain of one from Wilson.

Porto Rico voted six for Wilson, a

In Virginia Clark gained 2 1-2 from loss of two for Clark.

Underwood.

The result of the 13th ballot was: Clark 554; Wilson 356 1-2; Underwood 115 1-2; Harmon 29; Marshall 30; Foss 2; Bryan 1. This showed a gain of five for Clark. Wilson gained 2 1-2 and Underwood lost 7 1-2. Foss was put on the roll with two votes. Kern received no votes and Bryan was given one. At 1:40 the roll call began for the fourteenth time.

During the fourteenth ballot Chairman Jones surrendered the gavel to William Sulzer and went to the floor. He conferred with Senator Stone of the Clark forces and then hurried about visiting the various delegates.

When Nebraska was reached William Jennings Bryan demanded a poll of the delegation. His was the first name called.

"I ask for an opportunity to explain my vote," said Bryan amid a tumult of disorder.

"Vote, vote, vote," shouted the delegates.

For what purpose does the gentleman rise?" demanded Sulzer from the chair.

"As long———' began Bryan and a wave of noise overwhelmed him.

Senator Stone, of Missouri, made an effort to secure unanimous consent that Bryan be allowed to make a statement. A roar of dissent greeted the request when Sulzer stated it, but he announced: "The Chair hears no objection."

Bryan made his way to the platform and a round of cheers greeted him. Through the uproar Bryan shouted: "As long as New York's vote is recorded for Mr. Clark I withhold my vote for him and cast it———"

He got no further. Again the racket swept the hall.

"I am explaining my vote only because my advice was not followed in by own delegation. I advised that those who are instructed for Clark vote for him until conditions arose which justified in doing otherwise. Not all this delegation agreed with me. If a poll is demanded. I am now ready to cast my vote and give my reasons.

"I recognize the responsibility that rests upon me and do what I intend to do in giving this explanation. I expected this necessary to arise. I have written out what I propose to say that there may be no mistake."

Here Mr. Bryan read a prepared statement explaining his vote.

"Having explained our position" said Bryan, "I now announce my vote for ———"

Another roar from the floor interrupted here and former Governor McCorkle, of West Virginia, secured the floor to ask Bryan a question.

"Does the gentleman mean that he will not support the nominee of this convention if he is nominated by the present votes of the New York delegation?"

Bryan asserted his willingness to reply.

"This is true," said Mr. Bryan, "a Democratic convention and we have a right to ask questions of each other and be frank.

"Hypocrisy has been certified to by 6,500,000 Democrats and I ask the secretary to enter a dissenting vote if the will give me his name. And I will put it beside the name of Belmont and others who were not Democrats when I was a Democrat."

Bryan then returned to the question of Governor McCorkle.

"Nothing that I have said here this morning would give any grounds for the conclusion that I would not lend my aid to nominate a man that I would not support him after he had been nominated over my opposition.

"Just as a lawyer who defends a criminal after a crime has been committed and a lawyer who conspires with a criminal before the crime is committed."

Governor Brewer, of Mississippi, demanded to know if Clark, Wilson, Underwood, Kern, or any other candidate before the convention was nominated with the aid of New York, whether Bryan would support the ticket."

"I deny the right of any man to put a hypothetical question to me———" said Mr. Bryan. Here Mr. Bryan was interrupted

A delegate moved that these questions and answers were out of order and there was more confusion in which the chairman pounded the table.

Allow me to complete my answers that until he puts into the question every essential element I cannot answer it" continued the Nebraskan.

John B. Knox, of Alabama, jumped to his chair and in an impassioned speech denounced Mr. Bryan as interfering with the proceedings and that Mr. Bryan was violating the point of order. There were cries of "sit down." "put him out," and the delegates were in an uproar.

Mr. Knox declared that no one had a right to attack any candidate before this convention.

A hand bill distributor at this point was thrown out of the hall and the turmoil continued.

While the confusion attending the reading of Bryan's statement was in progress there came cries for Murphy, Lewis Nixon, Alton B. Parker, and Norman E. Mack, and interferred in the aisles before the platform.

Murphy watched Bryan closely, standing in shirt sleeves.

"Now I am prepared to announce my vote," concluded Mr. Bryan. "I cast my vote for Nebraska's second choice Governor Wilson."

Bryan's announcement caused another uproar. The New Jersey delegation led the demostration. Bryan made his way from the platform through the Clark, three for Kern, two and a half not voting.

The 17th ballot was almost identical with the 16th. The result was Clark 545; Wilson 362 1-2; Underwood 112 1-2; Harmon 29; Marshall 30; Kern 4 1-2; Bryan 1. This left Clark with a loss of six votes, Wilson, Underwood, Harmon and Marshall unchanged. Kern gained 2 1-2 votes.

The 18th ballot proceeded as far as Tennessee before there was any considerable shift. Twelve and one-half votes were gained by Underwood, 10 from Clark and 2 1-2 from Wilson. The result was: Clark 535; Wilson 361; Underwood 125; Harmon 29; Marshall 30; Kern 3 1-2; Bryan 1.

This was a loss of 10 for Clark, a loss of 1 1-2 for Wilson and a gain of 12 1-2 for Underwood. This ballot brought Clark's vote below the majority, which he had gained on the 10th ballot and which his managers counted on to help force his nomination.

Idaho's Kern vote broke for Bryan, giving him six of the eight votes of the State. Clark 6. The result of the 19th ballot was: Clark 532; Wilson 338; Underwood 130; Harmon 24; Marshall 30; Kern 1; Bryan 7.

This showed a loss of three for Clark, a loss of three for Wilson, a gain for Underwood of five and a gain of six for Bryan. During the 20th ballot Senator Bankhead, manager of the Underwood forces, received a telegram from Representative Underwood saying: "We control the situation. I hope my friends will stand firm."

The 20th ballot resulted: Clark 512; Wilson 378 1-2; Underwood 121 1-2; Harmon 29; Marshall 30; Kern 1; Bryan 1; Foss 2; James 3.

This was a loss of 20 for Clark, a gain of 30 1-2 for Wilson, a loss of 8 1-2 for Underwood. Foss and James were each placed on the roll on this ballot.

On the 21st ballot Wilson men in the Washington and Wyoming delegations asked roll calls. Clark had majorities in each delegation and under the unit rule the entire vote of both went to him.

Clark's loss and Wilson's gain continued on the 21st ballot. The result was: Clark 508; Wilson 395 1-2; Underwood 118 1-2; Harmon 29; Marshall 30; Kern 1; Bryan 1; Foss 5.

This was a loss of four for Clark, a gain of seven for Wilson and a loss of three for Underwood

Former Governor David R. Francis, of the Clark forces, moved that the convention recess until 8:30. The Wilson forces encouraged by the steady gain through the afternoon, objected and Senator Lea, of Tennessee, demanded a roll call.

The convention refused to adjourn and the 22nd ballot was begun.

"I expect to support the nominee of this convention. (Applause) I do not expect any one to be nominated here who will not deserve the support of the Democratic party. I do not expect any one to be nominated who would permit a partnership between Morgan, Ryan and Belmont and himself. (Applause) With the understanding that I shall stand ready to withdraw my vote from the one for whom I am going to cast it whenever New York casts her vote for him, I cast my vote for Nebraska's second choice, Governor Wilson."

Mr. Bryan's announcement was received with prolonged cheering and applause after which Senator Stone, of Missouri, was recognized by the chair. Senator Stone said:

"So far as Speaker Clark is concerned I have just this one sentence to utter. I pledge his great record as a Democrat and the splendid service rendered his party for more than a quarter of a century and no part of it was more conspicuous than that during the campaigns of William J. Bryan." (Applause).

Then the call from Nebraska began.

On the roll call Nebraska's vote, which up to this ballot had been cast 13 for Clark and three for Wilson, divided Clark 4, Wilson 12.

The result of the 14th ballot was: Clark 550; Wilson 362; Underwood 113; Harmon 29; Marshall 30; Bryan 2; Kern 2.

This was a loss of four for Clark; a gain of 5 1-2 for Wilson and a loss of 1-2 for Underwood.

An Oklahoma delegate asked to explain his change of his vote from Wilson to Clark.

"My name is Giddings, of Opulent, Okla. I have always followed the lead of the Niagaraic Nebraskan, but I do not like to sit here and hear aspersions on my fellow Democrats. I think it is time to call a halt in personalities and stand on principles. I want to go back to Oklahoma with my record clean."

Here a delegate cried from the floor: "You may go back, but you will never come back."

Mr. Giddings defended his record as a Democrat and asked if Mr. Bryan could do the same.

"I ask this convention," concluded the Oklahoman, "to turn upon Mr. Bryan a paraphrase statement of his own 'Thou shalt not press down upon the brow of Democracy a crown of—'."

Here a yell interrupted. The speaker tried to finish, but the uproar drowned his voice.

"You shall not press down upon the brow of Democracy a thorny crown of anarchy. You shall not crucify us upon a cross of selfishness,' shouted Giddings and he left the platform.

The poll of Oklahoma proceeded. Oklahoma's vote was unchanged, Clark 10; Wilson 10. The squabble had taken more than half an hour, and had accomplished nothing.

Connecticut changed its vote to Wilson 1; Clark 9; Underwood 4.

The call of the roll of the 15th ballot was then begun at 3:55.

On this ballot Montana's eight votes, up to that time cast solid for Clark, split. Six went to Wilson and two to Clark. The result was:

Clark 552; Wilson 362 1-2; Underwood 110 1-2; Harmon 29; Marshall 30; Bryan 2; Kern 2.

This gave Clark a loss of one, Wilson a gain of one-half and Underwood a loss of one-half. This gave Wilson one-sixth of a vote less than one-third of the convention.

When Idaho was reached on the 16th ballot Governor Hawley, of that State, asked a poll of the delegation, declaring that, although instructed for Clark, a majority of the delegates had determined that the time had come to disregard their instructions.

Chairman James, after examining concluded: "If the majority of the delegation believes there is no longer a reasonable hope of Clark's nomination, they may violate their instructions and be responsible to the people."

A shout of protest went up. "I object to the chairman characterizing the action of the delegates as a violation of their instructions," shouted Thomas H. Ball, a Texas Wilson delegate.

Idaho was passed.

Representative Burleson, of Texas, went to the platform and protested to James against the form of his ruling.

Representative Hughes, of New Jersey, joined Burleson on the platform. The Wilson managers were aroused and Hughes warned James that a resolution to "vacate the chair" had already been prepared and would be presented if further rulings were not impartial.

The result of the poll of Idaho, at the end of the roll call, gave the eight votes of the State to Clark.

The result of the 16th ballot was: Clark 551; Wilson 362 1-2; Underwood 112 1-2; Harmon 29; Marshall 30; Bryan 1; Kern 2.

On this ballot Clark lost one, Wilson remained unchanged, Underwood gained two, Harmon and Marshall remained unchanged.

The 17th ballot began with the hall in disorder, Idaho caused trouble again and was passed and at the end of the call demanded a poll of the delegation. Five delegates voted for Kern, four for Clark and seven were absent.

Each delegate had half a vote. This made 4 1-2 votes present and majority of the 2 1-2 votes were for Kern.

Chairman James ruled that the delegation was controlled by the votes of the delegates present and directed that the eight votes be cast two for crowded aisles to the Nebraska section.

After order had been restored Bryan took up Brewer's question.

"I expect to support the nominee of this convention. I do not expect any one nominated here to permit himself to be allied with Morgan, Ryan and

(Continued on Page Eight.)

Second game—

Brooklyn	200	200	102—7 14 1
Phila.	400	101	500—11 15 1

Knetzer, Yingling, Kent and Erwin and Phelps; Chalmers, Brennan, Downey and Dooin and Killifer. Time 2:05. Umpires Brennan and Emslie.

Chicago, June 29.—Pittsburg, went into second place today forcing Chicago into third by winning the second game of the series 6 to 1. Saier's single scoring Tinker in the sixth saved the locals from a shutout.

Chicago	000	001	000—1 7 1
Pittsburg	100	400	010—6 9 2

Cheney, Moroney, Brown and Archer; Camnitz, Hendrix and Gibson. Time 1:53. Umpires Klen and Bush.

Cincinnati, June 29.—St. Louis won from Cincinnati easily here today. Steele's triple with the bases full in the fourth inning featured.

St. Louis	100	300	120—7 14 2
Cincinnati	200	000	000—2 7 1

Steele and Bresnahan; Keefe and Humphries and Clark. Time 2:00; Umpires Riglerand Finneran.

AN ALL-NIGHT SERVICE.

Payne Drug Company Inaugurates New Prescription Service.

A decidedly progressive step has just been taken by the Payne Drug Company, at Fifth and Red Cross streets, in the installation of an all-day and all-night prescription service that will fill a long felt want in Wilmington.

Under the new service prescriptions will be filled at any hour of the day or night. Mr. H. E. Payne, the manager has taken apartments over the store and has placed an electric call bell on the front door and he will answer calls at any hour of the night.

The Payne Drug Company was the ploneer among Wilmington druggists in the installation of special apparatus for sterilizing all bottles before using in their prescription department. This is a special hot water and steam process and the value of it as a sanitary precaution will be appreciated by any physician. Prescriptions may be phoned to No. 520 and they will be forwarded to any part of the city.

BASEBALL YESTERDAY.

Two Fast and Snappy Games on Parsley Diamond at Hilton.

Yesterday afternoon on the Parsley diamond at Hilton two fast and snappy games of baseball was played. The first exhibition was given when the Wesley Athletics lined up against a team captained by Harris Alderman. This game resulted a victory for Alderman's team by a score of 4 to 20. The second contest was between the Co. B team of the Boy's Brigade, and the Giants, a newly organized team captained by Clarence Davis. This game was an easy vistory for the Co. B. team, the score being 8 to 2. The batteries for the last wame were Gore and Lacy, for the Giants; Register and Wilson for Co. B. The feature of the afternoon were the batting of Fick, for Co. B, and the long drive of Filyaw for the Giants. The attendance was large. Every body is invited to see the game next Saturday afternoon.

MR. BORDEN NO BETTER.

Telegram to Sister States That he is Very Low—Little Hope.

It will be learned with much regret that Mr. Edwin Borden, of this city, who was stricken with paralysis at Clifton Springs, N. Y., where he had gone for his health, Wednesday, continues to sink, and that very little hope is held out for his recovery. Mrs. B. A. Lynch, a sister received a telegram yesterday to the effect that Mr. Borden was very low and that his recovery is not expected.

Friends here had hoped since the announcement of his illness for reports of improvement in his condition, and the news that he is no better has been received with great sorrow. Members of Mr. Borden's family are at his bedside, where they were summoned immediately following his illness.

SHIPS ORDERED NORTH.

Battleship Squadron Leaves Cuba for Home Station.

Washington, June 29.—The battleships of the third and fourth divisions of the Atlantic fleet now in Cuban waters were today ordered north to their home stations. The gunboats, however, will remain about Cuba as will also the marine guard taken there by the battleships. The marines, four gunboats, the cruiser Prairie, and a number of auxiliaries will remain until there is every assurance that the rebellion has been entirely crushed, and there will be no more attacks on foreigners or their property.

I have every facility for making accurate examinations ofthe eyes, and will tell you frankly whether glasses are needed or not. Eyes tested free. Eye glasses from $1 up. Dr. Vineberg, The Eye Specialist, Masonic Temple. **

AMERICAN LEAGUE.

At Boston, 13; New York, 6.
Second—Boston, 6; New York, 0.
At Washington, 1; Philadelphia, 2.
At Detroit-Chicago (rain).

Detroit	31	35	.470
New York	18	48	.295
St. Louis	17	45	.274

Washington, June 29.—Johnson held the Athletics to four scatter hits today but errors by Ainsmith and Foster let in two runs which won as Washington could only get one run off Plnak and Coombs. The fielding of Spinks and Baker featured the game.

Philadelphia	001	000	000—2 4 1
Washington	001	000	000—1 6 3

Plank, Coombs and Egan; Johnson and Ainsmith. Time 1.45. Umpires Westervelt and Evans.

Boston, June 29.—Boston added two more today to its unbroken string of victories over New York this season. The scores of the double-header were 13 to 6 and 6 to 0. The second was called at the end of the eighth on account of darkness.

Boston	432	000	04x—13 21 0
New York	000	230	001— 6 10 7

Brown, Pape and Carrington; Quinn and Street; time 2:00; umpires Egan and O'Loughlin.

Second game:

Boston	023	010	00—6 10 1
New York	000	000	00—0 1 0

Wood and Cady; Thompson, Fisher and Sweeney; time 1:20.

St. Louis, June 29.—St. Louis won two games from Cleveland today. The first game:

St. Louis	000	001	200—3 8 1
Cleveland	000	110	200—4 4 1

Powell, Allison and Stephens; Baskette and Easterly; time 1:55; umpires Hart and Connolly.

Second game:

St. Louis	101	010	000—3 9 2
Cleveland	100	000	202—5 12 1

Baumgardner and Krichell; Steen and Livingston; time 2:15.

BETTING FAVORS JOHNSON.

Odds of Two to One Placed on Him in Coming Fight.

Las Vegas, N. M., June 29.—With the arena completed and the training of Jim Flynn and Jack Johnson practically ended for their fight here July 4th, interest today centered in the placing of bets. The champion is the favorite, with odds apparently fixed at no better than two to one.

Flynn announced today that as evidence of his intention to beat the champion at his own game he would breakfast the morning of the fight on broiled chicken. Johnson, it is believed, will do the same, that being his favorite dish.

RETIRING FROM BUSINESS.

Big Closing Out Sale Started at R. F. Hamme's Store Yesterday.

Elsewhere in today's paper will be found a page announcement that Mr. R. F. Hamme, the well known Front street clothier and hatter, is retiring from business and that his entire stock of clothing, gents' furnishings, etc., have been placed on the market at prime first cost without even the freight added. Mr. Hamme has been in business in Wilmington many years and people know that what he says carries weight. Prices have been slashedtothe bone and the sale of fers a rare opportunity for close buyers to make their purchases at great advantage. The advertisement elsewhere today speaks for itself and prices and articles are quoted that will compel attention.

Lumina Concerts Today.

Swimming race, one half mile—First place, silver cup; second, three round trip tickets; third, one round trip ticket.

CHATTANOOGA SELECTED.

Textile Men Will Meet There Next. Officers Elected.

Greensboro, N. C., June 29.—With the selection of Chattanooga, Tenn., as the place of holding the 1913 convention and election of officers, the Southern Textile Association's annual convention came to a close here tonight. The new officers are:

President, T. M. McEntire, Gastonia, N. C.; vice president, Z. H. Mangum, Gibsonville, N. C.; T. B. Wallace, Greenville, S. C.; I. B. Covington, Mt. Holly, N. C.; J. H. Quinlan, Cedartown, Ga.; secretary, G. S. Escott, Charlotte, N. C.; treasurer, David Clark, Charlotte, N. C.

W. H. Hardeman, of Newberry, S. C., was selected as chairman of the board of governors.

At the afternoon session 53 applications for merbership were received and approved. Retiring President Stone's address was a plea for more efficiency in workmanship, urging quality of output of Southern mills rather than quantity.

COLD STORAGE PLANT.

Proposals Invited by Building Committee forModern Plant.

Elsewhere in today's paper will be found an advertisement calling for proposals for the erection of the modern cold storage plant which the Independent Ice Company will etsablish at corner of Second and Campbell streets according to plans and specifications prepared by Architect Jos. F. Leitner of this city. The proposals will be received at the office of the chairman of the building committee, ex-mayor Wm. E. Springer, until noon July 15th. The plans call for a very handsome storage building equipped with all the modern appliances and equipments and the storage will fill a long felt want not only in Wilmington but in all this section of the State.

NEW PARLOR CAR SERVICE.

Wilmington-Greensboro Service Inaugurated by the A. C. L.

Effective July 1st, the Atlantic Cost Line announces the inauguration of daily Pullman parlor car service Wilmington and Greensboro via Fayetteville and Sanford. This service will be on Trains No. 53 leaving Wilmington at 8:45 A. M. and on No. 52, arriving at Wilmington at 8:05 P. M. This service will afford comfortable accomodations for parties visiting the seashore and mountains and will be continued until September 15th. Elsewhere in today's paper will be found an announcement of this service or any further information will be given by applying to the Union ticket agent at Wilmington.

NO STRIKE ON P. R.

Differences Between Company and Employes Are Arbitrated.

Philadelphia, June 29.—There will be no strike of the men employed by the Pennsylvania Railroad Company on its lines east of Pittsburg and Erie, the acceptance by a committee of the men of an arbitration proposal and a concession offered by the company today bringing about a satisfactory settlement of the grievances. The federated committee of the Brotherhood of Trainmen, Order of Railway Conductors and the Brotherhood of Firemen and Enginemen regard the agreement as a victory.

It is provided that in the event of the company extending the electrification of its lines, the steam railroad men affected shall hold their positions, or ones paying them the same wages. In regard to the McAdoo tunnel between New York and New Jersey, it is provided that the steam men who lost their positions because of the electrification shall be reinstated by July 1, 1913, and paid the same rate of wages as before they were replaced.

The question as to the amount of wages to be paid brakemen on the Monongahela Railroad at Pittsburg will be arbitrated.

FUNERAL OF MR. J. C. REGISTER.

Held Yesterday Afternoon From Home of His Mother.

The funeral of Mr. Jas. C. Register, who met death by electrocution while working on one of the Tidewater Power Company's poles at Third and Castle streets Friday morning, was held yesterday afternoon at 4 o'clock, from the residence of his mother, No. 121 1-2 South Front street, and was attended by a large number of sorrowing friends. Rev. Dr. J. H. Foster, pastor of the First Baptist church, conducted the services, assisted by Rev W. L. Rexford, pastor of Bladen Street Methodist church.

Upon conclusion of the services at the house the remains were borne to Oakdale cemetery, where the interment was made. There were many flowers and floral designs, among them being especially handsome designs from Mr. Register's fellow employes men of the Bell Telephone Company.

The pall-bearers were: Honorary: Messrs. James Womack and J. Murray Croom; active—Messrs. Jno. M. Sutton, Amos Matthews, Edward Brewer, L. B. Woodbury, James Garrison and John Yates.

SAILORS ON STRIKE.

Many Firemen and Oilers in Southern Ports Strike.

New York,, June 29.—Leaders tonight estimated that 2,000 sailors and 2,000 firemen and oilers were on strike in this port and that 4,000 men were out at Boston, Philadelphia, Galveston, and Norfolk.

An officer of the Marine Firemen's Union said a number of the steamship companies had signed an agreement to increase wages and recognize the union. The brunt of the strike, however, is still directed against big coastwise lines where officials have refused to grant the demands. Vessels of these lines left port today considerably before their scheduled sailing tomorrow. Most of them were short handed and their crews consisted of strike breakers.

Officials of the coastwise lines claim they have enough strike breakers available to prevent a tie-up of service. They have brought men on from other cities and have them under secret guard tonight.

BOLT THE PARTY.

Massachusetts Republicans Join Teddy in His Movement.

Boston, June 29.—Two hundred Republicans who were active for Roosevelt in the recent campaign, bolted the Republican party at a meeting in Ford Hall tonight and former "the progressive party of Massachusetts." The new party takes over the organization of the Progressive Republicans, of which Matthew Hale was chairman.

Col. Roosevelt was endorsed as candidate for President and a telegram was sent informing him of the action taken.

Charles S. Baxter, chairman of the Roosevelt delegates at large to the Republican National Convention, headed a faction which objected to the formation of the new party, but it was overruled. Mr. Baxter expressed himself in favor of organizing a reform movement within the Republican party.

WILSON IS PLEASED.

Governor Decides Not to Go to Baltimore—"Not Dignified."

Seagirt, N. J., June 29.—Governor Wilson this evening decided not to go to Baltimore. He did not believe, he indicated, that it would be undignified for him to do so, or that he would gain anything by taking the trip.

The Governor was in constant telephone communication with the Wilson leaders at Baltimore today, who urged him to come there and it was not until dinner time this evening that he reached the decision not to go to the convention city. The Governor seemed pleased when the news came that Col. Bryan had transferred his vote to the Wilson column.

"At the present rate of gain," the Governor said, "after reading the result of the 15th ballot, "I figure that it will take only about 175 more votes to land me."

A Tennessee doctor has patented a pneumatic bed which permits a sick person to be bathed without removal.

The Southern National Bank

SELLS LOTS

This may look a little long to you; there may be only one place that will interest you; but that may pay you big, so, cut this out and give some thought to it.

It's an undisputable fact that with the improvements to come out of the bond issue will convert Market street into an avenue of beauty. Property bought last year has risen in value one-fourth. From now on the real improvement will be self evident. We have four big lots on east of Tenth street that we will sell you, and attach a bond guaranteeing you six per cent increase in value. We believe the increase will be more than double this in a year's time.

Walk out and look the situation over. See the northeast corner of 16th and Market, 66 by 330 feet.

Between Fifteenth and Sixteenth on north side of Market is another lot solely in our chage.

The southeast corner of Fourteenth and Market is a good purchase—big lot—yet, the ground is low, but the price is lower.

The fourth lot we will tell you of if you will call. Just now we can't give names.

Down town and still in the residential section is the one corner that can today be boughtfor less than its value. This is the Northwest corner of Third and Market and the house directly North of the corner. This property was recently bargained for and not sold, today it can be secured at real big paying investment figures. The new Y. M. C. A. and the new Market street will help. Surely, it will—daily becoming more valuable.

Over the railroad there are two places; number 1111 North Third is a lot 50 feet by 150 feet, facing on two streets with two houses on it. Both houses in nice condition, terms very reasonable.

Justabove this is 1115 North Third street, another fine, big lot for less money. Terms are very easy. See these places.

If you are considering a home, there is 310 Dock street, beautiful location, and 814 Orange street. Both places anyone will be proud to live in.

Number 107 North Seventh street comes particularly under the head of good homes in good locations. These places can be offered at attractive figures.

Elegant cottage of eight rooms, 314 North Seventh street, on nice deep lot, fine street, finehome. Let us tell you terms.

Then we have a nice cottage No. 713 Castle street and another, at 1304 Cattle street.

Of course we can't tell you all we have now, but will appreciate a visit to see if we can't make you happy in a home and money in an investment.

Real Estate Agents.

Lumina Concerts Today.

Afternoon, 4 P. M., night 8:30 P. M. Among the selections are "The Palms" "Chimes of Normandy," "Woodland Whispers" and a violin solo by Mr. Kneisel. **

..Theatrical..

The Grand Theatre will open the week tomorrow with one of the greatest films ever shown in Wilmington, "The Infancy of Moses". This is a fine Biblical study and is quite interesting. Besides it is educational and should be witnessed especially by the young people.

"In Days of Old" is an exciting talk of brave deeds and chivalry of days that are gone. The third film will be a Vitagraph of "The Gamblers," an entrancingly pretty story. Life is a gamble bu' we must play fair. The heroine took a chance at cards and lost. In the game of love she won, defeating her more experienced and unfair rival. The story is well told under the direction of Mr. William Humphrey and it will please each and every patron of the popular Grand.

This bill embracing three great moving picture films is enhanced by the always splendid music by the orchestra which is becoming a prime factor with all Grand patrons. Besides this patrons of the Grand always find a delightfully cool and pleasant auditorium and there is no more pleasant place in Wilmington to spend an afternoon or evening.

At the Bijou.

All ready for another big week at the New Bijou. The new week will be inaugurated tomorrow afternoon, when one of the best bills ever offered will be presented, like a sparkling gem in the pretty and comfortable Bijou setting, made up of cool air and fresh, invigorating atmosphere. The film bill will be headed by a great Vitagraph dramatic, "The Extension Table." It tells a strong story of love, with a powerful moral. The charming young actress, Miss Leah Baird, will be seen in the stellar role, portraying the character of "Mabel Moore," the young stenographer. Harry T. Morey and Leo Delaney, two other popular moving picture Thespians, will also be seen in the fine photoplay.

A real aviation film is another star of tomorrow's bill. It is "A Dash Through the Clouds," and it is filled with beautiful scenery and a number of thrills. While it is a farce comedy in nature, it presents the real thing in airship navigation. The dash in the aeroplane to the nearby Mexican town to rescue a boy from the hands of rebels is a graphic, as well as exciting piece of work.

There is also a big Biograph comedy on tomorrow in "The New Baby." It tells how the proud father rushes home to see his heir for the first time, and gets badly mixed up and beholds a "chocolate drop." The laugh is on him, but everything ends in happy manner. So no one can afford to miss the Bijou's big bill tomorrow, nor the Bijou's many charms in the way of solid comfort.

Excursion from Charlotte.

The Seaboard Air Line will operate an excursion from Charlotte to Wilmington and the beaches on July 9th. The train will leave Charlotte at 10:10 a. m., on the morning of the 9th, and returning will leave Wilmington July 11th at 9 a. m. This will give the visitors two afternoons and two nights and one whole day at the seashore. Passengers will be taken aboard as far down as Maxton.

IN PROGRESSIVE LUMBERTON

Large Crowd Expected Monday—Town Improvements—Crops and Other Things as Reported From Robeson Captal.

(Special Star Correspondence.)

Lumberton, N. C., June 29—The probabilities are that a large crowd of people will be here Monday. That being the first day of the month the county commissioners and other county boards will be in session and in addition to these a two-weeks term of Superior Court for the hearing of criminal cases will convene with Judge Bragaw presiding and Solicitor Sinclair representing the State.

There are over twenty prisoners in jail waiting to be tried, many of the number being for retailing. There are four murder cases to be tried, the defendants all being colored. Lumberton retailers will come in for a full share, several of them being in jail and several on hand. So far as we know all of those arrested here for dispensing booze are colored, but unless the signs fail some of the white booze venders will be pulled during the coming week, some of which may surprise some people. There is no let-up here, it seems, on the part of the authorities, to cause trouble for those who persist in violating the law. One thing is very certain, Lumberton has been drier for the past two weeks than for some time past, or that is the way it appears to observers on the streets.

If Lumberton is not now showing substantial signs of progress we don't know what the word means. Since the first of May Elm street, the main thoroughfare of the town, has been paved from the railroad to Sixth street, making it as good a street as can be found anywhere, and it seems to be an assured fact that other streets are to be paved, enough of the work being in sight to keep a force of men busy until Fall. During the month just drawing to a close the Bell Telephone Company has installed ten new phones and discontinued three. Eight or ten electric light connections have been cut in against one cut out, and water connections are also being made in proportion. We do not mean to knock any past town administration, but if any has shown more progressive spirit than the present we do not know it, especially along sanitary lines. Much improvement in that direction was made last year, but some places have just come to light and one of them not 100 yards from the court house, that is enough to create any disease known to the medical fraternity from yellow fever down. No wonder countless millions of flies have infested Lumberton for the past two months. Anyone desiring to contract the cholera or something worse should be able to find what they are looking for by standing for a few minutes on the west end of the iron bridge. But all these things are being changed rapidly and if the citizens will co-operate with the authorities we can have a town second to none of its size anywhere.

The Irish potato crop in this section seems to be a record breaker this season. Such a crop of potatoes was never seen here, neither in quantity or quality. The market has been flooded with them for several days at 75 cents per bushel, and some have been sold during the past week as low as 50 cents per bushel. Some housekeepers who are in the habit of paying 50 to 60 cents per peck are now buying in bushel lots.

If housekeepers do not provide themselves with an abundance of preserves and nice things made from fruits it will be their own fault, for peaches are plentiful and cheap. Farmers are bringing them in in large quantities and retailing them at 25 cents per peck. Some apples are coming in but the quality does not compare with that of the peaches.

Mrs. Fred Thomas and children who have been spending several months in the western part of the State, will return home tomorrow night. It will be remembered that the family went to the mountains several months ago on account of the health of Mr. Thomas. The much needed rest soon restored him to excellent health and he returned last month. Mr. Thomas has rented the Ward home beyond the river and the family will begin keeping house there next week.

Mr. F. O. Porter, of Lott, Texas, was a Lumberton visitor this week. Mr. Porter is a native of Columbus county, but spent much time during his early life in this county. He left here over 33 years ago for Texas where he has since resided. Mr. Porter attended service at Lennon's Cross Roads Baptist church last Sunday and met five people that he had known in childhood. Of course, Lumberton was all new to him. Mr. Porter will be in North Carolina for a month.

Quite a number of people have been staying up late at night watching the bulletin board for convention news. Most of our people were for Wilson, but we believe there are a few of our citizens who would walk to Wilmington for the privilege of throwing away their votes a fourth time on Czar Bryan. But then everybody has a right to a preference.

Lumberton now has one place where people can go and be comfortable during the hot afternoons and evenings. The Pastime theatre has been equipped with oscillating electric fans which reminds visitors of the ocean breezes. People are now reluctant to leave the show, many declaring it worth more than the price of admission just to get cooled off even if there were no pictures. But the pictures are there also, two new ones every day.

A horse belonging to Mr. Dennis Biggs was bitten by a snake in the stable some time Thursday night. When discovered yesterday morning the horse was in great agony, and when he was examined it was found he had been bitten on the nose and one of his front feet. Dr. Owen Dees is treating the horse and says he will be all right in a few days. Judging from the marks the snake must have been a large one.

Mr. Anderson, of the Waverly hotel, is showing to his friends a drawing of the new hotel which he proposes to have erected on the corner of Second and Chestnut streets in the near future. The picture looks good, but the reality is what Lumberton is interested in. Mr. Anderson says that in a short time material will be moving towards the proposed site and that Lumberton is going to have a hotel up to now.

There is reported to have been a murder in Marion county, S. C., last Saturday about which not much has been said. Alfred Allen, of Howellsville township, this county, who was working in Marion, is said to have shot and killed a man by the name of Byrd. Whiskey is said to have been the cause. No one seems to have been present except the two men, and all that can be learned about the matter is said to have been told by Allen. He left without being arrested and came to this county, but has not been apprehended. It is understood that his people have employed a lawyer to look into the matter, and it is expected that he will come in and surrender to the authorities. The tragedy is not expected to give Allen much trouble, if as is claimed by him, the other man was coming on him with a knife when he shot in self defense.

The Lumberton ball team went to Rowland Thursday and played against the team of that town, defeating them by a score of 4 to 3. The Lumberton boys seemed highly elated at having defeated Rowland, as they claim that Rowland had some players that are hard to beat.

Mr. W. L. Arrington, of Beaufort, N. C., district deputy of the Woodmen of the World, has been here for the past two weeks visiting the camps in this county, Robeson being one of the counties of his district. Mr. Arrington is an earnest worker and will be of much benefit to the order in this county, the membership of which already is about 800.

County Superintendent Poole will conduct examinations here July 11th for the white teachers, 12th for colored, and the 13th for Indians.

A party of young ladies left here yesterday for Wrightsville Beach to spend several days with Miss Janie Carlyle, who with her parents and other members of the family, is spending the Summer at that delightful resort.

If anyone doubts that the Lumberton dog law is being observed, let them take notice as they pass up and down the streets. So far we have not heard of a dog being killed, and they are as scarce as wild geese on the streets. Everybody has to admit that the law is a good one.

Mr. A. E. White, who left last Sunday to attend the Baltimore convention, returned yesterday, the most thoroughly disgusted man we have seen in a long time. White says it was the most disgusting affair he ever attended, and doesn't want any more of it. As has been plainly seen through the papers, Mr. White says Bryan is boss of the whole thing.

In yesterday's Star appeared an item regarding an assault on a seven-year-old child by a 17-year-old boy. We learned more about the case yesterday, but we consider the facts too disgusting and disgraceful to the human race for us to report to a newspaper or to an individual. If the boy is not a lunatic other prisoners should not be confined in the same building with him.

Messrs. A. T. Parmele, R. R. Carlyle, J. P. Stephens and Woodie Lennon left last night for Wrightsville Beach where they will spend today and tomorrow. The Truman Quartette is composed of these four young men and if visitors at the beach do not hear some good music during their stay something will be wrong as they are music makers.

Mr. John B. McLean, of Bellamy, seven miles east of here, on the Seaboard, is very much exercised over the mysterious absence of his son, Mr. J. H. McLean, who has been missing since Sunday night, June 9th. Mr. McLean, who does not appear to be much over 20 years old, his father says, is 37. He had been running as newsboy on the Seaboard for some time between Hamlet and Raleigh, but early in the month gave up his position to come home. The newsboy who was on duty on the Wilmington train on the night of the 9th, says that Mr. McLean came down that night and got off the train at Lumberton, since which time no trace of him can be found. His father was in town yesterday and says he has inquired for the missing man in all directions, but can hear nothing from him.

We were delighted last night to meet our old Wilmington friend, Mr. C. D. Yarborough, who was here on a business trip.

Mr. E. M. Britt and bride, who were married in Marion, N. C., several days ago, arrived home last night from their bridal trip which extended through many of the important Northern cities.

It was a mean trick, but some of the young enthusiastic politicians who were watching the bulletin board for convention news last night, decided they must have a little fun and in this they did not fail, though they caused some of the older and less interested ones to use some cuss words. About 12 o'clock they set up a yell for their favorite candidates, loud enough to be heard several blocks away. Several gentlemen who had already gone to sleep were aroused by the noise and lost no time in dressing and hurrying out to find out for themselves who would be the next President. When they began to arrive from different directions several of the boys suddenly remembered that it was past their bed time and left without waiting to hear the next report from the convention.

Mr. A. H. Hinds, the "oldest reliable" marketman, dressed a beef yesterday afternoon which netted 700 pounds.

A young Lumbertonian, who has been visiting relatives, supposedly in the western part of the State occasionally, has a well developed case of the blues. He received a letter this week from his girl up in the mountains imparting the information that she was married last Sunday to the other fellow, whose existence was not dreamed of by the Lumberton young man.

Capt. A. Bichery, who formerly conducted the Waverly Hotel, but moved to Oklahoma over a year ago, spent two days here this week on business.

Mr. H. O. Bryant, S. A. L. ticket agent, returned from Raleigh last night after visiting relatives.——Mr. W. M. Worley, who for the past several years has been interested in the tobacco business here during the sales season, is spending a few days in this section looking over the crop situation, which is larger than usual in some parts of this county.

Mr. Ben Bracy, of Rowland, spent yesterday in town with his brother, Mr. O. H. Bracy, and left this morning for Charlotte on a business trip.

Mr. E. B. Freeman, after spending several days on the beach with his family, returned home Thursday afternoon.

The contract for doing the work in the Back Swamp and Jacob Swamp Drainage Districts was awarded Thursday to the Brett Engineering & Construction Company, of Wilson, N. C., for $105,200. This amount does not include the cost of 21 bridges that will have to be constructed, nor the river improvement, which it is estimated will be $7,000 or $8,000 more. The work is expected to begin in the near future.

Mr. Joe Stone, who resides in the northwest part of town, reports that at an early hour this morning some inhuman scoundrel went to his residence and gave his fine bird dog a dose of poison. The dog was lying on the front porch when the villain gave it the poison. Mr. Stone hastily applied remedies to counteract the poison and thinks now he will save the dog.

Mr. W. J. Todd, for the past two and a half years Seaboard operator at this place, has been appointed agent at Hoffman on the main line, and will leave for that place next week, his family going at the same time. During their stay in Lumberton Mr. and Mrs. Todd have made many friends who will regret their departure.

GENERAL TRADE CONDITIONS

Business Forecast for Month of July as Issued by Southern National Bank of Wilmington—Political Activities.

The monthly letter on trade conditions and a business forecast for the coming month was issued yesterday by the Southern National Bank of this city, as follows:

Wilmington, N. C., June 29.—Political activities and interests have occupied the minds of all business men to a more or less degree during these latter days of June, and business shows some falling off as a result. It was to be expected that during the two or three weeks just preceeding the Republican convention and the time intervening between the two conventions business would suffer somewhat, and this slight depression will naturally continue for a short period after the Democratic convention.

Business reports are not, however, discouraging and the general situation is pretty clearly shown in the following paragraphs of this letter:

The number of business failures during May was less than in April, but exceeded the number in May, 1911, by 14 per cent. The total liabilities of these failures was $2,000,000 less than in April, and although the number of failures was 14 per cent. more than last year, the liabilities of these failures was less than in May, 1911, totaling only $14,000,000, the smallest liabilities of all failures for any month this year.

Bank exchange for the month of May were only slightly less than for April and were 1,350 millions higher than the previous May clearings. Clearings exclusive of New York City for May exceeded any previous May, showing by $537,000,000.

The gross earnings of 48 principal railroads for the month of May show a gain of more than $4,000,000, or nearly 7 per cent. over May of last year, and the gross earnings of these same roads for the first five months of 1912 show a gain of $21,500,000, or 7 per cent. over clearings for the same period of 1911. These figures cover only 90,000 miles of road and one-half of the gain for the month of May was made by the Canadian mileage. The mileage within the United States showed a gain of only 3 1-4 per cent. in gross earnings. The showing in gross earnings for the railroads to date for the year is really encouraging, but net earnings remain unsatisfactory.

The number of idle cars on June 6th was 86,000, against 116,000 at the last report two weeks previously. These figures indicate that the possibility of a car shortage in agricultural districts referred to in this report last month has now become a probability, and within a few weeks all usable cars may be in service. The great decreases in idle cars shown are made up of coal cars and box cars.

Having completed 11 months of the government's fiscal year, a comparison of exports and imports should prove interesting. Imports for the 11 months exceeded $1,500,000,000, which was $118,000,000 in excess of the corresponding period of the previous year, and $85,000,000 in excess of any previous record for the corresponding period. Our exports for the 11 months were $157,000,000 in excess of those of the corresponding period of the previous year, which was the largest previous total ever recorded for the period. This leaves a balance of trade in our favor for the 11 months of $544,500,000, which almost equals our balance for the calendar year of 1911, almost equals our balance for the calendar years of 1909 and 1910 combined, and exceeds the balance of any previous calendar year except 1908. Nearly 55 per cent. of the imports for May came in free of duty against 8 per cent. of duty free imports in May, 1911. For the 11 months 53 1-2 per cent. of our imports came in duty free, while only 51 per cent. came in duty free during the same period a year ago. Even though imports were much larger, duties collected for the past 11 months totaled $285,000,000, while $289,500,000 were collected during the same period of the previous year.

The output of pig iron for the month of May was larger than that of any month since March, 1910, and has only been exceeded by five individual months in the past. The average price of pig iron in all markets shows a total advance of only a trifle over 3 per cent. since January 1st, and present prices are less than 2 per cent. higher than a year ago on the average.

As an evidence of the broadening of the steel industry, the United States Steel Corporation announces appropriations of $20,000,000 for new plants and equipment, with a probable expenditure of $30,000,000 within the next 12 months. The Republic announces the sale of $2,000,000 in bonds, the money to be used on new construction. Additional capacity is being provided by Pittsburg, Inland, Lackawanna, Cambria, Youngstown S. & T., Jones and Laughlin, and other companies. The total outlay for added facilities will exceed $60,000,000. Compared with some previous years, this is not large, but shows a greatly increased confidence and indicates the expectations of these companies. The steel output in all lines except rails is very satisfactory. The corporations' orders booked are just equaling shipments, and the unfilled tonnage on the last day of June should be about the same as the report of May 31st. Orders booked during May totaled about 2,500,000 tons of finished steel products.

The copper production for May was the largest for any month since May, 1911, and the consumption and export exceeded production by 16,000,000 pounds, leaving a visible supply in this country on the first day of June of less than 50,000,000 pounds, or enough to supply the market for 10 days at the present rate of consumption and export. The visible supply will take care of domestic needs for only about three weeks. These figures, when considered in connection with increased production and with the present price of copper, which is above 17 cents, assume great importance. Increased production, somewhat decreased consumption, and still higher prices are expected.

Production of anthracite coal is about 80 per cent. of the normal output because of lack of labor. The June output will be light as compared with last year, but it must be remembered that the output last year was above the average. Bituminous coal trade remains depressed and prices are not materially above production cost. The operating mines are no more than making expenses. No substantial improvement is expected until September. Eastern soft coal mines are running all the way from 40 to 80 per cent. of capacity, averaging about 50 per cent.

Production of coke is 85 per cent. of capacity with the merchant ovens and 80 per cent. of capacity with the furnace interests. The average weekly production for the past 13 weeks is about 400,000 tons per week. Prices are slightly weaker, except that higher prices are demanded for foundry coke.

The production of gold at the Rand mines for May totaled 779,000 ounces, the largest month's production in history with the exception of March of this year. The average output for May for the previous five years was 610,000 ounces.

Commodity prices have continued to advance and the average price of all commodities is higher than at any time in 40 years.

The average price of leading bonds is nearly one-half point lower, which is also true of the average price of a selected list of leading stocks. Bond transactions on the New York Exchange were slightly less in May than in April and were one-third less in May than in the corresponding month of 1911. May, however, was the record month for last year. Two million less shares of stocks were traded in on the New York Exchange in May than in April, but the number was 2,500,000 larger than in May, 1911.

Building operations for May were about the same as for March or April of this year, but exceeded the May activities of any previous year. Building operations for the year to date exceed those of any previous year.

The present condition of all crops is satisfactory and continues to improve. Our combined authorities estimate the Winter wheat crop at 350,000,000 bushels, and the Spring wheat crop at 300,000,000 bushels, judging only from present conditions. There is every reason to expect an improvement in the Spring wheat situation. The oats crop is estimated at from 1,100,000,000 to 1,200,000,000 bushels, which would be a new record. Estimates on the corn crop are close to 3,000,000,000 bushels. The cotton crop condition is placed at 80 points, less than one-half point below last year at this date, with an acreage of 2,500,000 or 3,000,000 less than last year. Although the government's final figures on the cotton crop for 1911 were 14,885,000 bales, it is now clearly proved that the crop was 16,200,000 bales, 15,000,000 bales having already been absorbed from that crop.

The country's wool clip exceeds the 10-year average to date by 13,000,000 pounds. Sales are being made at better prices than the past two years with still better prices in prospect.

Big business is good, and there seems to be increasing confidence all along the line. There is considerable pessimism among the smaller merchants, but those closest to the real business situation state positively that expansion must continue.

The leather market is not good, and the cotton goods market is actually dull. Most other lines are in a healthy condition.

The poorest business conditions are along the Gulf Coast. All other sections show improvement over last year. Respectfully submitted,

THE SOUTHERN NATIONAL BANK.

American gardeners suffer from the depredations of the gopher, a rat that burrows in the soil and eats the roots of plants.

PROPOSALS WANTED.

Sealed proposals will be received at the office of Wm. E. Springer, chairman of building committee, Independent Ice Co., of Wilmington, N. C., until 12 o'clock noon, July 15, 1912, and then publicly opened for the construction of a reinforced concrete cold storage warehouse.

Separate proposals wanted for Plumbing, Electric Wiring, Plunger Elevator, Cork Insulation, Refrigeration, etc.

An acceptable bond will be required of successful bidders. Plans and Specifications may be had at the office of J. F. Leitner, architect, Wilmington, N. C.

The right is reserved to accept any or reject all bids.

WM. E. SPRINGER,
Chairman Building Committee.

THE MORNING STAR

Published by the
WILMINGTON STAR COMPANY, INC.,
Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months, $1.50 for three months, 50 cents for one month, served by carriers in the city, or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, or if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, society meetings, political meetings, etc., will be charged under same conditions, except so much thereof as may be of news value to readers of the paper.

Advertisements discontinued before expiration of contracts are charged transient rates for time actually published. Payment for transient advertisements must be cash in advance. Contract advertisers will not be allowed to exceed their space at same rates, or advertise anything foreign to their regular business without extra charge. Advertisements to occupy special place will be charged for according to position desired.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

Sunday, June 30th. 1912.

"Now is the time for all good men to come to the aid of their party."

Probably the Republican Colonel feels like a bull moose in captivity.

The plain people resent the effort of certain kinds of politicians to get in their class.

Any Democratic candidate is preferable to either one of the two Republican candidates.

Hoodlumism in the Chicago convention is what is called enthusiasm in the Baltimore convention.

One kind of progressive is a politician who is out and wants to get in while the stampede is on.

In spite of who's to be President, Wilmington holds the geographical key to the greater commercial South.

Says an exchange: "Senator LaFollette is in a quandary." In a quandary? The Senator is in the soup.

The unit rule is dead. One unreasonable and unjustifiable precedent has been abolished in favor of popular rule.

On Wednesday last the stork brought triplets to a mother at Albany, N. Y. Col. Roosevelt was to take that as an additional argument for a third term.

The spectacle furnished by the Chicago and the Baltimore conventions constitutes the biggest argument in favor of preference primaries.

President Taft may be proud of his victory at Chicago, but he has no reason to feel elated at prospects for another lease in the White House.

A Boston paper refers to the Chicago convention as a "deliberate body." There is one editor who cannot distinguish between a body and a corpse.

Another of the seven Governors has deserted Teddy. That Governor belongs to that class of men who will get you in a hole and let the hole take care of you.

An English suffragette grabbed Mr. Asquith by the lapel of his coat and shook him till he couldn't got his breath. That, we observe, is the first evidence that Mr. Asquith is a molly-coddle.

Only a few politicians are able to land an office by playing to the grandstand. The grandstand has gotten so it keeps a sharp lookout for the curves as they are coming towards the man at the bat.

Next time Col. Bryan has a chance to pick the winner, he should be for that candidate instead of for two. That is unless he does not want either to get it, so he can offer himself when there is no other alternative.

A Chicago judge has ruled that a man should buy candy and flowers for his wife. No doubt the judge does not know that she would at once suspect that an effort is being made to buy her off.

Too many hisses! Too many jeers! Lack of harmony among Democrats has been too much in evidence at Baltimore. The differing elements in the National Democratic convention were too strong for any man to have been so full of folly as to have sprung any question that would have divided the convention into two strong factions. Harmony ought to have been the first thing on the prgramme, but it wasn't. It is the last thing on the programme. However, let all Democrats remember that harmony is our only dependence for beating even a disrupted but rich Republican party.

"THE BIG SINISTER INFLUENCES."

Col. Roosevelt has been quiet a few days so he could pull himself together and find out "where he is at." In his quiet hours at Oyster Bay he has come to the firm conclusion that "the big sinister influences" are doing their best to get his goat. He thinks he is the only man they are after, and he is satisfied they are on his trial for a hot race. Of course, in thinking that way, the Colonel commits himself to the one idea of his great importance over every other man in the land.

The Rough Rider's estimate of himself is perfectly natural. He believes he is going to play thunder in his new role. He imagines that he is going to put the whole sinister outfit on the toboggan and let it slide into Death's Valley. He is quietly getting ready to "stand 'em on their head"—like he boasted that he would do at Chicago.

Because he appears to have subsided, he has not done anything of the kind. Anybody who says he's got got cold feet is a liar and worse than a pirate and a ship scuttler.

On the contrary the Rough Rider declares that he has no intention of flickering in this fight. He says he is going right on with his movement to run for President. Only on Wednesday he said: "I am going to make a good deal more trouble than they think." Like all generals, he won't have as many men in the fight as started out to the firing line. Some of his men have gone to the tall timber.

They were with him at Chicago but they are with Taft in the running. There havebeen many deserters and flunkers, and we have heard that only about 200 of his Chicago contingent stuck to him and decided to insurge and organize a new party.

Since then some of them have put up the white feather and come under big sinister influences. However, the Colonel says others are coming in to take the place of the deserters. "It is perfectly surprising," he says, "to see the amount of support which I am receiving. For every man who was for me at the Chicago convention, and is now leaving me, I am getting two men who were against me at Chicago."

He says offers of assistance in the formation of new Progressive Party are reaching him by mail and telegraph. Many letters contain money to be used in the work of organization, one man having sent a check for $1,500. Who knows but what that check sender thinks it is a good thing to encourage the movement to help out the Democratic cause? In the meantime the Colonel is going right ahead—getting his ducks in a row. His issue is himself, for a dispatch on Wednesday says:

"The issue upon which Col. Roosevelt is to make his campaign for the Presidency was indicated by him today. He proposes to base his appeal upon the assertion that what he has termed the "big sinister influences" have determined to eliminate him from public life because he is the one man whom they really fear. To accomplish this purpose he believes, they are willing to take up any man, whom they think can win. Having defeatted him at the Chicago convention, he says, they hope to control the Democratic convention to this same end. "They know me and I know them," he said. "It is anything to beat me. I am fighting a lone hand, and I am going to fight it out to the end."

So we see Roosevelt in his own issue. The tariff is not in it, but his "goat" is the main thing to be protected from "the big sinitser influences," yet it is strange that some of the sinister influences are backing up the Colonel with boodle and lung power.

Mr. George W. Perkins and others are standing by him with money and hot air. We don't understand that any more than we understand why the Colonel is fighting "a lone hand." He led use to believe that all the people are with him but now he is talking like he is fighting all alone. He entirely overlooks George W. Perkins and Medill McCormick.

PROFIT IN HAY GROWING.

Mr. J. R. Smyre, of Catawba county, tried his hand at hay raising and harvested 4.320 pounds per acre. His cut over hay land also produced value as pasturage, not to mention its benefit to the soil. At the wholesale price of hay, Mr. Smyre's hay crop represents a money value of $64.80. Since, however, he will use it himself, its value to him, in saving what he would have to pay at retail for it, $1.75 per hundred, foots up $75.60 per acre.

By producing his own hay he has kept at home $75.60 on every acre of his hay crop, not to mention the saving the expense of hauling hay bought in the markets. We do not know what the crop cost Mr. Smyre, but it can be safely conjectured that the cost of production was so small that his profit on his hay crop was equal to that on the best money crops produced in the South.

We mention this to show that our farmers con do when they try. They can raise their own hay, corn, meat, bread and home supplies, if they will only make up their minds to do it. We can produce our own butter if we will determine to do it, and when we get down to business we won't have to buy a pound of beef, mutton or pork outside the State. We must quit letting the other fellow do for us what we can do equally as well for ourselves.

Lots of people lose time by handing out a lot of cheap talk.

BELIEVE IN YOUR TOWN.

What is your town good for? Why is it good for what you think it is? Write it down in black and white. What you write will constitute one or more of the advantages of your town. Do you really know your town? If you do not, you cannot speak or write about its advantages or possibilities.

The only way to know your town is to study up on it. If you do not know the resources upon which your town can draw for its thrift and future development, you are in a bad fix. Some thinking and close study might make you believe in your town. You can and should know your town and when you know it, you will believe in it.

No man is worth much to a town unless he believes in it. If he lives in it and does not know his town, it is his next move. It might pay his town for him to move out and give his place to a true believer. Learn to believe in your town.

The third termer complains that "the big sinister influences" are trying to eliminate him. In that event, the big sinister influences would be ungrateful for the usefulness of the Colonel to them when he permitted them to gobble up the Tennesee Coal & Iron Company.

The one redeeming thing at the Baltimore convention was the pulchritude and eloquence of the Hon. Cone Johnson, of Texas. The Hon. Cone must have made a fine impression, since newspapers identified with sinister influences have jumped on him. Our membership in the Cone Johnson South Atlantic League has been fully justified.

CURRENT COMMENT.

No Republican paper in the state has shown any enthusiasm over Taft's nomination.—Greensboro News.

Having elected a progressive chairman and abolished the unit rule, it might have been better if Mr. Bryan had let it go at that.—Durham Herald.

In Germany there are ten or a dozen well defined parties represented in the imperial parliament. We may be headed toward such a state of things—Raeigh News and Observer.

Some of our newspaper friends have indulged in preposterous talk about a "Bryan bolt," suggesting that in case the Baltimore convention should nominate a 'reactionary" Mr. Bryan would support Mr. Roosevelt. Mr. Bryan will support no man for a third term. Besides, were Mr. Bryan confronted with the alternative of supporting a reactionary or an independent progressive he would not discover in the candidate whose ambitions are capitalized by George W. Perkins and the Harvester trust one to command his confidence.—Columbia State.

At Morehead City this week it turner out just as we predicted that it would. The Aldrich central bank plan was on hand and got another association of bankers into line. There is a Money Trust as that term is employed in political demonology, but in some respect all our banks are attached to a string upon which New York can pull at any time—Charlotte Observer.

The several large wholesale grocery concerns which plan a transfer of central warehouses from inner Manhattan to less expensive sites on the harbor front estimate a saving of $1.000,000 a year in the costs of rent and truckage. Any calculation of large saving from such a step is reasonable. Ships and railroads would discharge goods from abroad and the interior directly into the warehouses without the expensive street trucking which is now necessary. Goods from the warehouses could be distributed for the retail trade by the cheapest of all means of transportation at great numbers of points along a harbor and river frontage unapproached for extent by any other great city. It is a fine plan of private economy. It should be a fine plan for public economy in a larger way than relief of the streets. But will it be? Who will get the benefit of the $1,000,000 saving—the grocers, or the people through a reduced cost of living?—New York World.

NEVER FIGHT WITH BURGLAR

Upset a Chair and Frighten Him Away —That Is the Advice of a City Policeman.

"Don't ever 'hunt' a burglar. Make a noise and frighten him away. Upset a chair or slam a door.

"Almost all burglars carry revolvers of the finest kind. A 'pete man' or safe blower, the most dangerous kind of criminal, usually carries an automatic revolver, as it gives the quickest action.

"Every householder should have a weapon in the house, but he should never use it unless to save his life.

"It is the inexperienced man whose use of the revolver makes it dangerous.

"A professional or expert burglar will never shoot unless to avoid capture. A safe blower will shoot at a policeman or any intruder, as for them capture means a long term in prison."

Special Officer Edward Brophy, an expert, made these statements, says the Pittsburgh Post. It is only on the very rarest occasions that he can be induced to talk about himself, but it is a fact that he is a crack shot with a pistol. He has made a study of weapons, and has a collection of them at his home ranging from little "baby hammerless" revolvers to huge Winchester rifles, a shot from which will move a heavy safe. He has always been interested in guns, and has taken special pains to learn about the guns burglars and other criminals carry.

CORNELL THE VICTOR.

Wins All Three Races Rowed Over the Poughkeepsie Course.

Poughkeepsie, N. Y., June 29.—Cornell University today upheld its reputation for oarsmanship by winning all three races rowed over the Poughkeepsie course on the Hudson.

The great event of the day—the 'Varsity event—eight-oared race, was the cause of the keenest excitement. At the starter's pistol the shells got away amid silence, with the river as smooth as glass. For a few seconds the noses of the shells were even. Soon, however, Stanford began to drop behind. They were soon virtually out of the race, but kept on pluckily. By the time the mile post was reached Cornell had gained a third of a length lead from Columbia, their nearest rival. At the two-mile post Wisconsin, which had been playing fourth, spurted, but Cornell in the meantime, had put open water between itself and Columbia. Syracuse then attempted to come up.

By the time the bridge was reached Wisconsin was rapidly overhauling Columbia and Cornell appeared to be drawing farther away in the lead. Syracuse was fourth, and Pennsylvania fifth. Then Wisconsin made another splendid spurt and passed Columbia, but could get no nearer to Cornell, which evidently still possessed some reserve powers.

Cornell flashed first across the finish line by a good three lengths in 19:21 2-5.

Wisconsin was 3 3-5 seconds behind and led Columbia by 16 2-5 seconds. Syracuse was fourth and Pennsylvania fifth, while Leland Stanford was another half minute behind.

The time of the race was good, but did not approach Cornell's record of 19 minutes 53 1-5 seconds, made in 1901.

In the first event of the day, the four oared university race, Cornell finished in 10:34 1-5, with Columbia six seconds behind, Syracuse third and Pennsylvania last.

Pennsylvania, Columbia, Wisconsin-Cornell and Syracuse were the contestants in the Freshmen eight. Cornell was the victor by something over a length, in 9:31 2-5. Wisconsin's time was 9:35 2-5.

SOME BASEBALL, THIS.

Charlotte Team Plays Six Games Without a Bobble.

Charlotte, N. C., June 29—With today's game the Charlotte team went through its sixth errorless event of the week, establishing a new fielding record in the Carolina Association. In seven games played during the week, only one error was made in 156 fielding chances, this being on an attempt to complete a double play.

Washington, June 29.—Oren Horstmann, prominent in society and club life here, was found dead in his apartment tonight. His friends were reticent in discussing Mr. Horstmann's death. He was 35 years old, unmarried, and is survived by two sisters and a brother.

Generous Offer.

The money in circulation in this country amounts to $34.61 per capita. If the parties holding back our share will turn over the $34, they may keep the 61 cents and no questions asked.—Newark News.

$50 REWARD !

A reward of $25.00 is hereby offered for information leading to the arrest and conviction of the party or parties who recently broke into the home of Mrs. P. L. Bridgers on South Third street, and an additional reward of $25.00 is also offered for the recovery of an open-faced gold stop watch stolen at the time of the above burglary.

APPEALS FOR CLARK.

Senator Stone Wants Two-Thirds Rule Abrogated.

Baltimore, June 29.—Senator William J. Stone, chairman of the Missouri delegation, today sent to Governors Harmon, Marshall, Wilson and Representative Underwood, Presidential candidates, the following telegram:

"A majority of the National convention has voted for the candidacy of Champ Clark. No one questions his fitness and loyalty to Democracy, and for 70 years the practice has been established of giving the nomination to the candidate who receives a majority.

"We ask you, in the interests of the party and in vindication of the Democratic principle of majority rule, to assist in making his nomination unanimous by announcing the withdrawal of your candidacy."

FRONT STREET REALTY DEAL

Messrs. D. R. Foster & Co., Purchase Wessell Property on South Front Street—Consideration Was Large.

It was announced yesterday that Messrs. D. R. Foster & Company, the well known real estate agents, had purchased from Mr. A. D. Wessell, the valuable property on east side of Front street, between Dock and Orange, consisting of five brick stores and lying 92 feet along Front street, with a depth of 150 feet.

The consideration for the property is understood to have been $32,500, and the purchase by Messrs. Foster & Co., is understood to have been purely as an investment. The firm has great faith in Wilmington as is evidenced by this large purchase and from the present indications their faith will be fully justified in increased values within a very short time. Front street is now being laid with modern and permanent paving from Red Cross to Castle street and there is no finer business thoroughfare throughout the South. Values on Front street have been the sensation of the real estate market for some time and close observers look for still greater appreciation as the months go by and the internal improvements undertaken by the city are completed.

Messrs. Foster & Co., have recently engineered some big deals not only in the city, but in suburban real estate. Their latest success has been Edgewood and before that came Manhattan, the Bronx and others. They believe in doing things and this latest purchase should add fresh laurels to their already well sustained reputation.

SUNDAY SERVICES.

Announcements by Wilmington Pastors for Services Today.

First Church of Christ, Scientist, Market and 17th streets—Services at 11 A. M., subject of lesson sermon, "Christian Science." All are invited.

Grace M. E. Church, corner Fourth and Grace streets, Rev. J. C. Wooten, pastor—At 11 A. M. and 8 P. M. sermon by the pastor; 4 P. M. Sunday School, M. F. Allen, superintendent. You are cordially invited to attend all these services.

St. John's Church, Third and Red Cross streets, Rev. W. E. Cox, rector—Holy Communion 7:30 A. M. Morning prayer with sermon by the rector 11 A. M. Evening prayer 6 P. M. All are cordially invited.

St. Paul's Lutheran Church, corner of Sixth and Market streets, Rev. W. A. Snyder, D. D., pastor—English service with sermon by Pastor F. B. Clausen, of New York City, 11 A. M. English vesper service 8 P. M. Sunday School 9:45 A. M. A cordial invitation to all. Seats free.

Brooklyn Baptist Church, Rev. J. A. Sullivan, pastor—Morning service at 11 o'clock. Subject, "Profit and Loss." Sunday School at 3:30 o'clock. Mr. S. F. Garrison, superintendent. The evening service will be devoted to the Odd Fellows' Memorial service. This service will begin at 8:45 o'clock. There will be baptism at the morning service. Prayer meeting Wednesday night; B. Y. P. U. Thursday night, and Teachers' Meeting Friday night. A cordial welcome to all.

First Baptist Church, corner Fifth and Market streets, Rev. Dr. J. H. Foster, pastor—Service at 11 A. M., text, "The Crown is Fallen from Our Head." 8 P. M., "I was not Disobedient unto the Heavenly vision." Sunday School 4:30 P. M. B. Y. P. U. 10 A. M. Strangers will always find a cordial welcome.

Trinity Methodist Church, corner Ninth and Market streets, Rev. E. C. Sell, pastor—Peaching at 11 A. M. and 8 P. M. All the members are urged to attend. Strangers cordially invited.

CONTRACTS WERE AWARDED.

Work of Remodeling Building for Ice Plant Begins Monday.

Work of remodelling the old Schloss building on Dock, between Water and Front streets, for the Wilmington Ice & Storage Co., for its ice plant and cold storage equipment, will be commenced tomorrow morning by Hodges & Reville, contractors, who were awarded the contract yesterday. They will also make any repairs to the building that are needed and, will put in the concrete floor. The contract for sinking the deep well was let to Mr. T. W. Callahan and he will begin work tomorrow. The contract for the insulation material has been let to the H. W. Jones-Manville Co., of New York. The steel structure work has been ordered from the American Bridge Co., of New York. The machinery is expected to arrive Wednesday or Thursday of this week and the company hopes to begin business about July 15th or 20th.

The Gregg Case Settled.

The Gregg case was settled yesterday according to terms previously agreed upon and as outlined in yesterday's Star. The city of Wilmington and Mr. Jas. F. Woolvin, the defendants, decided to pay to Mrs. Susan M. Gregg, administratrix, the plaintiff, who was suing for damages for the death of her husband who was killed by a pile of brick falling on him in front of a new building being erected by Mr. Woolvin, the amount of the judgment secured at the last term of Superior Court rather than appeal to the higher tribunal. The amount was $5,000. The city pays $2,500 and Mr. Woolvin pays the remainder and also pays the costs.

Two Real Estate Transfers.

Two real estate deals were made through the hustling real estate agency of Mr. James Owen Reilly yesterday as follows: A. J. Hanby and wife to J. H. Niggel, for $2,000, lot on southwest corner of Eighth and Brunswick streets. The property is 75x75 feet in size. Chas. Finkelstein sold to Dr. T. V. Moore, of Acme, the lot at the northeast corner of Eighth and Dawson streets, for $4,000.

Memorial Service Tonight.

Elsewhere in today's paper all Odd Fellows are called to assemble at their lodge room for the purpose of attending in a body the annual memorial service at Brooklyn Baptist Church. The service will begin at 8:15 o'clock and for the occasion the pastor will preach a special sermon and there will be other special exercises. A large attendance is confidently expected.

REGULAR W. B. & S. SCHEDULE

Will be Inaugurated Tuesday Morning With Daily Train Each Way Between Wilmington and Southport—Stations.

The regular passenger schedule over the Wilmington, Brunswick & Southern Railroad will be inaugurated Tuesday morning when the first regular passenger train will leave Southport at 6:15 o'clock, arriving at Wilmington at 8:30. Returning the train will leave Wilmington at 3:14 p. m., arriving at Southport at 5 o'clock.

The announcement was made yesterday by Mr. M. J. Corbett, of this city, who succeeded Mr. Z. W. Whitehead as president of the W. B. & S., at the recent re-organization of the road. Mr. H. E. Goodwin, a well known railroad man of this city, is traffic manager of the W. B. & S.

From Wilmington to Southport, on the W. B. & S., the stations in their order, areas follows: Navassa, Jackey's Creek, Landvale, Town Creek, Winnabow, Brunswick, Bolivia, Loughlin, Goresville, Coolvale, Atwood and Southport.

At present only two trains will be operated each day, but Mr. Corbett stated yesterday that whenever the traveling public demands and the business justifies an increas a double daily service will be operated each way.

The line is also open for freight service, all package freight for Southport and intermediate points being handled daily.

It is the intention of the management to shorten its schedule as fast as the track can be improved. Many improvements have been made on the track since it was laid, and it is now considered in excellent condition.

With the inauguration of the regular schedule over the road it is expected that business will increase rapidly and that an additionad train a day will soon be necessary. Furthermore, the opening of the road means much to Brunswick county, and while her development has been remarkable for the past two years it is expected that in the future it will be even more so. Rich in natural resources and yet in many sections almost a virgin country, the county has awaited only the coming of the steel rails to realize its dreams and enable it to market its many products cheaply and speedily.

For Wilmington it opens up an additional back country that will mean much in the commercial expansion of this city, while for Southport it at last connects her with the world's avenues of commerce and opens the way for her expansion into a busy, hustling and thriving port on the South Atlantic Coast.

NEGROES STOLE HAMS.

Broke Window in Mrs. L. Freimuth's Store and Annexed Goods—Recovered.

Two unknown negroes broke a window in the grocery store of Mrs. L. Freimuth, corner Ninth and Chestnut streets, yesterday morning about 3 o'clock, and with the aid of a long stick calmly proceeded to unhook six hams and two strips of breakfast bacon from the rack where they were hanging, close to the window. As the negroes were making their way off they were seen by two mounted policemen, who pursued them. The hams and bacon were rocovered butthe negros made their escape.

Mounted Officers Fulford and Thompson were several blocks away from the scene of the robbery when they noticed two negroes carrying a number of packages. They called to them to stop, thinking that the hour and the circumstances warranted an investigation. The negroes immediately dropped theparcels they were carrying and made off as fast as possible.

Had they kept to the open highways they would have been easily caught by the officers, but they jumped a fence and began chasing across back yards. The officers followed as fast as possible on foot, but in the darknes the negroes succeeded in making their escape. Returning to the spot where they had flushed the negroes the officers found the hams and bacon.

They made a report of the matter to headquarters and an inspection of the stores in the neighborhood revealed the fact that Mrs. Freimuth's place had been entered. The goods were takento the City Hall and yesterday were identified as the ones missing from the Freimuth store. The police are working on the case and hope to make an arrest soon.

NEW STORE BUILDING.

Bear Brothers to Erect Handsome Structure on North Front Street.

Announcement was made yesterday that the Bear brothers, members of the firm of Samuel Bear, Sr., & Sons., are planning to erect a handsome brick building to contain several stores on their property on the west side of Front street, between Graceand Walnut, now occupied by the residence of Dr. Jos. Akerman. The building is estimated to cost in the neighborhood of $20.000.

Mr. B. H. Stephens, the architect, has been authorized to prepare plans for the structure, and it is expected that by the time they are completed the site will be ready to start th new building. Dr. Akerman has stated that he will relinquish possession within a week or ten days and the work of demolishing the present structure will be started soon afterwards.

The new building will be steel frame of brick, with an ornamental pressed brick front. It is expected that it will be three stories in height, though this has not been decided. The structure will be 66 x 90 feet in size.

This is another indication of the movement of the business houses northward along Front street, toward the new Union station. With the new A. C. L. station and office building, and the new $200.000 hotel building, the building to be erected by Einstein Bros., and the Bear Bros. building that section of the city will present a most modern appearance, serving to create a highly favorable impression on the part of the visitors as they first enter the city.

Lumina Concerts Today.

Afternoon, 4 P. M., night 8:30 P. M. Among the selections are "The Palms" "Chimes of Normandy," "Woodland Whispers" and a violin solo by Mr. Knelsel. **

CONVENTION TO END TODAY

Annual Meeting of Sunday Schools of Wilmington Baptist Association at Watha Has Been Most a Most Successful One.

Local delegates who have returned from the annual Sunday School Convention of the Wilmington Baptist Association, which convened Friday at Watha, and which will come to an end today, bring word that the meeting this year has been one of the most interesting and successful, as well as largely attended as has ever been held. A number of the Wilmington delegates will remain for the final session of the convention today.

Rev. J. A. Sullivan, pastor of the Brooklyn Baptist church, of this city, preached the opening sermon Friday morning. At the afternoon session the election of officers was held, resulting as follows: Rev. W. B. Rivenbark, of Teachey's, moderator; Rev. A. C. Chaffin, Seagate, vice moderator; Mr. S. C. Wilson, Teachey's, secretary and treasurer.

Following the election of officers, reports from the different Sunday Schools in the Association were received. The topic, "How we may best Indoctrinate our People," was discussed by Rev. J. A. Sullivan and Mr. S. O. Wilson.

The Relation of the church members to the Sunday School," was discussed by Rev. J. H. Beck, Rev. W. G. Barnes, Rev. A. C. Chaffin and Mr S. O. Wilson. Rev. A. C. Chaffin preached the sermon at the evening session

Atthe morning session yesterday the topic, "The Sunday School as an Evangelizing Agency," was discussed by Rev. W. G. Hall and Mr. Geo. E. Leftwich, of this city, and "The Teacher and His Qualifications," by Rev. M. O. Alexander, of this city, and Rev. A. C. Chaffin, of Seagate.

"How Shall we Meet the Catholic Menace," was the afternoon topic being discussed by probably 10 or 12 delegates It was decided to hold the next meeting at Bethlehem church, near Currie, to begin on Friday preceding the fifth Sunday in September. Rev. W. G. Hall, of this city, was selected to preach the opening sermon on that occasion.

At the close of the work of the convention yesterday afternoon the ministers who were present examined Rev. W. H. Barnes, and he was ordained last night.

This morning there will be a discussion on "How to Teach the Lesson," by Mr. Geo. E. Leftwich. At 11 o'clock Rev. W. G. Moore, of Bethlehem church, will preach the closing sermon, bringing the convention to an end

GRAFFLIN PROPERTY IS SOLD

Lot at Third and Walnut Street Changes Hands for Consideration of About $15,000. Apartment House is to be Built.

Another handsome realty deal was consummated yesterday when Dr. J. W. Powell purchased from Mr. J. M. Solky, through the A. W. Pate real estate agency the Graffin property, located at the southeast corner of Third and Market streets, for a consideration understood to have been in the neighborhood of $15,000. Mr. Joseph J. Loughlin, of the Pate Agency, engineered the transaction.

Dr. Powell with his associates, K. C. Sidbury, and Mr. A. O. Schuster, will erect a six-story apartment house on the property as soon as they can get possesion, which will be in the fall, as the present lease does not expire until October. It will be remerbered that Dr. Powell purchased the Kelly property on the northwest corner of Third and Market streets some time ago for the purpose of erecting an apartment house there. Complications arose over the title to the property, however, and the deal fell through. Dr. Powell did not care to abandon the apartment house project, and he immediately set about to secure another desirable location, with the result as outlined.

The Graffin property fronts 66 feet on Third street and extends back on Walnut 121 feet, making it of a most desirable size for the building contemplated. It is in a most desirable location and one that is rapidly improving in appearance as well as in value.

Plans for the apartment house have not been completed, but it is announced that it will be of six stories in height, fireproof construction and with heat, hot and cold water, gas and electric lights, elevator, etc. The new owners of the property plan to start work as soon as they can get possession.

It is of interest in connection with the sale of the property yesterday to note that this same piece of property has been sold three different times in the last seven months by the Pate Agency. About six months ago Mr. Thos. E. Cooper purchased the property through Mr. Pate's agency for the sum of $8,000. At each transfer since that time a substantial increase in price has been noted. The record of this piece of property is another indication of the increased values and the activity in the local real estate market for the past year.

Real Estate Transfers.

Deeds were filed for record yesterday as follows: Chas. Finkelstein to Dr. T. V. Moore, for $1,000 and other considerations, lot on northeast corner of Eighth and Dawson streets, 67 :82 feet in size; R. W. Gibson and wife to Graham Kenan, for $1.000 and other considerations, lot on northeast corner of Third street and Cottage Lane, 90x165 feet in size; Thos. Papademos to J.W. Blake and wife, for $100 and other considerations lot on Second, 142 feet south of Nun street, 29x110 feet in size.

Lumina Concerts Today.

Afternoon, 4 P. M., night 8:30 P. M. Among the selections are "The Palms" "Chimes of Normandy," "Woodland Whispers" and a violin solo by Mr. Knelsel. **

HELD FOR SUPERIOR COURT

White Man Charged With Larceny Waived Examination Before Recorder Yesterday—Negro Broke up "Festibul."

W. S. Ames, a white man, charged with the larceny of two mileage books and about the sum of $70 in money from the safe of the American Agricultural Chemical Company, waived examination in the Recorder's court yesterday and was sent over to the Superior Court.

He failed to raise the $250 bond required and went to jail in default. A nol pros with leave was taken in the case against W.R. Dickens, another white man charged with complicity in the crime.

Ames was arrested in Rocky Mount on advices from Chief of Police John J. Fowler here and was brought back to this city Friday night by Deputy Sheriff John H. Davis. Dickens was arrested here and has been out on bond since. Dickens told the police that he was not concerned in the matter, except that he went with Ames on the night that he took the money and mileage books. He said that they left the city at night in a small boat and made their way up the river to the plant of the American Agricultural Chemical Company. Ames, he said, knew the combination to the safe, having worked at the plant and he opened it and secured the valuables He declared that Ames kept all the moneyand the mileage books. It is probable that he will be used by the State as a witness against the other man. Dickens said that he was under the impression that Ames had a right to go in the office of the company.

In the case of State against Dickens. Dickens being charged with taking one mileage book, and receiving other property stolen from the company knowing the same to be stolen, a nol pros was taken, the State making the statement to the court that it was unable to make out a case against Dickens, and that it believed Dickens to be guiltless. Dickens as stated was held as a witness against W. S. Ames, under $100 bond, which bond was promptly furnished and Mr. Dickens left for his home in Rocky Mount last night.

Acquaintances of Mr. Dickens say he is a clean young business man, with the very best business associations in that city. He was represented by R. F. Brooks, Esq.

Fannie Williams, colored, was found guilty of running a disorderly house and was sentencedto three months on the county farm. The case was left open for final judgment, however, and it is probable that if the woman will agree to move out of the neighborhood in which she lives the judgment will besuspended on payment of the costs.

A nol pros was taken in a case charging Chas. Wiley, colored, with an assault on a female.

Alfred Williams, colored, was found guilty on two charges, assault with a deadly weapon and carrying a concealed weapon, and was sentenced to three months on the county roads in each case.

However, judgment was suspended on payment of the costs in each instance. Alfred did not receive an invitation to a "festibul" given by the colored society elements in the Federal Point section a few nights ago and he armed himself with his "gat" and took a few drinks of 40-horsepower whiskey. His descent upon the "festibul" was sudden, picturesque and carried dismay into the hearts of the favored ones. They scattered to the four winds of the earth and left Alfred in triumphant possession of the field.

Geo. Brooks, Joseph Abraham, and Willie Joseph, white, were charged withm an affray. All werefound guilty. Brooks was taxed half the costs and theo ther two were assessed $5 and costs each. One drunk courtibuted $5 and costs.

THIRD STREET FINISHED.

Thoroughfare Now Presents Bitulithic Surface for Eleven Blocks.

The Atlantic Bithulithic Company, of Richmond, Va., yesterday completed its contract to pave Third street with bitulithic, and the popular thoroughfare is now one of the handsomest in the city. It is paved with bithulithic from Red Cross to Castle, the final block, between Church and Sastle, having been finished yesterday. The street is one that any city may well be proud of.

Beginning Wednesday morning the workmen of the company will be started to work placing bitulithic on the north side of Market, from Fourth to Tenth street. The concrete base has already been finished on this side of the street and the work of laying the concrete on the other side is now in progress. When Market is finished with bitulithic it will be an easy rival for popularity with Third.

Three Great Pictures.

The Grand Theatre will have one of the best bills of the week for tomorrow. **

The 49th Interest Quarter

Of The Peoples Savings Bank

July First and Second

* * *

Mrs. Lucy Utley Oliver, of Birmingham, Ala., is in the city spending some time with her sister, Mrs. E. B. King, 110 Grace street. She is accompanied by Mrs. Abernethy, also of Birmingham.

* * *

The regular monthly meeting of the Young Women's Auxiliary Society of the First Baptist Church will be held in the lecture room Tuesday afternoon at 4 o'clock. It will be led by Miss Nellie Pickard. All members are urged to be present.

* * *

Miss Nell Piper, of Durham, is expected Tuesday to visit Miss Ruth Farmer. Miss Farmer will return this morning from a delightful visit of several weeks to Philadelphia, Atlantic City and New York. She attended the commencement of the University of Pennsylvania while away.

* * *

Mr. Edward vomHof Peschau and bride, formerly Miss Gaylor, returned yesterday from their bridal trip, having visited several points of interest in the western part of the State. They are at home to their friends at No. 314 North Fourth street.

Mr. Leake Covington and Misses Faith and Elma Covington, of Rockingham, and Miss Mary West Cromartie, of Richmond, Ca., are guests at the home of Mr. and Mrs. C. C. Covington.

* * *

A very pleasant house party on Masonboro Sound came to a close yesterday after two weeks of uninterrupted pleasure. It was given by the "Midnight Suns Club." Among those in the party were Miss Violet Pigford, Mr. Avon Blue; Miss Susie Sholar, Mr. Jno Neistle; Mis Cleo Pigford, Mr. Virginius Hall; Miss Eunice Tucker, Mr. Decatur Robinson; Miss Oceana Cavenaugh, Mr. Claud Cooper; Mr. Eearl Penny. Miss Blanche Penny, Mr. Kenneth Davis, Miss Agnes Hayden, Mr. Horace Cooper, Miss Isabell Gaylor Mr. Fowler Morrison, Miss Rita Morse, Mr. M. O. Alexander. The out-of-town guests were Miss Lucile Jeffords, Florence, S. C.; M. H. Van, Charleston, Miss Clara Callihan, Mr. Archie Jeffords, Florence. Theparty was chaperoned by Mrs. W. R. Morrison and Mrs. John H. Gore.

PERSONAL PARAGRAPHS.

—Friends will be glad to learn that A. G. Ricaud, Esq., one of the leading members of the local bar, who has been quite ill at his Summer home at The Hammocks, was reported yesterday as being somewhat improved.

—Among the arrivals at the Colonial Inn yesterday were T. A. Covington, N. C.; J. S. Carrington, Cleveland, O.; A. W Moore, Maimi, Fla; R. S. Moon, St Louis; Ira B. Miles, Baltimore, Md; Mr. and Mrs. T. H. Haseltine, Baltimore, Md.

POLICEMAN NELMS SUSPENDED.

Entered Howard Relief Club Looking for Gamblers—Complaint Followed.

Policeman A. A. Nelms has been temporarily suspended from the force by Councilman B. C. Moore, in charge of the Department of Public Safety, following complaint by members of the Howard Relief Club that he entered the club rooms without permission. An investigation will be held tomorrow or Tuesday to ascertain whether or not Mr. Nelms is at fault in the matter.

Complaint was made to Mayor Joseph D. Smith, Friday that Mr. Nelms entered the club rooms Thursday night by forcing the porter to admit him, and that he walked through the rooms and inspected the places and then left, giving no excuse for his actions. Mayor Smith turned the matter over to Councilman B. C. Moore, who made further inquiry into the matter. He was informed that Mr. Nelms had a gun in his hands when he made the negro let him into the club.

Councilman Moore then took the matter up with the officer, who told him that he had seen several members playing cards in the club room and that he had heard one of them offer to bet another $2 on the outcome of the game. He then entered the club to arrest the men for gambling, but that he did not use it to force the any money up and left. He told Mr Moore that he did have his revolver in his hand when he demanded entrance, but that hedid not use it to force the negro to let him in. Mr. Nelms told Mr. Moore that he would welcome an investigation.

TO TREAT CLASS HERE.

Mr. A. J. Yopp of Reidsville Sanitarium is in the City.

Mr. A. J. Yopp, proprietor of the Yopp-Whitsett Sanitarium and Liquor Cure Co., has been in the city for the past several days treating a private patient which he discharged as cured yesterday evening. At the request of several he has decided to remain in the city the first of this week and treat a class of inebriates who do not find it practicable to visit the Reidsville Sanitarium. It is expected that this class will be quite large. Those who desire to talk over the matter with Mr. Yopp may see him at the Southern Hotel or may confer with him by phoning Mr. Walter E. Yopp's funeral parlors.

PORT PARAGRAPHS.

Schooner Arrives With Cargo of Molasses—Tug and Barge Clear.

The British schooner M. J. Taylor, Capt. Dukeshire, arrived yesterday from Barbadoes with cargo of molasses for the C. C. Covington Co.; vessel to Maffitt & Wood.

The tug Albatross, which arrived yesterday from Norfolk, cleared later in the day for Philadelphia towing barge Severn. The Severn's cargo consists of 1,380 pine pilings shipped by L. J. Merriman.

WRIGHTSVILLE BEACH

Miss Mary Evans, of Charlotte, has arrived at the Hanover Inn, where she will spend some time.

Mr. and Mrs. Earl C. Dickinson, of Jacksonville, Fla., arrived yesterday to spend some time at the Seashore Hotel.

Mr. and Mrs. M. J. Heyer, Mr. Henry Heyer and Miss Bell Heyer, of Wilmington, are spending a few days at the Seashore Hotel.

Raleigh News and Observer, yesterday: "Mrs. Harry Latta and son, Master Harry, Jr., have gone to Wrightsville Beach for the Summer."

After spending ten days most delightfully at the Oceanic Hotel Misses Margaret and Florence Stokes left yesterday afternoon for their home in Atlanta.

Mr. F. M. Pittman, of Wilmington, and party went outside from the Oceanic Hotel yesterday afternoon in the sloop yacht Edwin and caught a large number of fish.

Visitors to the beach will be glad to learn that the seats just above the grandstand extension at Lumina, on the ocean side of the pavilion, have been covered with a wide awning.

Mr. Earl Pendleton Webb, formerly of Wilmington, but now of Atlanta, is spending a few days at the Seashore Hotel. He is a son of Mr. and Mrs. W. G. Webb, of Wilmington, and has been most pleasantly greeted by many friends.

Yesterday's Charlotte Observer: "Mr. Lewis C. Burwell left yesterday afternoon for Wrightsville Beach, where he will join Mrs. Burwell and children. They have been there five weeks and will return with him Tuesday."

Mr. Thos. C. Law, of Atlanta, Ga., a member of the firm of the Picard-Law Company, consulting and analytical chemists, is spending a few days at the Oceanic Hotel. The company is arranging to open a branch laboratory in Wilmington.

The governing board of the Carolina Yacht Club has decided to secure an oxygen tank, which will be kept ready for instant use in cases of emergency. This step followed the unfortunate death of Mr. John Q. Myers, in the surf in front of the club house Thursday afternoon.

Mr. John G. Stanley, the popular bookkeeper at the Oceanic Hotel, gave a most enjoyable launch party yesterday morning from the hotel. The party was composed of the following besides the genial host, Misses Margaret and Florence Stokes, Miss Marguerite Gause, Mrs. John J. Woodside, of Atlanta, and Mr. and Mrs. Hamby, of Birmingham, Ala.

At the Oceanic Hotel this morning the usual Sunday concert will be given. It will begin at 11 o'clock. Mrs. Ignatius Fried, the leader of the orchestra, has arranged a most attractive programme. Mr. Jesse N. Couch, manager of the hotel, extends to the general public and beach residents in particular a cordial invitation to attend the concert.

The arrivals at the Seashore Hotel yesterday included the following: Mr. and Mrs. Chas. W. Moody and son and Mrs. Pris. Patton, Atlanta; Mrs. John Morrison, Rockingham; D. K. McRae, Laurinburg; B. H. Carter, Indianapolis; Mr. and Mrs. A. H. Ayres, Fayetteville; S. W. Anderson, Wilson; J. Ross McNeal, Burgaw; E. L. Powell, Bennettsville, S. C.; W. W. Heindel, Atlanta; H. L. Lyon, Whiteville.

Mr. H. S. Leard, district passenger agent of the Seaboard Air Line, gave a fishing party out from the Oceanic Hotel yesterday afternoon in the launch Suwanee, Capt. Salter. They went outside and caught about 100 fish. In the party besides Mr. Leard were Mr. F. A. Fetter, Jr., local commercial agent of the Coast Line; Mr. M. L. Hardeman, Mr. J. R. Bissitt and young Frederick Fetter, son of Mr. F. A. Fetter.

Among the arrivals at the Oceanic Hotel yesterday were J. M. Morgan, Portsmouth, Va.; S. H. Ball, Chicago; J. H. Smith, Virginia, and sister, Mrs. J. H. Reid, an attractive and popular lady of Atlanta; H. C. Lloyd, Newbern; Mrs. Jas. H. Hamby, Wilmington; Mr. A. S. Tregedant, St. Matthews; A. J. Flegal and J. A. O'Neal, Augusta; E. M. Hines, E. M. Hines, Jr., Misses Anna and Margaret Hines and Stanton B. McKinnon, Rowland.

There will be three concerts at Lumina today, one at 12 o'clock, one at 4 and one at 8:30 P. M. From the many excellent selections that make up the programme a fine musical entertainment is promised. First of all there will be a violin solo by Mr. Kneisel. The piece which Mr. Kneisel has selected to play for his solo is "Thais" by Massenet. Other selections on the programme are Liszt's "Hungarian Rhapsody," "Campus Ditties", "Chimes of Normandy," melodies from "Naughty Marietta," by Victor Herbert; "La Groconda' and others.

Commencing tomorrow the Western Union Telegraph Company will open an office under the pavilion at Lumina. This office will be in charge of Mr. J. E. Anderson, an experienced telegrapher, and all telegrams for cottagers on the beach will be delivered from this office. It is also contemplated that a first-class messenger service shall be operated from the Lumina office. Packages may be brought over from the city by the Tidewater Power Company, delivered to the office and be delivered by messenger service up or down the beach. This will make three Western Union offices at the Beach and in order to take care of the Summer business they have recently installed a direct wire between Wilmington and Atlanta.

One of the delightful bridge porch parties now so popular on the beach was given Friday afternoon by Mrs. Chas. N. Evans at her pretty cottage. The affair was a most delightful one and at its conclusion light refreshments were served. Those present were Mrs. T. Clancy Evans, Lumberton; Miss Mary Evans, Charlotte; Mrs. W. C. Jarnigan, Atlanta; Mrs. Robert McDowell, Miss Elvira Wright, Mrs. John Siebles, Columbia; Mrs. Martin Cannon, Miss Marguerite Brown, Concord; Miss Mary McCullen, Greensboro; Mrs. Geo. Bonney, Atlanta; Mrs. Wilson, Haverford, Pa.; Mrs. Chas. Baskerville, New York; Mrs. Jesse N. Couch, Miss May Beverly French, Miss Charlotte Fennell, and Miss Alice Atkinson, Wilmington. The prizes were won by Mrs. Cannon and Miss French.

The regular Sunday concert will be given at the Seashore Hotel today from noon until 2 o'clock. The following programme has been announced by the leader, Mr. Claude Elam:

Overture, "Raymond"—Thomas.
Berceuse, "Evening Bell"—Devries.
The Camel's Tread—Chapin.
L'invitation a la Valse—Weber.
Melodie in E Minor—Massanet. Pizzicato Polka—Strauss.
Slavonic Dance No. 1.—Dvorak.

Intermission.

Grand Selection from Opera "Faust"—Gounod.
"Dreams" from Tristam et Isolde—Wagner.
The Beauteous Song, "Come Unto Me"—Barri.
"Day Dreams" from Spring Maid—Reinhardt.
March, "The Iron Clad"—Brown.

The rector and congregation of St. James' church, corner Third and Market streets, cordially invite the residents and visitors on the beach to attend the services of their church on Sunday. The car which leaves the beach at 10:15 reaches Wilmington in ample time for the morning service, and that which leaves at 5:15 in the afternoon will be in time for the evening service. The morning service will be over in time for those attending service to catch the 12:30 car back to the beach without waiting. There will be a sermon at the morning service, but none in the evening. Ushers are in readiness at every service to receive visitors, and extend to them the hospitality of this congregation. It is earnestly hoped and urged by St. James' congregation that church people Summering on the beach, either for a long or short stay, will take advantage of this opportunity for worship at least once each Lord's Day.

The beautiful moonlight nights of late have made boating one of the pleasantest features of beach life, and Friday evening the yacht Edwin, of the Oceanic Hotel fleet, carried out a fishing and sailing party, given by Mr. C. N. Evans complimentary to his sister, Mrs. T. Clancy Evans, of Lumberton, who with her young son has been a guest at the Hanover Inn for the past week. The party sailed from the Oceanic pier at 9 o'clock and remained out until about midnight. While the cruising was confined to the inlet and sound, a remarkably fine catch of bluefish and other specimens of the finny tribes was landed. Among those aboard, in addition to Mr. and Mrs. C. N. Evans were Mrs. T. Clancy Evans, Miss Mary Evans, Mr. and Mrs. Geo. Bonney, of Atlanta; Lieut. and Mrs. L. C. Covell and Miss Alice Atkinson. Capt. Oscar Salter was in command, and the trip was pronounced one of the most enjoyable of the season.

LOCAL DOTS.

—"Mountain Missions" will be the subject of the lesson at the B. Y. P. U. services at the First Baptist Church this morning at 10 o'clock. Mr. B. V. Sunofsky will lead and Miss Carrie White will sing a solo.

—No. 2133 gets the suit of clothes and outfit given by the J. W. Fleet Co., in a contest which closed last night. The person holding this number is asked to present same at the store and get the outfit free.

—"Rosa Low, a young colored woman, was arrested yesterday by Officer J. O. Bullard and locked up at the City Hall. It is believed that the girl is insane and an inquiry into her mental condition will be held before Maj. W. N. Harriss, Clerk of the Superior court, tomorrow.

JUSTICE HARRISS' COURT.

Busy Doing on Magistrates' Row Yesterday—The Cases.

The wheels of justice in Magistrate Geo. Harriss' court were turning all day yesterday and quite a number of cases were disposed of, though none was of any great importance. Maggie Pope, colored, submittedto a charge of assault on Mary Robinson, colored, and judgment was suspended on payment of the costs. Chas Pope, Sarah Johnson and Mary Robinson, all colored, were given hearing on charges of an affray in which deadly weapons were used, and probable cause being found all were sent over to the Recorder.

"Mammie Smith, Haley Smith and Madeline Smith, all colored were found guilty of vagrancy and judgment was suspended on payment of the costs provided the women go to work. Ida Pridgen, Minnie Pridgen and Mag Smith colored, were found guilty of vagrancy and ordered to pay the costs Mag Smith managed to raise the amount against her, but the other two women could not produce the necessary wherewithal and were sent to the county farm to work out the amounts against them. Jim Gore, colored was sent to the county roads for 30 days for vagrancy.

Winters White, Emaline Brown, and Thos. Brown, all colored, were tried on charges of larceny of $30 from William Nixon, and were discharged. Nixon testified that he had $30 in a sack of rice in his room and that after the defendants had paid a visit to him and left he missed the money. He could produce no evidence to connect the trio with the theft, however.

REV. MR. CLAUSEN TO PREACH.

Visiting Minister Will Fill Pulpit at St. Paul's Today.

Upon the urgent invitation of the committee on supply of St. Paul's Church. Rev. F. B. Clausen arrived yesterday and will preach at the morning service today. He is a preacher of exceptional ability and members of the church feel that they have been fortunate in securing a visit from him. St. Paul's church will very likely call a pastor in the near future to succeed Rev. Dr. W. A. Snyder, who recently resigned to accept the pastorate of a church in Brooklyn, N. Y., but who will not leave for several weeks yet.

"The Infancy of Moses."

Beautiful Bible study in moving pictures at the Grand Theatre tomorrow. Always delightfully cool and pleasant.

Monday and Tuesday--July 1-2

49th Regular Interest Period

of this strong old Savings Bank, and all deposits made with us on these days will receive a full month's interest on October 1st, exactly three months from date.

If you have an account with us we would suggest that you add to it at this time. If you are not a depositor you should make every effort to open an account on Monday or Tuesday.

Remember, this is the People's Bank and you can start here with $1.00 or more.

"SAFEST FOR SAVINGS."

THE PEOPLES SAVINGS BANK

That Big White Building, Corner Front and Princess Streets.

N. C. BAR ASSOCIATION.

Lawyers Will Meet at Morehead City City—Fine Programme.

Atlantic Hotel, Morehead City, N. C. June 20—Senator Joseph Weldon Bailey, of Texas, will be the guest of honor of the North Carolina Bar Association which meets in the Atlantic Hotel in annual convention next Wednesday, Thursday and Friday.

President Francis D. Winston, has issued an invitation to every lawyer in North Carolina, whether a member of the association or not, to attend the meeting and an interesting programme has been announced by Secretary T. W. Davis, of Wilmington.

In addition to the address by prominent attorneys a State ball has been announced for the evening of the 4th of July, to be led by W. H. Pace and Mrs. Pace, of Raleigh, and a trip to Cape Lookout on the revenue cutter Seminole will be the feature of Thursdays social programme. 9 banquet Friday night will bring the programme to a close.

Subjects on the business programme of importance will be reports from committees on the Torrens system and legislation and law reform. Many reservations for accomodations at the Atlantic Hotel have been made and Manager Allen A. Dubers thinks the attendance at the Bar Association will greatly exceed that at the Bankers Convention which attracted more than 300 to Morehead this week.

Shipping Clerks to Meet.

A meeting of the shipping clerks of Wilmington has been called for tomorrow night in the Mayor's office at the City Hall, commencing at 8:30 o'clock. Matters of importance to every shipping clerk are to come up for discussion and action. Representatives of the Atlantic Coast Line and Seaboard Air Line will appear at the meeting relative to a live matter that has been under discussion for some time; consequently it is important that every shipping clerk be in attendance.

BEACH LOTS FOR Summer Homes

We have a few lots left in WRIGHTSVILLE BEACH EXTENSION for sale. The next four lots sold can be bought for $500 each. After that prices will be advanced. Lots will be sold only to those agreeing to build houses on them. A number of cottages have already been built in WRIGHTSVILLE BEACH EXTENSION and others will be built soon.

Available building sites at Wrightsville Beach are becoming scarce. If you wish to own a Summer home on the beach get one of these lots.

COTTON MARKET ABOUT QUIET

Fluctuations Were Irregular, With the Close Steady at Net Decline of One to Five Points—Opened at a Loss.

New York, June 29.—The cotton market was comparatively quiet today and fluctuations were irregular, with the close steady at a net decline of 1 to 5 points.

The opening was steady at a decline of 3 to 4 points in response to lower cables than due and scattering liquidation or realizing by recent local buyers. Reports of continued unsettled weather, with showers in parts of the Eastern belt, caused some uneasiness regarding the position of the crop, however, and with the market receiving considerable support from the same interests who are credited with having taken the bulk of July notices yesterday, prices soon rallied. Covering for over the week-end helped the advance and there was also some buying here from New Orleans, but prices eased off from the best under continued realizing. The close was a couple of points under Friday's finals on new crop months. Aside from the operations of bullish spot interests, the trading here seemed to be chiefly in the way of evening up for over the week-end and the governmnt report which is to be published next Wednesday.

Receipts 3,107 bales against 2,106 last week and 1,960 last year. Today's receipts at New Orleans 1,719 against 63 last year; at Houston 127 against none last year, and at Galveston 999 against 143 last year.

Futures closed steady.

A NOTRE DAME LADY'S APPEAL.

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box B, Notre Dame, Ind.

LITTLE INTEREST IN STOCKS

Beyond Another Meteoric Rise in American Tobacco Nothing of Great Importance Occurred in The Market.

New York, June 29.—Beyond another meteoric rise in American Tobacco and pronounced strength in some of its former subsidiaries there was little of interest in today's session of the stock market. The better known securities rose and fell fractionally.

Canadian Pacific reported a net gain of $736,000 for May and Boston and Maine gained $320,000, but the Reading exhibit was unfavorable.

Bonds were irregular, Government bonds unchanged on call throughout the week. Total sales for the day 156,700 shares.

The Oasis.

By steadily bearing in mind that what you know and think, you know and think not for yourselves alone, but for others, you may become the center of a little green spot of intelligence in the midst of this arid waste we call society.—Phillips Brooks.

One of Life's Best Pleasures Missed.

Of all the things that make life worth living friendship comes near the top. But friends are rare, because we are too busy.

Even In Those Days.

The children stood in awe before one of the museum mummies. At last the elder whispered to her father, "Why is the old woman wrapped up in bandages? Did she die of an accident?" Before he could reply the younger girl said, "Oh, yes! She must have been run over by a motor car. There's the number—'B. C. 1461.'"

Italy is experimenting with aerial mails, an aviator recently carrying a sack of letters 101 miles in 88 minutes.

"Ain't It Funny?"

There are a lot of people walking around here, working no harder than ou, and yet they appear to be remarkably prosperous!

DO YOU KNOW THE ANSWER?

They started out with a small proposition—now they can SWING THE BIG ONES.

Get your start now—read about these two propositions—

Lot on Seventeenth, between Princess and Chesnut, has doubled in value in three months. WHAT WILL ITS INCREASE BE IN TWELVE MONTHS? Granolithic silewalks, sewerage, electricity, gas, macadamized roadway, beautiful surroundings, and CHEAP!

We also have for sale a

HALF CITY BLOCK

at Fifteenth, between Market and Princess. This is the logical center for immediate future real estate operations.

SPANKING, BRAND NEW BITULITHIC ROAD

on Fifteenth street, right in the heart of the principal real estate development of the city. We will sell this property as a whole or in lots, and the price is REMARKABLE.

And don't forget, we have many other valuable propositions that will help you to put on the brakes, let up on your work and LAUGH AT ECONOMY! We buy, sell and rent all kinds of property. Our rent collecting service is unexcelled by any firm in the business. Come to see us.

FAILED TO REACH THE FINAL VERDICT

(Continued from Page One.)
delegate, Joshua W. Miles answering to his name, shouted: "Woodrow Wilson."

Immediately the convention was in an uproar.

Miles represented only half a vote, but it was the signal to the Wilson adherents ofr a demonstration.

It was the first indication of a long expected break in Maryland and the Wilson forces made the most of it.

When the demonstration had continued five minutes, the "We want Wilson banner" was hoisted by several men.

Soon the aisles were choked with a mass of excited delegates.

In the galleries was heard the shout of "We Want Wilson," but it did not last long. The cheering, whistling and hooting drowned it out. The roar redoubled as a huge Wilson banner was carried down a side aisle.

While the excitement was at its height the Clark forces joined in. Half a dozen Clark banners were carried into the hall. They were greeted with a roar of cheers, jeers, hoots and hisses. The uproar became pandemonium. The Foss crowd added their quota to the din.

The New Jersey and the Missouri delegations seated directly across the center aisle from each other just before the platform, began a wordy quarrel.

One of the Missouri delegates, red of face and dripping with perspiration, climbed on his chair, and with a wealth of gestures, made an impassioned speech to the hooting crowd as it passed by.

The picture of Wilson which is 15 feet high and which played its part in former Wilson demonstrations was again hoisted to the gallery. Cheers greeted it.

The Clark forces not to be outdone, forced the big California Clark banner up to the platform.

A fight was narrowly averted as the convention officers forced it back down the steps.

A girl, Miss Gladys Hogan, of Baltimore, seized the California banner and tried to lead the demonstration, but without much success.

After the demonstration had lasted 25 minutes, the chair ordered the police to clear all banners from the hall and to allow no women in the section reserved for delegates.

Some semblance of order finally was restored.

The poll of the Maryland delegation was resumed. A cheer greeted the vote of Senator Isador Rayner, cast for Wilson. The poll was frequently interrupted by disorder. It became so difficult to keep the delegates and spectators quiet that extra policemen were stationed in all the aisles.

The poll showed Wilson 2 1-2; Clark 12; absent 1-2.

A point of order against the splitting of the delegation's vote was overruled by Chairman James because no evidence that the delegation was under instructions was before the convention.

Immediately after the announcement of the 26th vote Representative Mitchell A Palmer, of Pennsylvania, declared that the delegates had reached the limit of physical endurance; that it was apparent that no agreement could be reached before midnight and that it was not desirable that the convention work on Sunday.

"By agreement of the representative of all the candidates now before this convention I move that we adjourn until Monday."

Before the motion could be put delegates and spectators began to file from the hall.

David R. Francis, of Missouri, for the Clark forces, seconded the motion. A Texas delegate tried to make it 10 o'clock Monday morning. And 11 o'clock as the time for Monday's session was finally reached.

The convention adjourned at 11|07 until 11 o'clock Monday.

SURVEY OF CONVENTION.

General Impression That Wilson Will be the Nominee.

(By W. P. M. Turner.)

Baltimore, June 30.—General doubt is expressed this morning as to what will be the ultimate outcome of the Baltimore convention, but the indications now are that Woodrow Wilson will be the nominee of the Democratic party. He has more than 300 votes to secure, but there is no doubt about his receiving a tremendous gain just as soon as there is a serious break. He is looked upon with great favor by practically all of the Clark delegates in the West and the support of Bryan has been a power. Bryan absolutely dominates the convention and on the temporary chairman vote it was not that Bryan did not possess the power that he was turned down, but because the convention did not want to put him personally in the attitude of leading. The convention is willing for Bryan to say what shall be done and name the leader of the Democratic party, but is not willing for him to be the man. It was said here tonight that Clark's coming from Washington was to strengthen his delegation and it is generally believed that on the first ballot Monday the Clark support will be strengthened and that Monday it will put up a stiffer fight than towards the close of the balloting tonight. Scarcely a person can be found, though, who thinks Clark can be nominated. Unless Wilson shows a material again early in the balloting Monday Kern will in all probability be brought out. It is believed that Kern is the man Bryan really prefers and that he will find some means of letting the convention know it, if the chance presents itself. Every indication now points to at least several ballots before any choice is made and the deadlock may continue for some eight or ten ballots or more. Wilson's support has stuck like a brick wall.

In North Carolina in nearly all ballots Messrs. McQueen and Underwood have voted for Underwood and Clark and McKinnon for Wilson. McLean and Hale have also voted for Wilson.

New York, June 29.—The clearing house bank statement for the week shows that the banks hold $21,074,750 reserve in excess of legal requirements. This is a decrease of $8,165,000 in the proportionate cash reserve as compared with last week.

WILSON VOTE GOES OVER FOUR HUNDRED MARK

(Continued from Page One.)
Belmont," answered Bryan.

Mr. Bryan then read a statement in part as follows:

"Nebraska is a progressive State. Only twice has she given her vote for a Democratic candidate for President, in 1896 and in 1908, and on both occasions her vote was cast for a progressive ticket running upon a progressive platform. Between these two elections the election of 1904 gave a Republican plurality of 85,000 against a Democratic reactionary.

"In the recent primary the total vote cast for Clark and Wilson was over 34,00 and the vote cast for him was something over 12,000, showing that the party is now more than three-fourths progressive, or about three-fourths progressive. The Republican party of Nebraska is progressive in about the same proposition.

"And the situation in Nebraska is not materially different from the situation throughout the country west of the Alleghenies. In the recent Republican primaries, full two-thirds of the Republican vote was cast for candidates representing progressive policies. In this convention the progressive sentiments is overwhelming.

"Every candidate has proclaimed heretofore a progressive—no candidate would have any considerable following in this convention if he admitted himself out of harmony with progressive ideas. By your resolution adopted night before last, you, by a vote of more than 4 to 1, pledged the country that you would nominate for the Presidency no man who represented or was obligated to Morgan, Ryan, Belmont or any other member of the privilege seeking, favor hunting class.

"This pledge, if kept will have more influence on the result of the election than the platform or the name of the candidate. Now can that pledge be made effective?

"Mr. Clark's representatives appealed for support on no other ground, they contend that Mr. Clark was more progressive than Mr. Wilson, and indignantly denied that there was any co-operation between Mr. Clark and the reactionary element of the party. Upon no other condition could Mr. Clark have received a plurality of the Democratic vote of Nebraska.

The 13 delegates for whom I speak stand ready to carry out the instructions given in the spirit in which they were given and upon the conditions under which they were given (Great applause); but some of these delegates will not participate in the nomination of any man—I cannot say for how many I can speak for I have not had a chance to take a poll—but some of these delegates will not participate in the nomination of any whose namination depends upon the vote of the New York delegation.

"Speaking for myself and for any of the delegation who may decide to join me I withhold my vote from my vote from Mr. Clark as long as New York's vote is recorded for him. (great applause and hisses). And the position that I take in regard to Mr. Clark, I will take in regard to any other candidate whose name is now before the convention.

"I shall not be a party to the nomination of any man, no matter who he may be or from what section of the country he comes who will not, when elected, be absolutely free to carry out the anti-Morgan-Ryan-Belmont resolution and make his administration reflect the wishes and the hopes of those who believe in a government of the people, by the people and for the people. (Great applause.)

"If we nominate a candidate who is under no obligation to the interests which speak through Mr. Murphy, I shall offer a resolution authorizing and directing the Presidential candidates to select a campaign committee to manage the campaign in order that he may not be compelled to suffer the humiliation and act under the embarrassment that I had, in having men participate in the management of his campaign who had no sypmathy with the party's aims and in whose Democracy the general public has no confidence."

The result was: Clark 500 1-2; Wilson 396 1-2; Underwood, 115; Marshall 30; Foss 43; Bryan 1; Kern 1.

Clark lost 7 1-2, Wilson gained 1, Underwood lost 3 1-2 and Foss took a place on the roll.

Harmon's 29 in Ohio were eliminated. 28 1-2 going to Clark and half a vote going to Wilson.

The 23rd roll was begun at 7:45 P. M. The result was: Clark 497 1-2; Wilson 399; Underwood 114 1-2; Marshall 30; Foss 45; Bryan 1; Gaynor,

This was a loss of three for Clark and a gain of 3 for Wilson and a loss of 1-2 a vote for Underwood. The 24th ballot was begun at 8:09. Iowa's delegation which had been passed, demanded a poll. The delegates stood 737 for Wilson; 19 for Clark. Sulzer in the chair ruled that the vote must be case for Clark and an Iowa delegate appealed from the decision of thechair. Representative Hughes, the Wilson leader, demanded a roll call on the appeal and amid disorder the clerk began the call.

Finally the appeal was withdrawn. The 24th ballot stood: Clark 496; Wilson 402 1-2; Underwood 115 1-2; Foss 45; Marshall 30; Bryan 1. This gave Clark a loss of 1-2, Wilson a gain of 3 1-2; Underwood a gain of one and Foss a loss of two.

Wilson had passed the 400 mark for the first time and when the vote was announced, the Wilson enthusiasts cheered loudly.

Senator Stone, of Missouri, asked unanimous consent to an agreement.

"I ask unanimous consent," he said, "that after two additional ballots on the third ballot, the candidate receiving the smallest vote on that poll be dropped from the ballot and on the next ballot the candidate receiving the smallest number of votes and so on."

Chorus of hoots and jeers greeted this proposal and Representative Burleson objected.

Chairman James then directed the 25th roll call.

The result on the 25th ballot was: Clark 469; Wilson 405; Underwood 108; Foss 43; Marshall 30; Harmon 29; Bryan 1; James 3.

This was a loss of 27 for Clark; a gain of 2 1-2 for Wilson, and a loss of 7 1-2 for Underwood. Harmon returned to the poll with his 29 votes in Ohio which deserted Clark.

When Missouri was called on the 26th ballot the entire delegation arose and shouted: "Thirty-six for Champ Clark."

ROOSEVELT AMUSED.

Still Holds Up Plans for Developments at Baltimore.

Oyster Bay, N. Y., June 29.—"It is just a game of push in the corner," said Col. Roosevelt tonight, when he heard of the day's happenings in Baltimore. The colonel had been picnicing all day and did not know what had been going on until he returned. When he was told that William J. Bryan had declared he would not be a party to the nomination of a candidate supported by Charles F. Murphy, he laughed heartily.

"It is very funny," he said, "but, of course, it is preposterous to think of a convention in which Bryan and Ryan are in good standing."

Plans for the formation of the new party are still being held up to await developments at Baltimore.

"I expected to be able to say something definite a day or two ago," said the colonel, "but the Baltimore convention is hanging on so that we have been delayed."

A report that Ormsby McHarg, who managed Col. Roosevelt's recent campaign in some of the Southern States, had declined to join the new party, was neither affirmed nor denied, Col. Roosevelt saying that he had "heard nothing of it." William T. Willard, of Westchester, he said, had written him a "nice letter" explaining why he did not wish to leave the Republican party.

"There are a good many men who will take the same view," he said, "but for every man who leaves us we will get 10 others who were not with us before."

The number of students registered this semester at the universities of Germany is 57,415. In 1895 the number was 28,567.

OUTLINES

The Southern Textile Association closed its annual convention in Greensboro last night, officers being selected and Chattanooga, Tenn., being decided upon as the next meeting place.

Cornell won all three races rowed on the Poughkeepsie course yesterday.

During the afternoon and night sessions of the Democratic convention yesterday Wilson made sure and steady gains, finally passing the 400 mark before adjournment. The Clark forces were greatly worried over defections in their ranks, the Speaker's vote constantly falling off.

With Wilson gaining on each ballot and Champ Clark constantly losing ground the Democratic convention adjourned last night at 11:05 o'clock till Monday morning at 11. No candidate came near the necessary two-thirds vote on the last ballot taken, the 26th, and it is thought the delegates will not hurry matters Monday, and the convention will likely remain in session a good while.

Champ Clark went to Baltimore last night intending to answer Bryan's attacks on him, but the convention adjourned before he reached the convention city. He will probably address the convention when it meets Monday.

Woodrow Wilson decided last night not to go to Baltimore, as he considered it undignified.

Two hundred Republicans who were active for Roosevelt in the recent campaign, bolted the Republican party at a meeting in Boston last night and formed "the Progressive party of Massachusetts."

Something Interesting.
A Remanufactured typewriter is not a second-hand typewriter. To remanufacture a typewriter means that it is made new throughout. All worn parts are replaced by new parts, and the machine is made new. A second-hand typewriter is one that has been used and has not had the old worn parts replaced by new ones. Remanufactured typewriters are practically new machines, and our faith in them enables us to give you the same guarantee the manufacturer gives. This should convince you that they are as good as those you pay from $100 to $125 for, and we save you from 25 per cent to 50 per cent.
UNDERWOODS $40.00 AND UP.
Place the difference to your credit in the bank. We also sell the Remington, Monarch, Smith Premier and others at equally attractive prices. Come and see our stock. IT WILL PAY YOU.

NOTES OF TRAVEL IN CHINA

Theatrical Man Sees the Empire and Gives His Impressions of the Land and Its Teeming Thousands of People

(By Heywood Broun).

(Br. Broun has been sent from New York to China by the Liebler Co., to gather material that will insure an accurate stage presentation of "The Daughter of Heaven," a new Chinese play by Pierre Loti and Judith Gautier, which will be next season's production at the Century Theatre, New York. Mr. Broun will detail his experiences for this newspaper).

On board the Shenking, off Tiensin, China, June 30.—In no phase of life is the remark that China is a country of contrasts so true as in the distribution of wealth. There is in the Empire, of course, any amount of abject, fighting poverty, but there is also a great deal of wealth in the Chinese cities. I saw in Shanghai the garden of a rich Chinese merchant and it was by far the most elaborate I had ever seen. No Chinese garden is complete without a pond and an artificial one had been built to suit this need. At points about the little lake were Summer house and pavilions of various sorts and this, too, is thoroughly characteristic of the Chinese idea of landscape. There is nothing wild in a Chinese garden. Things must be cut and trimmed into set patterns and the hand of the man must be seen at every angle. One of the pavilions was made in the shape of a houseboat which is an idea that was copied from the garden of the imperial palace in Peking.

In Shanghai I had the pleasure of meeting the Princess Der Ling who was for two years first lady in waiting to that remarkable woman the Empress Dowager of China. She was very much interested to hear that the "Daughter of Heaven," which is to be put on next season at the Century Theatre in New York a picture would be given of the Chinese court and its life. She told me some of her experiences in the forbidden city.

"The Old Budha," as the late Empress was commonly called by foreigners, was a conservative to the bitter end and though she was finally obliged to introduce changes and reforms in her country through the influence of the Western powers, in the court life she was able to preserve with fidelity the traditions of her ancestors. Of form and ceremony she was most jealous and in court which has always been noted for its ceremonials her reign marked the high-water mark in exactitude of etiquette.

Chinese Princess an American's Wife

The position of first lady in waiting to such an Empress and in such a court must indeed have been a trying one and particularly to the Princess Der Ling who spent almost all her early life in France where her father, Lord Yu Keng, was minister. The Princess, who is now the wife of an American, Thaddeus C. White, Land Commissioner in Shanghai, was a most observant lady in waiting, and has a large store of interesting and amusing anecdotes of life in the palace of the Empress.

"Her Majesty," said the Princess Der Ling, "was always addressed as 'great ancestor' or 'dear father.' This was done because she had always wished to be a man and compelled everyone to address her as if she actually were one. She was nevertheless not without feminine vanity, and was fond of dress and jewelry of which she had an enormous collection. When I first saw her she wore a yellow satin gown embroidered with flowers on each side made of pearls and jade, a pearl tassel on the left side and a beautiful phoenix in the center, made of the purest jade. Over her gown she wore a cape. It was made of about three thousand five hundred pearls the size of a canary bird's egg all exactly alike in color and perfectly round. It was made on the fish-net pattern and had a fringe of jade pendants and was joined with two pure jade clasps.

In addition to this Her Majesty wore two pairs of pearl bracelets, one pair of jade bracelets, several jade rings, and on her third and little fingers of her right hand she wore gold finger nail protectors about three inches long and on the left hand two finger nail protectors made of jade and about the same length. Her shoes were trimmed with small tassels made of pearls and embroidered with tiny pieces of colored jade. This was typical of her ceremonial costume.

The Chinese Court was no place for a sluggard for the Empress was accustomed to rise at six o'clock in the morning and the court ladies were therefore obliged to be up an hour earlier. The Empress had the convenient habit of sleeping in the same clothes which she wore during the evening but she changed them every morning. Her bed was a great deal softer than that of most of her subjects for she varied the Chinese custom of sleeping on a brick foundation and had several matresses. She had many pillows beautifully embroidered but the one on which she slept was a particular one stuffed with tea leaves which were thought to be very good for the eyes. She was also fond of a pillow which had a hole in the middle on which she laid her ear with the idea that she could thus hear if anyone came in on her unaware.

Although an old woman she had beautiful hair and she was most particular in dressing it. She parted it in the center and brought it low at the back of her ears. The back braid was brushed up on top of her head and made into a tight knot. On top of this was placed the Gu'un Dazn or Manchu headress which was fastened through the knot with two large pins. She was very fussy about her hair and the eunuch who had charge of this work could well expect a couple of beatings each week. To top off her toilet she sprayed her face with a kind of glycerine made of honey and flower petals. After that she put some strong scented pink powder on her face.

Had to Eat Standing

"The Empress usually took her meals alone," said the Princess Der Ling, "but occasionally as a special mark of favor she would allow one or two of us to eat with her. Of course, this was a great honor and it was necessary to acknowledge it by kowtowing before the meal began. Of course, we could not sit down but ate standing while the Empress was present. There was an no exception to this rule, not even in the case of the young Empress. The Manchus do not eat out of a common bowl as the Chinese do but are served separately. The chief staple of diet was pork. Beef was not allowed in the palace as it was considered a sin to eat animals that were used as beasts of burden. Pork would be served in many different ways, as chopped pork with chopped bamboo shoots, pork cut in cubes and cooked with cherries, pancakes of eggs, pork and mushrooms chopped fine and fried, pork cooked with a special kind of sauce made of beans which gives it a red color. Chicken and duck were also always on the table. They were stuffed with little pine needles and roasted in an open-air oven. One of her Majesty's favorite dishes was the skin of roast pork cut into very small slices and friend until it curled up like bacon. We also had many pickles and of these the Empress was very fond. The Manchu people eat little rice."

The Empress was at times hard to please and on such occasions she was liberal in dealing out punishments to the eunuchs and other servants. "The first person I saw punished in the palace," said Mrs. White, "was a servant girl who had made a mistake and brought her Majesty two socks which were not mates. The Empress ordered another servant girl to slap her ten times on each cheek. Dissatisfied with the manner in which her command was carried out she told the one who had been slapped to slap the other an equal number of times. The eunuchs who fell into disfavor were beaten on the legs with heavy bamboo sticks but though sometimes as many as one hundred blows were administered they did not seem to mind the punishment very much." During the time of the Princess Der Ling in the service of the Empress a severe drought visited China and its severity was reflected in the palace where the Empress gave orders that no one should eat meat until rain fell. It was also ordered that everyone should wear willow leaves in their hair as the willow tree was supposed to bring water. As the drought still continued the command was issued that each inmate of the palace should pray for rain twenty times a day. The bombardment of prayers was at last successful, rain fell and meat was restored to the imperial table.

On the Emperor's Birthday

One of the principal ceremonials of the year is the Emperor's birthday. In the great audience hall the foreign ministers and the principal Manchu officials were received. As the Emperor came in it was customary for everybody present, except the ministers, to kowtow to the floor three times. As there were several hundred people kowtowing at the same time and not altogether in unison the sight was likely to provoke laughter rather than reverence. During the ceremony an official crier used to shout out the directions as to when the people should kneel, bow, stand up and kowtow, but it was impossible to hear him on account of the din of the Chinese musical instruments.

"The principal instrument is made of hard wood and has a flat bottom about three feet in diameter with a dome-shaped top raised about three feet from the ground," said the Princess Der Ling. "The inside is hollow. A long pole made from the same wood is used as a drumstick. An official specially appointed beats on this drum with all his might. The din thus created is almost sufficient to drown all other sound. The drum beats are used as a signal to announce when the Emperor takes his seat on the throne. In addition to the drum a full-sized model of a tiger, done in wood, with twenty-four metal scales on its back, is brought into the courtyard. This instrument is played by scraping a stick over the scales on the back. It makes a noise like a pack of small fire crackers. The noise was kept up all throughout the ceremony. Another instrument was made of a wooden frame eight feet by three from which were suspended twelve bells made of pure gold. When these were struck with a woodn stick the sound was like that of a dulcimer only louder. This was placed at the right hand side of the audience hall and on the left was a similar instrument with the difference that the bells were made of white jade.

"After the ministers and officials had been received, the Emperor went to his private palace where he was greeted by his wife, his secondary wife and the ladies of the court. We all kowtowed, and then the young Empress knelt and presented him with a scepter of jade which is supposed to bring good luck. Stringed instruments played while this ceremony was in progress. Next the eunuchs were received and then the servants. No music was played during this part of the ceremony."

Seven Doctors and Seven Prescriptions

The Empress was very seldom ill but such times were very trying. She had no use for foreign doctors, or foreign anything else for that matter, but trusted her health to her seven court physicians. As soon as she was ill, all seven would be summoned to her bedside and each in turn would take her pulse. This was a ceremony, for the doctor was obliged to kneel while her Majesty stretched forth her arm and rested it on a small pillow. After each doctor had taken the pulse he would write out a prescription. Invariably these would all be different. The Empress would look them over and choose the one which she thought to be the nicest to take. Before taking it, however, the doctor who wrote the prescription and two attendants were obliged to swallow a dose in her presence.

"The birthday of the Empress involved ceremonies which extended over several days. The most interesting of these occurs on the sixth day. At four o'clock in the afternoon the Empress and all the ladies of the court went to the top of a hill where there was a temple. Attendants carried ten thousand birds in cages. After praying at the temple the Empress opened the cages containing the birds and they flew away with the exception of one or two parrots which refused to leave their cages. This these same birds had done for several years and the eunuchs were accustomed to explain it on the ground that the parrots were so impressed by the kindness of the Empress that they preferred to remain in captivity. Upon inquiry, however, the Princess Der Ling learned that the birds had simply been trained to act in that way by the crafty eunuchs. The birds which are allowed to escape are captured by eunuchs at the bottom of the hill.

Mexican Money or A Long Route

Before leaving Shanghai a tribute should be paid to the most cosmopolitan city in the world. Indeed some special word should have been coined to suit this particular town. That portion of it which is included in the foreign settlement comprises the greater portion of the town. It is peopled by English, Americans, Germans, Dutch, Portuguese, French, who have their own separate concessions, Russians, Japanese, Austrians and Chinese. Its medium of currency is the Mexican dollar and its policemen are sikhs imported from India. The intricacies of banking in Shanghai were expressed by a man who said to me:

"I receive every month a French note calling for a payment in pounds sterling. I take it to a Russian bank where the amount is figured out into Chinese taels, and I am then paid in Mexican silver dollars.

There are men in Shanghai who make their living simply by changing their money into taels and back into dollars again at various times throughout the year. The greater part of the settlement is taken up by Chinese who have moved over from the native city. They have no "squeeze" or graft of the native officials.

The Sikh policemen, fine big brown men with brave colored turbans make the most impressive looking policemen in the world.

They speak the language of nobody at all in the city except themselves, but from the standpoint of the people of the settlement they are ideal police for in case of a row between a white man and a Chinese they do not bother to reason or figure out the case but simply belt the native over the head. The Chinese hate and fear the Sikhs and when an active riot occurs, and they are not infrequent, the men from India are the first point of attack.

GOTHAM'S ELECTRICAL GIANT

Largest Turbine in the World—Sugar Trust Arouses Skepticism—Paper Bag Cookery—Game of Pool—Other Notes.

(Special Star Correspondence.)

New York, June 29.—A line of horses six abreast and ten miles long, or 30 of the largest express locomotives, would be requfred to accomplish the work of the mightiest machine in the world for the generation of electricity which has just been added to New York's power resources.

The most remarkable feature about this new mechanical giant, a steam turbine, is its relatively small size. Only 17x17 1-2 feet at its base, with a height of 35 1-2 feet, the new generator supplies power sufficient to provide all the electrical current required by a city of 250,000 population or to furnish light alone to such a group of cities as Albany, Syracuse and Utica. Weighing but 420 tons the machine equals in power the greatest leviathan afloat. A striking illustration of the development of power facilities is afforded by comparison of this last word in central station equipment with the machines in use but 25 years ago when 16 primitive "jumbos" furnished Father Knickerbocker with his electric lights. No less than 240 of the old generators with a total weight of 7,200 tons would be required to do the work of the new generator which could be enclosed in a small cottage with room to spare. The new generator uses 400 tons of coal daily to produce 7,200,000 pounds of steam and for condensing this steam requires 86,000,000 gallons of water every 24 hours. Two similar machines are nearing completion and when the complete battery of three is in operation the trio of monsters will require 258,000,000 gallons of water daily or almost half as much as the entire supply of the city. When the 16 "jumbos" did the city's electrical work there were but 15 miles of mains and feeders all in the small territory south of City Hall park. Now there are 1,114 miles of mains, feeders and cables in the underground system to carry "juice" throughout a territory of more than 61 square miles.

NOTES OF TRAVEL IN CHINA

(Continued from Page Nine.)

The situation in Shanghai is very strained just now as the municipal authorities are trying hard to gain an extension of the settlement and there have been many disturbances on the boundary between the native city and the foreign concessions.

Shanghai is "East of Suez" but it refuses to live up to Kipling's dictum, for its possesses ten commandments in perfectly good repair. Time was when rolling down the purple path to perdition may have been Shanghai's favorite sport, but it has now been displaced by cricket and amateur theatricals. A man who came out to Shanghai a few days ago wrote home to an American magazine that in Shanghai no man drank less than five cocktails a day. Shanghai is still angry at that man although I have not been able to ascertain whether the complaint was on the ground of over or under estimation. Certain it is that it was a Shanghai man who described "the call of the East" as "Boy, whiskey and soda."

Chinese "Camilles" and "Tom" Shows

The curse of Shanghai, however, is not drink but the "old China hand." An old China hand is a man who has been in China anywhere from two to twenty years. It makes no difference whether or not he has ever been outside of the settlement of Shanghai. Seniority alone makes him an authority on China. His greatest delight is to get a stranger in a corner and dilate at length on the proposition that the workings of a Chinaman's mind are so mysterious that it is impossible ever to understand any phase of them. He will usually supplement this remark by saying the longer you are out here the less you know, but unfortunately he never appreciates the fact that the rule refers to himself in any way. If he has any more time at his disposal he will spend it in "cussing" the missionaries.

Whether Western religion or Western civilization will ever completely conquer China is perhaps open to doubt but there can be no question about Western clothes and cigarettes. With the passing of the queue every Chinese in Shanghai is getting into a straw hat, a pair of tan shoes, a blue serge suit. The drama is also looking up. "We have here now," said a young Chinese reporter to me, "many of your new American plays translated into Chinese and played at our new theatre on the Bund."

"What for instance?" I asked.

"'Camille' and 'Uncle Tom's Cabin.'"

And yet there are some people who question whether the revolution has been a profound one.

Taking the Queue

Before leaving Shanghai I saw a tragedy enacted in which my rickshaw coolie Tom Longboat played the principal part. He had taken me down the Chinese Bund and although he had made a previous agreement on the fare he was beginning to look for an opening to ask for more. He began by saying that the day was hot, and then, after a time, added that he had gone a long ways. Just at this point we crossed the line which separates the foreign settlement from the native city. I got off out of the rickshaw to take a picture and was startled after walking a few steps to hear an agonized cry behind me. Turning I saw Tom Longstreet in the grip of two revolutionary soldiers. They tore off his cap and there neatly curled on top of his head was a queue. I never knew that he still possessed that mark of Manchu servitude. He looked to me for help but I was in no mind to endeavor to stop the wheels of progress. There was a flash in the sunlight and a click of steel. Tom and his badge of servitude had parted.

The present craze to remove the queue is peculiar. It was, indeed, first imposed by the Manchu conquerors of China, 250 years ago, but the Chinese apparently had become entirely reconciled, and, in fact, very proud of their headdress. Authorities on China and the Chinese have mentioned the fact of the devotion of the Chinese to their queues and have hazarded the opinion that it would be one of the last distinguishing marks to yield to the invasion of Western customs. In Shanghai before the revolution there were not more than a few hundred queueless Chinese but now at least five-sixths of all the people have removed them. When Nanking fell, three hundred thousand queues did the same in the city of Shanghai.

The prevailing language for communication between whites and Chinese all along the coast is the famous "pidgin" English which is an attempt to put sentences in the Chinese form of construction and also change some of the consonants such as "r" which are particularly difficult for the Chinese ear. It was invented because the average Englishman is very loath to learn a foreign language, particularly a difficult one like Chinese. Men who have been on the China coast for 20 and 30 years have told me, "No, I don't know a word of Chinese," and they have usually added, "And I don't want to either. If you know their language the beggars suspect you."

A "One-Piece No. 1 Joss Man"

A good example of "pidgin" is furnished in the story of the bishop who went to a hotel in Shanghai and was given a room on the top floor. A friend came a little later and asked to see the bishop. The hotel clerk, turning to a Chinese servant, said:

"Boy, look see have got topside one piece number one joss man."

The Chinese was back in a couple of minutes. "Have got," he reported.

"The bishop is in," said the hotel clerk.

On May 1st I started for Peking by way of Tientsin on the China Navigation steamer Shenking. It has been said that the Shenking somewhat hampered Noah when he was making his landing on Mount Ararat, the officers of the company declare that it gave the ancient yachtman ample room to maneuver. Two days of travel brought us to the British treaty port of Weihaiwei, and a night trip found us in Chefoo. A bit of wind sprang up here and the old Shenking was so uneasy on the waves that we had to wait some 12 hours to get the cargo off. I went ashore in the morning and when I started to come back at noon I found a big wind had sprung up and the bay which is not landlocked was full of whitecaps. I took a sampan, one of the small native boats, to get back to the ship and after the trip I was more ready to appreciate the skill of the Chinese boatmen. A sampan is operated by a single oar which is maneuvered from the back of the boat. It does not enable the boatman to get up much speed, but he can carry very heavy loads and keep going for a long time. In order to get back to the Shenking we had to buck a heavy wind and big sea for two miles. It took the boatman two hours to make the trip and not once did he stop to rest, although he was putting his back and shoulders into every heave of the oar. Chefoo was full of rebel soldiers and the most disreputable policemen I ever saw in my life.

I had another display of Chinese watermanship just as the Shenking started. Some Chinese passengers who had delayed coming on board were several yards away when the steamer started out of harbor. Rowing like mad they reached her side and one of the sampan men fixed a boat hook over the rail of the lower deck. The old Shenking was beginning to puff and wheeze into full speed by this time but the boatman with the hook hung on though he was nearly dragged from the boat. One by one the passengers were hoisted up over the rail. Before the last one was off the sampan man could hang on no longer but the passenger was not to be balked and by taking a leap just managed to get a hold on the steamer's rail. The little sampan was in gret danger of being fouled by the propeller but barely swung clear. That the Chinese possess nerve none can doubt and you can let the word go for both meanings.

CLASHES WITH JEROME

Thaw Flings Caustic Remarks at Prosecuting Attorney

White Plains, N. Y., June 26.—Harry K. Thaw and William Travers Jerome had an all-day debate at today's hearing on Thaw's application for release from the Mattewan insane asylum, their frequent verbal passages at arms keeping the interest of a big crowd of court room auditors at a high pitch.

"Thaw, while not losing his temper at any stage, flung back some caustic replies to leading questions of the attorney who was putting Stanford White's slayer through what was termed a "mental examination."

He repeatedly questioned Jerome's motives in appearing as the leading inquisitor in opposition to Thaw's release, and at one point when he was asked for whom he thought the attorney was acting, he flung back with this: "Mr. Jerome, I have been told that when you sent Abe Hummel up the river—and you didn't sent him up the river; only to the workhouse—that the mantle of Abe Hummel fell on the shoulders of Willam Travers Jerome."

Mr. Jerome frequently shifted the base of his attack with the apparent purpose of confusing Thaw. Switching abruptly at one point he asked: "If you were not insane when you shot White it was murder, wasn't it?"

"It would be if the jury said so," Thaw replied, refusing to lose his calm.

Asked whether he had ever shopped in England for a Mrs. Paget, whom he mentioned in his will, Thaw said he had not.

He shopped for cousins of Jerome, he said, and added, "Who certainly must be mighty ashamed of you."

Thaw was not particularly coherent in explanation of one statement he had issued against Jerome, giving what to many of his listeners seemed a rambling account of it.

"Why were you dismissed from Harvard?" was Jerome's query on another quick shift of ground.

"I never was dismissed; you know it," Thaw answered hotly.

"I left at the same time four other young men left with whom I was playing poker."

Jerome continued to zig-zag from one line of questioning to another. Toward the close of the day Thaw came close at times to losing his temper, attacking Jerome and accusing him of introducing falsehoods and make-believe persons.

"If I should drag in names that have no conceivable connection with this case," he said, "I'm sure his honor would surely think I was crazy."

Practically every question asked by Jerome was met with an objection from Clarence J. Shearn, Thaw's lawyer. He was defending his client every inch of the way with every legal recourse at his command to avoid the state of "fag" which proved the undoing of Thaw in his other efforts to get out of Mattewan.

Mrs. Evelyn Thaw sat in the court room all day listening to her husband's testimony, her gaze riveted on his face.

Denver, Col., June 25.—Is China more advanced than the United States? asks the Jane Jefferson Democratic Club of Colorado of Chairman Norman E. Mack, of the Democratic National Committee, in an appeal sent to him to urge the adoption of a woman's suffrage plank in the party's national platform. The club reminds him that the Chinese republic has given women the right to vote.

Mrs. Ruth Bryan Leavitt, daughter of William Jennings Bryan, was first president of the organization.

A MEASURE OF MERIT

Wilmington Citizens Should Weigh Well This Evidence

Proof of merit lies in the evidence.
Convincing evidence in Wilmington
Is not the testimony of strangers.
But the endorsement of Wilmington people.
That's the kind of proof given here.
The statement of a Wilmington citizen.

Joseph C. Vereen, 320 S. Sixth St., Wilmington, N. C., says: "Sometime ago I strained myself while lifting and soon after my back became very lame and sore. I could not stoop without having sharp pains shoot through my body. My kidneys also bothered me and I had a constant desire to pass the secretions particularly at night. I could not get anything that would relieve me until I procured Doan's Kidney Pills at Bellamy's Drug Store. The use of two boxes stopped the pains in my back and regulated the passages of the kidney secretions. I am very willing to recommend Doan's Kidney Pills."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

GOLDSBORO WOODMEN.

Enjoyable Social Session and Address by State Manager.

(Special Star Correspondence.)

Goldsboro, N. C., June 27.—Tuesday night Magnolia Camp No. 100, Woodmen of the World, of this city, held one of the most enjoyable social sessions that their order has ever had, when they entertained their wives, sisters, cousins, aunts and sweethearts of their members, in the spacious hall of the I. O. O. F. building.

Magnolia camp is one of the largest of this order in the State and consequently on last Tuesday night our town was well represented and the hall was taxed to its capacity.

The guests were warmly welcomed in eloquent and sincere style by Sovereign Jno. E. Stanley.

Mr. E. W. Hill responded to the address of welcome in his usual pleasing and happy style.

State Consul Commander Peebles, of Kinston, followed Mr. Hill in a brief appeal in behalf of the orphans of the order, looknig to the establishment of an orphan home.

In well chosen words Hon. Geo. E. Hood then presented Mr. E. B. Lewis, State manager of the order, on the principles and purpose of the Woodmen, that won all his hearers and made many desirous of becoming members.

Never use the eys when they are tired or painful, nor with an insufficient or dazzling light. Lamps should be shaded.

For traveling salesmen, there has been invented a valise with folding sides and legs, with which it may be converted into a table.

A careless cook may waste the Baking Powder, but cannot spoil the food.

DAVIS BAKING POWDER

never leaves that bad taste so commonly noticed when too much of many other Baking Powders is used.

All good Grocers sell it or will get it for you.

Blood Poison

If you're troubled with any form of blood poisoning, you surely suffer intensely. You want relief, but to get quick relief you should not take a medicine containing injurious minerals or other harmful properties. K. E. B. P. gives prompt relief and if used persistently, effects a permanent cure. At the same time it leaves no bad after effects, since it contains no minerals or injurious drugs. Note what one man says about

KETTERER'S EXCELSIOR BLOOD PURIFIER

(K. E. B. P.)

He writes: "After I had used only one bottle of K. E. B. P., its quick and wonderful action convinced me that I had struck a blood purifier sure enough, and I continued its use. The pains ceased, swellings subsided, my joints became natural, my kidneys relieved, my appetite returned, skin became active. I rapidly gained strength and after using seven bottles, I feel like a new man, and I am pronounced cured."

Try K. E. B. P. It's guaranteed to relieve or money refunded.

A WOMAN'S WISDOM.

The worried mother wakes up to hear her baby's heavy breathing—a little cough—perhaps the croup or whooping cough. She does not want to send for the doctor when perhaps the trouble does not amount to much. Finally she thinks of that medical book her father gave her, The Common Sense Medical Adviser, by R. V. Pierce, M. D. She says "just the thing to find out what is the matter with the little dear." Two million households in this country own one—and it's to be had for only 31c. in stamps—1,000 pages in splendid cloth binding. A good family adviser in any emergency. It is for *either sex*. This is what many women write Dr. Pierce—in respect to his "Favorite Prescription," a remedy which has made thousands of melancholy and miserable women cheerful and happy, by curing the painful womanly diseases which undermine a woman's health and strength.

MRS. ZUBERT AND BABE.

"My desire is to write a few lines to let you know what your valuable medicine has done for me," writes MRS. MARGARET ZUEBERT, of 323 S. Bentalon Street, Baltimore, Md. "Before the storck came to our house I was a very sick woman. I wrote you for advice which was kindly given and which made me a different woman in a short time. After taking the first bottle of 'Favorite Prescription' I began improving so that I hardly knew I was in such a condition. I did my own housework—washing and ironing, cooking, sewing, and the worst of all nursed three children who had whooping cough. I hardly knew of the advent ten minutes before—so easy was it. The baby is as fat as a butter-ball. Dr. Pierce's Favorite Prescription is the best medicine for any woman to take when in this condition. I recommend it to all my friends."

Of course we expect all the well dressed men of this community to look on this store as headquarters for the best things to wear; we think most of them do; if you don't, it's because you don't know what's here.

HART SCHAFFNER & MARX

clothes are not the only good things we have here; they're the best clothes we can find. But we can supply the kind of shirts you want; we can put the right hat on your head; the right underwear on your body; we can outfit any man completely from head to foot. And the qualities are Right.

SALE OF LOTS

CASTLE BETWEEN THIRD and FOURTH STREETS.

Pursuant to a decree of the Superior Court for New Hanover County, in a cause therein pending, by John T. Howe, et al., petitioners, against Willard Howe, et al., defendants, I will sell at Public Auction, on Monday, the 8th day of July, A. D. 1912, at the county court house, at 12 o'clock M., the following described property:

FIRST LOT: Beginning in the Southern line of Castle street, at a point 36 feet east of Third street, running thence eastwardly with the Southern line of Castle street 40 feet; thence southwardly, parallel with Third street 104 feet, thence westwardly parallel with Castle street 40 feet, and thence northwardly parallel with Third street 104 feet to the beginning. This lot has a one-story house upon it, with outhouses.

SECOND LOT: Beginning in the southern line of Castle street at a point 76 feet east of Third street, running thence eastwardly with the southern line of Castle street 40 feet, thence southwardly parallel with Third street 104 feet, thence westwardly parallel with Castle street 40 feet, thence northwardly parallel with Third street 104 feet to the beginning. This is a vacant lot.

The foregoing lots are part of Lots 1 and 2, in Block 75, according to the official plan of the City of Wilmington.

TERMS OF SALE: The lots will be offered separately, as above described, and then as a whole, and will be sold to the highest bidder, for cash, subject to the examination of title and confirmation by the court. GEORGE F. MEARES, Attorney.

NEW SOUTHERN INDUSTRIES

Many Industrial and Other Developmental Enterprises Announced in This Week's Issue of Manufacturers' Record at Baltimore.

(Special Star Correspondence.)

Baltimore, June 27.—Among the Southern industrial and other developmental enterprises announced in this week's issue of the Manufacturers' Record are the following:

Union Terminal Co., Dallas, Tex., completed organization and outlined plans for union terminal facilities to include passenger station, freight depots, train sheds, electric plant, roundhouses, car and locomotive repair shops, etc., expecting to invest $5,000,000.

Chesapeake & Ohio Railway, Newport News, Va., approved plans for coal pier recently announced, estimated cost being $1,500,000; pier will be of steel on concrete foundations, with 1,200 feet of berth room on each side and an hourly dumping capacity of more than 3,000 tons of coal.

Great Eastern Lumber Co., Savannah, Ga., organized with $1,000,000 capital stock to develop timber and in Georgia and South Carolina, build mills, construct railway, etc.; near Savannah will build plant with daily capacity 150,000 feet of lumber, construct electric plant, develop water front property for industrial sites, construct railways to timber, etc.; Chicago and Philadelphia capitalists control this enterprise.

LaBelle Iron Works, Wheeling W. Va., authorized capital increase from $10,000,000 to $20,000,000, and has improvements under consideration.

East Tennessee Electric Co., Greenville, Tenn., proposes to construct hydro-electric plant on Nolachucky river, nine miles from Geenville; lands include gravity section dam, power house designed for four units of 2,500 kilowatts each, etc.

Missouri, Oklahoma & Gulf Railway, Henryetta, Okla., will build shops and terminals costing $300,000, but has not determined details.

Arbuckle Brothers, New York, are said to plan construction of sugar refinery with daily capacity 3,000 barrels at Baltimore, New Orleans or Norfolk, with Norfolk preferred; they have no details to furnish at present.

Egypt Plantation Co., Egypt, Miss., incorporated with $1,000,000 capital stock to develop 5,400 acres by agriculture and plans tiling and other improvements estimated to cost $50,000; now has 3,000 acres in cultivation.

Alabama Port Land and Improvement Co., Mobile, Ala., incorporated with $1,500,000 capital stock, to build wharves and other terminal facilities near Mobile; controls 5,000 acres of land and is subsidiary to Alabama Port Terminal Co., which heretofore announced its plans for an electrical railway.

Atlantic, Gulf and Pacific Co., New York, received contract from government at $2,365,791, to construct Houston ship channel from deep water in Galveston Harbor through Galveston Bay, San Jacinto Bay, San Jacinto River and Buffalo Bayou Reach, near Harrisburg, Tex.; distance, 51 miles.

Hagerstown Light and Heat Co., Hagerstown, Md., plans $1,500,000 bond issue, of which $350,000 will be for improvements to embrace part of new plant, larger distribution system and future needs as demanded.

Coosa River Electric Power Co., Gadsden, Ala., plans to construct hydro-electric plant on Coosa River, 18 miles from Gadsden and Anderson, and 48 miles from Birmingham; initial instalation to develop 25,000 horse power and be doubled in future; plant and transmission lines estimated to cost $2,000,000.

American Zinc Co., Mascot, Tenn., plans to develop zinc properties now being tested and proposes to build a mill with daily capacity 750 tons, driven by 1,000 electrical horsepower.

Odorless Refrigerator Co., Chattanooga, Tenn., incorporated with $100,000 capital to manufacture household refrigerators.

West Point Manufacturing Co., West Point, Ga., awarded contracts for 5,000 spindles, looms, cards, electric motors, etc., for adding to its cotton mill at Shawmut, Ala.

Bromide Oolitic Stone Co., Tulsa, Okla., incorporated with $100,000 capital to quarry stone.

Brown Bros. Lumber Co., Murchison, N. C., incorporated with $400,000 capital to manufacture lumber.

Conrad & Bond, DeLand, Fla., purchased timber on 60,000 acres of land (reported price $300,000) and will cut for lumber manufacturing.

Dickie & Campbell, Black Mountain, N. C., plans to build stave mill costing $30,000.

Womanada Land Association, Jacksonville, Fla., organized with $300,000 capital to develop 18,000 acres of land; will divide into 640 acre sections and subdivide into ten acre tracts; improvements to include town site, experimental farm, electric light plant, etc.

ASKS BRYAN TO ACCEPT.

Nebraskans Want Him to Take Nomination if Tendered.

Lincoln, Neb., June 25.—Nebraska supporters of William J. Bryan, to the number of 150, today sent him a telegram at Baltimore in which they urged him not to refuse the Presidential nomination at Baltimore in the event it is tendered him. The telegram said in part:

"It is important that the Baltimore convention nominate a candidate upon whom all progressives can unite. Knowing the implicit confidence and esteem in which you are held by the great body of the common people of the country, we, the undersigned citizens of Nebraska, take this means to urging that you do not discourage or refuse to accept the nomination at the hands of the Democrats at the convention."

Move on Now!

says a policeman to a street crowd, and whacks heads if it don't. "Move on now," says the big, harsh mineral pills to bowel congestion and suffering follows. Dr. King's New Life Pills don't bulldoze the bowels. They gently persuade them to right action, and health follows. 25c at R. R. Bellamy.

R. F. HAMME

In Business in Wilmington Since the Year 1875

Now Retiring From Business

His Entire Stock of Hats, Clothing and Gents' Furnishing Goods to Be Closed Out at Cost in Fifteen Days, Beginning

Saturday, June 29th, at 8:30 O'Clock

Ending Satudrday Night, July 13th.

TO THE PUBLIC

I have been in business in the City of Wilmington for many years, and during my business career have received a large share of the patronage of the town and community. I now desire to thank my friends and customers for their kind support they have shown me, and as I have now decided to go out of business I have placed my stock in the hands of an expert sales conductor, who has achieved great success from ocean to ocean in closing out stocks. My entire stock is to be closed out by him in fifteen days, at and below cost. Anybody that knows me knows that I am making no misrepresentation when I say that I am closing out, at and below cost, and everybody that attends this sale will save money. My store fixtures are also for sale, and as I have already rented the store, I desire to close out as soon as possible.

Again thanking you for what ever favors you may show me, I beg to remain, Yours truly,

R. F. HAMME.

Mark the Date and Mark It Well---Saturday, June 29th

Closing Saturday Night, July 13th

THESE are PRICES THAT WILL CONVINCE YOU THAT THIS is a REAL BARGAIN FEAST

Climatic Conditions Have Effect on Race—High Gasoline in London. Olympic Games in Germany—Other Notes.

London, June 29.—That the increased efficiency, due to climatic conditions, of the transplanted Britisher will soon make Canada the center point of the British Empire is the statement with which Prof. Willis Moore, chief of the United States weather bureau, has startled Londoners.

Prof. Moore declares it can be scientifically demonstrated that the climate of the North American continent is producing a race which in mental and physical energy promises to be distinctly more efficient than any past nation of the Northern Aryan race. He bases his theory on the fact that the northwest winds of the American continent, blowing with great velocity from an extreme altitude of vast electrical potentiality, release more ozone in the proper state for human breathing than in any other place in the world. The continental climate of America differs from the marine climates of Europe in the fact that most of the winds originate over land areas and that they carry oxygen which is readily transmuted into ozone by electricity, whereas, the marine winds of the British isles and the European continent are lacking in the means for releasing this virile element. Consequently the American weather expert maintains that the American can no more control that nervous energy which is the marvel of Europe than he can stop his own breathing.

Aecording to Prof. Moore, race efficiency depends upon the following mateorological formula: The higher the wind velocity the greater the downward component of motion whereby six molecules of oxygen of two atoms each are changed into three molecules of ozone of three atoms each, in which form they enter the human lungs and drive the physical and mental engines at the maximum rate.

This is what the northwest winds are doing for most of the United States and Canada, which need fear no competition from the rest of the world as long as the winds continue to blow.

Prof. Moore also accounts for the successful assimilation by America of so many foreigners by this theory, and on its account he predicts that the American type will become more and more pronounced in the future.

* * *

Great Britain is threatened with a strike of motor car owners, who are in open rebellion against the recent increases in the price of gasoline. The first big rise was made during the transport strikes of last year, which held up the usual supply of gasolene, but with the resumption of normal conditions there was no corresponding reduction of price. This caused mutterings among the motorists, but no action was taken until the present dock strike, when the price again soared to such a height that the retail cost is almost double what it was two years ago.

The first definite action to give voice to the complaint of the motorists was a meeting of the Royal Automobile Club, at which the head of one of the leading motor companies had an uncomfortable hour in trying to explain the reasons for the rise. The club members did not hesitate to declare that they were not satisfied with the explanation, and they have entered upon a definite campaign to force the oil interests to lower the price of gasolene.

Two reasons are given by the oil men for the increase: The first, the rules of the port of London Authority which prohibit the storage of large quantities of the spirit in London, thereby increasing the cost of handling it, and, secondly, that the steadily increasing demand for refined motor spirit has left a large quantity of heavier oils on hand, which is a dead loss to the oil companies unless a market can be found for it.

* * *

A memorial to the combined services of 110 years in the Royal Artillery of Major General Sir Alexander Dickson, who commanded the British artillery in the War of 1812, and his son, Gen. Sir Collingwood Dickson, who also saw much active service, has been unveiled at Woolwich by Lord Roberts. The original monument to the father was unveiled in 1845 and it has been moved to the spot where the combined memorial has been erected. During the Peninsular War he held supreme command of the artillery, although only 32 years of age and ranking as a captain. In 1814 he served in America and returned to fight under Wellington at Waterloo and Quatre Bras.

* * *

There may be a close season for the seaweed which is used as a trimming for women's hats. The Kent and Essex Sea Fisheries Committee has been appealed to by a deputation from the Thames estuary to protect an industry which supplies employment during the idle Winter months to many farm workers. During the past 20 years the inhabitants have established a profitable industry collecting the beautiful moss or seaweed, known as white weed and which is used in hat decoration by the Paris milliners. But in the last two years Essex fishermen have attached barb wire to their trawls for the purpose of collecting the white weed, which they have dragged away by the roots and in an immature condition. Not only was the market ruined by the fishermen who sold the weed to German traders at a low figure, but the plans were destroyed. Now the laborers are asking that a close season be declared so that the plans may have a chance to regain their growth.

In German Capital.

Berlin, June 29.—An invitation to hold the next Olympic games in Berlin in a new $300,000 stadium will be extended to the International Olympic committee at its coming meeting in Stockholm. It has been understood that Germany would be awarded the games as soon as Berlin was in a position to offer suitable accommodations and as this condition has now been met by the patriotic offer of three Berlin organizations to assume the financial responsibility for the construction of the stadium, the American athletes will probably gather here on their next trip across the Atlantic.

At the last meeting of the German Imperial committee President von Podbielsky announced that the Union Club, the Berlin Steeplechase Association and the Berlin Racing Association had offered to build the stadium and to raise the money by a bond issue of $300,000. The German Olympic committee, in which all branches of athletics are represented, hopes as soon as possible to take over these bonds among the various organizations represented. Count Sierstorpff, the German representative on the International committee, was thereupon instructed to tender the formal invitation at Stockholm.

* * *

The off-season in politics has been enlivened by the outbreak of what appears to be a serious crisis in the Centrum, or Clerical party. It was occasioned by a declaration of the Pope giving his approval to the so-called Association of Catholic Labor Union, the smaller of the two Catholic labor organizations of the country. Most of the Catholic workingmen are organized in the Christian labor unions, which contain about 360,000 members, while the association is said to have only about 10,000. The Christian unions are not exclusively Catholic, though by far the larger part of their members belong to that church. Their chief aim is to oppose Socialism, and they regard it at necessary to admit Protestants in order to have the best success in that direction. In this point they have the support of the Clerical party. The association, however, strongly condemns the inter-denominational character of the unions and demands that labor organizations be fully under the control of the Catholic church; and a wing of the Clerical party called the "Berlin movement" supports this view.

Friction has been growing between the tw(labor organizations, and still more between the two corresponding wings of the Centrum. Only recently Herr Roeren, one of the prominent representatives of the party in the Reichstag, resigned his seat because he was not in harmony with the policy of minimizing the clerical character of the party. The present crisis was brought on by the association, which recently sent an address of homage to the Pope, containing, it was said, a sharp attack on the unions; and it was in answer to this that the Pope uttered his condemnation of the latter, pronouncing their fundamental principles false. Since this declaration was made, the Christian Unions have issued a statement in which they use exceedingly sharp language against the association, saying among other things that its address to the Pope was the "climax to a long campaign of slander on the part of the association against the Christian Unions," and that the "Supreme head of the Catholic church has never been more disgracefully deceived about the nature and character of the Christian labor unions in Germany." The whole matter has stirred up a vast deal of animated discussion in the press of all parties. There is even considerable talk of a probable split in the Crerical party.

* * *

Court and prison records show that there has been a steady decrease in the percentage of criminality in Prussia in the last 10 years. Where formerly 759 persons out of each 100,000 were sentenced annually for some sort of crime, the number dropped last year to 585, a decrease of 23 per cent. A most gratifying feature is that the majority of the decrease was in the item of felonies. The number of woman criminals also showed a great falling off

Close upon the heels of the announcement of the Crown Prince's plunge into literature as the author of a book of hunting experiences, it is learned that Princess Eitel Friedrich, wife of the Emperor's second son, has designed a calendar which is to be sold for charity this Fall. A series of water colors from the Princess' brush, including views of Castles Eutin and Charlottenhof and picturesque Brandenburg landscapes, illustrate poems in part written by Princess Eitel and in part her poetic cousin, Princess Foodora, of Schleswig-Holstein.

* * *

Woman's supposed weakness in philosophy and the higher reasoning received a brilliant disproval in the contests held in connection with the anniversary celebration of the University of Goettingen. Of the three submitted, only one was found worthy of a prize, a philosophical work on "The Perceptival Theoretical Principles of Positivism." This was awarded the highest possible prize and when the envelope containing the name of the author was opened was found to be by a woman. Miss Hedwig Martius, of Rostock.

If troubled with seleplessness, eat an early and light supper of easily digested food, or, better, eat no supper at all. Do not engage in exciting conversation or amusements during the evening. At an early hour, prepare to retire determined to sleep. Just before going to bed, soak the feet ten minutes in hot water, cooling it a little at the close.

SAVE THE HAIR

Newbro's Herpicide Will Do It

No woman should have poor, thin, scraggy hair, and no man need become bald. Poor hair and final baldness are due to the dandruff germ.

Newbro's Herpicide will destroy this little germ and stop the hair from falling. Further evidence of this is found in a letter from Mrs. F. Neilsen, of Tomah, Wis. She says: "I fought the worst kind of dandruff for nine years. I have been using Herpicide now one week, and my scalp is healthy, the dandruff has gone and the itching has stopped. It is the best remedy for scalp diseases I ever saw, and I have seen many."

Don't subject yourself to disappointment and expense by accepting something claimed to be "just as good" as Newbro's Herpicide. These off brands may possibly be good, but why take chances? The genuine and original dandruff germ destroyer can always be obtained. If your own druggist has nothing but "just as good" articles, go to R. R. Bellamy, who will furnish you with Newbro's Herpicide and guarantees one dollar size bottles. It stops itching of the scalp almost instantly.

Send 10c in postage or silver for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich.

Applications at good barber shops.

DEMOCRACY'S APPEAL.

Why Young Men Should Rally to Standard of Jefferson.

(By Hon. Chas. R. Thomas.)

The Democratic party should appeal to young men because for more than 100 years it has stood the test of time, and has been the party of the people and of popular rights.

The Democratic party has existed since Jefferson's time in 1800; it has stood at the cradle and the grave of every political party that has existed in this country; and it will live when the Republican party passes forever out of existence, because the principles of Democracy are immortal.

First, then, it has stood the test of time and of human experience.

Second, the Democratic party wrote the Declaration of Independence and breathed into the Constitution of our country the spirit of liberty, and it stands now, and has always stood by the Constitution. The founders of the Democratic party laid broad and deep the foundation of our government, added to the Union its largest and fairest territory, and, before 1861, fought and won every war in which the country was engaged. The Republican party was born in 1860, amidst sectional strife, and in the Nation it has lived since 1860 by an appeal to sectional issues.

Third: In the Nation the Democratic party stands for equal opportunity to all men and special privileges to none. In the language of Jefferson, it stands for the support of the State governments in all their rights; the preservation of the government in its whole, constitutional vigor, as the sheet anchor of our peace at home and safety abroad.

For a further declaration of its principles I refer all youg men to the fundamental principles of Democracy in the inspiring inaugural address of Thomas Jefferson.

Fourth: In the State the administration of the Democratic party has been without stain and without reproach.

Fifth: With few exceptions, all the offices within the gift of the State of North Carolina—Senators, Congressmen, judges and State offices—are held by young men, or those born about the time of the Civil War.

Sixth: The success of Democracy is assured. The Republican party has failed to redeem its promises; it has disappointed the people; it has been weighed in the balance and found wanting; its tenure of political life is short; the stars in their courses are fighting for Democracy. All we have to do from now on is to act wisely; exercise a little conservatism; use ordinary political sagacity; adopt short, sensible, up-to-date platforms; nominate loyal, able, honest and efficient candidates, and the Democratic party will sweep the country in the coming Presidential election.

HOOKWORM DISEASE.

What Has Been Accomplished Generally by the Rockefeller Com.

Three years ago, Mr. Rockefeller established a sanitary commission for the eradication of hookworm disease, which the investigation of Dr. Stiles and others showed to be prevalent in the Southern States. The results of the work of this commission have just been published in the second report. A survey of the infected area has been nearly completed. It shows that every county in South Carolina, nearly every county in Virginia, North Carolina, Alabama, Mississippi and Tennessee and 27 out of 59 parishes of Louisiana, 57 out of 75 counties in Arkansas and 22 out of 119 counties in Kentucky are infected with this disease. It also exists in Texas, Florida, California, Nevada, Oklahoma and West Virginia. In addition to this survey that shows exactly where the disease is located, the commission has made extensive efforts to inform the public regarding this disease. County dispensaries have been started, school inspection have been made, free clinics for treatment have been established, and the public has been informed by lectures, bulletins, folders, newspaper items, pasters, exhibits, stereopticon pictures and instruction in the public schools, as to the danger of the disease. During the present year nearly half a million people in the infected area have been reached. The result is, that while the people affected at first showed indifference, they are now flocking to the public dispensaries in large numbers, in some country districts coming for miles, and asking to be treated and cured. Infection with hookworm practically incapacitates a man from work. Probably the present condition of the "poor whites" in the South is due to this disease more than to any one factor. Negroes are also badly infected in many localities. The Journal of the American Medical Association says that the control and eventual eradication of this disease is of the utmost importance to the Southern States, and will have a marked influence on the labor question in the South.

Man Coughs and Breaks Ribs.

After a frightful coughing spell a man of Neenah, Wis., felt terrible pains in his side and his doctor found two ribs had been broken. What agony Dr. King's New Discovery would have saved him. A few teaspoonsful ends a late cough, while persistent use routs obstinate coughs, expels stubborn colds or heals weak, sore lungs. "I feel sure it's a Godsend to humanity," writes Mrs. Effie Morton, Columbia, Mo., "for I believe I would have consumption today if I had not used this great remedy." It's guaranteed to satisfy, and you can get a free trial bottle or 50-cent or $1.00 size at R. R. Bellamy.

TIMELY HINTS.

How to Keep Cool in Warm Weather Period.

To the popular mind this title may suggest a cool veranda, a palm leaf fan, and plenty of ice water. But a greater degree of comfort may be obtained by the observance of these simple rules than by using any amount of iced drinks.

First, use plenty of water. Drink all the cool water you wish, but avoid ice water. It is really an enemy in disguise, as it retards digestion.

One of your best friends during this season is the bath tub. Frequent baths are necessary for removing the excretions of the skin and keeping the pores open. Surf bathing is excellent, but those who cannot indulge in it will find an occasional sea salt bath refreshing and invigorating.

Secondly, choose your food much more carefully than in cool weather. Avoid all heavy, heat-producing foods, such as meats, rich gravies, hot pies, puddings and cakes. Substitute a diet consisting of fruits, green vegetables, cereals, eggs, light meats, and simple desserts, and you will overcome that feeling of depression which follows a heavy meal on a warm day.

Wear loose, porous, light clothing. It should be changed frequently, as it soon becomes clogged with the excretions of the skin. Take plenty of sleep if you do not wish to be a heat victim. Take moderate exercise, but avoid violence. Do not allow yourself to worry over trifles or to become unduly excited. Follow the hot weather rule of Kipling's famous doctor: "Go slow and keep calm."

Eating between meals is a gross breach of the requirements of good digestion. The habit many have of eating fruit, confectionery, nuts, sweetmeats, etc., between meals, is certain to cause dyspepsia.

Filth and stagnant water breed flies and mosquitoes. Flies and mosquitoes give us typhoid, malaria and a lot of infectional diseases. See the point?

$100 Reward, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Geo. R. French & Sons

HOW SHE CURED HER RHEUMATISM

I wish every rheumatic sufferer to know what S. S. S. did for me. I had been afflicted with Rheumatism for twenty years, sometimes being entirely laid up by it, and always lame in some part of my body. It grew worse until it was misery to attempt to walk at all; my right knee was nearly twice its natural size and was drawn up considerably shorter than the other one. A friend advised me to take S. S. S., which I commenced. I had tried so many things that I must say I had very little faith that it would do me any good, but was willing to try anything that promised relief. Before I had been using it long I was greatly encouraged, and continuing the medicine I soon found I was entirely cured. The lameness and soreness all left, and I can straighten, move or bend my leg as well as any one. I am sixty-five years old, but have had no symptoms of Rheumatism since S. S. S. cured me.

MRS. IDA M. PALMER.
No. 195 Fulton St., Blooklyn, N. Y.

The sincere and truthful tone of Mrs. Palmer's letter must impress every one who reads it. She had suffered with the agonies of Rheumatism for twenty years, and when she found a medicine that proved its worth by curing her, a humane interest in others who were suffering from the disease prompted her to recommend it.

Rheumatism is due to a diseased condition of the blood cells and corpuscles, brought about by an excess of uric acid in the circulation. This uratic impurity gets into the blood usually because of systemic irregularities, such as constipation, imperfect kidney action, indigestion, and other minor stomach disturbances. These common ailments prevent the proper working of the eliminative members, and thus a certain percentage of the refuse matter which should pass off is left in the system to sour and form uric acid, which is absorbed into the blood. Then the corpuscles of the circulation which ordinarily furnish nourishment to the body, are saturated with the uratic impurity, which they deposit into the muscles, nerves, bones and joints. This causes inflammation and the pains, aches, and stiffness of Rheumatism.

External applications, such as plasters, liniments, hot applications, etc., cannot have any permanent effect on Rheumatism. Temporary relief from its pains is sometimes afforded by such measures, but the old cause is always at work in the blood, and as soon as the local treatment is left off every symptom will return.

There is but one way to cure Rheumtism, and that is to purify the blood—cleanse the circulation of the uric acid impurity. S. S. S. goes into the blood and attacks the disease at its head, and by removing every particle of the inflammatory uratic matter, and building up the blood to a healthful condition, this medicine destroys the cause and cures Rheumatism. When S. S. S. has cleansed the blood of the acrid impurity, enriched and thickened the circulation, then the nerves are quieted, the muscles become elastic, the blood tissues are cooled, and the hot, feverish flesh is soothed and made comfortable. Nothing equals S. S. S. as a blood purifier, and for this reason nothing equals it as a cure for Rheumatism. Book on Rheumatism and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

THE WEEK'S NEWS IN BRIEF

Important Happenings, Day by Day, Compiled and Republished for the Benefit of the Busy Man and the Week-End Reader—New York Markets for Each Day of the Six.

SUNDAY.

Taft and Sherman were renominated by the Republican convention last night, the former receiving 561 votes and the latter 597, the Roosevelt forces not participating in the convention.

Col. Roosevelt was nominated on an independent ticket last night, many of his followers pledging their allegiance to him and representatives of 22 States standing sponsors for the movement. Temporary organization was effected and the organization of the new party throughout the country will be pushed forward.

Hope of averting a fight at the Democratic convention at Baltimore was given up yesterday with the simultaneous announcements of Governor Wilson sustaining Bryan's contention for a convention of progressives and by Chairman Mack that the National Committee would make Alton B. Parker temporary chairman.

In his speech accepting the nomination of the independent Republicans yesterday Theodore Roosevelt asked his followers to return to their homes and ascertain the wishes of their constituency as regard a new party movement and then the organization would be perfected.

Plans for the hearing on Monday by the Democratic National Committee of contests for seats in the National convention were completed yesterday by members of the committee.

Wm. J. Bryan will actively oppose the naming of Alton B. Parker as temporary chairman of the Democratic convention, regardless of results and it was reported yesterday he might bolt the party.

New York markets: Money on call nominal. Spot cotton closed quiet. Flour quiet and about steady. Wheat, spot steady; No. 2 red 1.18 domestic basis and export 1.17 1-2 f.o.b. afloat. Corn, spot steady; export 80 1-2 f.o.b. afloat. Turpentine steady.

TUESDAY.

Samuel Gompers, Frank Morrison and John Mitchell were yesterday held guilty of contempt of court by the Supreme Court of the District of Columbia, in connection with an injunction in the Buck's Stove and Range Co., boycott case.

Former Judge Alton B. Parker was chosen as the candidate for temporary chairman of the Democratic National Convention last night by the National Committee. He received 31 votes, Ollie James 20 and Senator O'Gorman 2.

Carl L. Hamilton, an instructor at the Army aviation school at College Park, Md., was fatally injured in an aeroplane accident yesterday.

President Taft sent a special message to Congress yesterday recommending an appropriation of $1,350,000 for the use of the War Department in the joint maneuvers of the regular army and National Guard.

All hope of averting a fight at the Baltimore convention vanished last night with the selection by the National Committee of Alton B. Parker as temporary chairman. W. J. Bryan will lead the fight against him and his friends think he will be the ultimate Presidential nominee.

In conference with a number of his supporters yesterday Col. Roosevelt made known his intention to cut entirely away from the Republican party and organize a new one from the ground up.

The Democratic National Committee last night voted to seat the Roger Sullivan delegation from Illinois, turning down case brought by the Harrison-Hearst faction.

New York markets: Money on call steady, 2 5-8 to 3 per cent; ruling rate, closing bid and offered at 2 3-4. Spot cotton closed 11 points lower. Flour steady. Wheat, spot firm; No. 2 red 1.18 1-2 domestic basis and export 1.18 f.o.b. afloat. Corn, spot firm; export 81 f.o.b. afloat. Turpentine quiet. Rosin easy.

WEDNESDAY.

The Democratic National Convention convened yesterday at noon at Baltimore and Bryan opposed Judge Parker for the temporary chairmanship, the latter winning out by a vote of 579 to 510.

Political leaders at Baltimore last night seemed to think that W. J. Bryan's defeat for the temporary chairmanship had eliminated him from the Presidential race and that the odds have shifted to Clark. It was said that New York would support the Speaker and would make a bid for the Vice Presidential nomination for Senator O'Gorman.

The night session of the Democratic convention yesterday was a short one, the delegates giving evidence of their desire to rush matters through and complete their work as soon as possible. A resolution was passed adopting the rules which governed the last convention.

On the vote for the temporary chairmanship of the Democratic convention the majority of the North Carolina delegation voted for Parker. The delegation is opposed to Clark, who seemed to be a favorite last night.

Ann Boston, a negro woman who Monday stabbed and killed the wife of a prominent planter of Pinehurst, Ga., was taken from officers and hanged early yesterday morning.

Col. Roosevelt announced last night on reaching Oyster Bay that the committee on organization of his new party would take up their work immediately after the Democratic convention adjourned.

New York markets: Money on call steady, 2 3-4 to 3 per cent.; ruling rate 2 7-8; offered at 2 1-2. Spot cotton closed quiet, 5 points higher. Flour steady. Wheat, spot irregular; No. 2 red 1.18 elevator domestic basis to arrive and export 1.17 1-2 f.o.b. afloat. Corn, spot steady; export 81 1-4 f.o.b. afloat. Turpentine and rosin quiet.

THURSDAY

Ollie James, of Kentucky, was yesterday chosen permanent chairman of the Democratic convention; William Jennings Bryan declined the chairmanship of the Resolutions Committee, which adopted his suggestion to hold back the platform until after the nomination of a candidate for the Presidency, and after an oratorical session in which no business was done the convention adjourning at 2:17 till 8 P. M.

The Resolutions Committee began hearings yesterday for declarations to be incorporated in the Democratic platform. The New York delegation submitted an entire platform.

With the lines tightly drawn last night all indications pointed to an extended battle for the Democratic nomination. During the day Champ Clark's boom seemed to have subsided somewhat, and the Wilson adherents claimed their man had made distinct gains.

A panel of 100 men is being summoned to be present at Wytheville Monday morning for the resumption of the trials of the members of the Allen gang.

The Democratic convention voted last night to abrogate the unit rule as to all State delegations except those where the State laws are mandatory on the subject. This gave Wilson 18 votes from Ohio and may cause a break in other delegations, being hailed as a great Wilson victory.

The improvement of conditions in Cuba led the War Department yesterday to abandon the arrangements made for the dispatch of an "expeditionary force."

New York markets: Money on call steady 2 1-2 to 2 7-8; ruling rate 2 7-8. Spot cotton closed quiet. Flour steady. Wheat, spot irregular; No. 2 red 1.18 elevator, domestic basis and export 1.18 f.o.b. afloat to arrive. Corn, spot firm; export 81 3-4 f.o.b. afloat. Turpentine steady. Rosin quiet.

FRIDAY.

The Bryan-Wilson faction won another signal victory in the Democratic convention yesterday when they overturned the Credentials Committee's action in the South Dakota contest and succeeded in forcing the seating of the Wilson delegation.

Final arrangements for the Johnson-Flynn fight on July 4th have been completed.

W. J. Bryan led the Democratic convention into a declaration of progressiveness last night unparalleled in political history, when he had a resolution passed to unseat all delegates identified with the privileged interests, the vote on the resolution being 889 to 196.

The State bankers in session at Morehead City, N. C., last night enjoyed their annual german, devoting the morning session to business and the afternoon to pleasures of the resort.

At a late hour last night the Democratic convention began hearing nomination speeches and it was agreed that after they were completed adjournment would be taken and balloting on the candidates would begin at noon today.

Oscar Underwood was placed in nomination at the Democratic convention last night by William Bankhead, of Alabama. Senator James D. Read spoke in nomination of Champ Clark.

After a heated session lasting over an hour the New York delegation to the Baltimore convention last night voted to cast their 90 votes for Governor Harmon.

Gen. Estenoz, leader of the Cuban insurrection, was reported last night to have been killed.

New York markets: Money on call steady, 2 1-2 to 2 3-4 per cent.; ruling rate 2 3-4; offered at 2 5-8. Spot cotton closed quiet. Flour steady. Wheat, spot strong; No. 2 red 1.19 1-2 elevator, domestic basis and export 1.21 f.o.b. afloat to arrive. Corn, spot strong; export 82 1-2 f.o.b. afloat. Turpentine and rosin quiet.

SATURDAY.

Democratic State Chairman A. H. Eller has postponed the meeting of the North Carolina State Executive Committee until Tuesday night, July 9th, on account of the detention of many members at Baltimore.

Five ballots were taken at the day sessions of the Democratic convention yesterday, none of them resulting in a nomination. Champ Clark received more votes than any of the other candidates, with Wilson running him a close second.

Bristling with Democratic Progressivism, the platform on which the party will stand during the approaching campaign was completed last night and now awaits only the approval of the Presidential nominee.

A demonstration at the Democratic convention which lasted 20 minutes began last night when on the 10th roll call New York gave 81 votes to Champ Clark.

J. M. Jamison, a well known hotel man of Charlotte, was instantly killed and other members of his automobile party were injured when the machine was crashed into by a Southern freight train early yesterday morning.

When the tenth ballot was taken last night at the Democratic convention Champ Clark had increased his lead to some extent, there being little change in the position of the other candidates.

New York markets: Money on call steady, 2 3-4 to 3 per cent.; ruling rate 2 3-4. Spot cotton closed quiet, 5 points higher. Flour steady. Wheat, spot irregular; No. 2 red 1.20 elevator domestic basis and export 1.21 f.o.b. afloat to arrive. Corn, spot steady; export 88 1-2 f.o.b. afloat. Turpentine easy. Rosin quiet.

STATE PHARMACISTS.

Annual Convention Adjourns at Waynesville, N. C.—Officers.

Waynesville, N. C., June 27.—The North Carolina Pharmaceutical Association today elected the following officers for the ensuing year: President, J. G. M. Carden, Clayton; first vice president, C. P. Harper, Selma; second vice president, R. H. Roth, Asheville; third vice president, George E. Goodman, Mooresville; secretary, J. G. Beard, Chapel Hill; treasurer, G. E. Burwell, Waynesville; reporter on pharmacy, E. V. Howell, Chapel Hill; local secretary, C. D. Bradham, Newbern; board of pharmacy, I. W. Rose, Rocky Mount; executive committee, C. D. Sedbury, Fayetteville; J. F. Cole, Carthage; C. P. Greyer, Morganton; P. W. Vaughn, Durham; J. G. Beard, Chapel Hill.

E. V. Zoeller, of Tarboro, read his report as delegate to the American Pharmaceutical Association.

Important and interesting papers were read by Mr. Roth, Asheville; Mr. Hooper, Selma; Mr. Rimmer, Hillsboro; Mr. Tarkington, Wilson, and Mr. Cannon, of Spartanburg. These papers were discussed by the members.

The committee appointed on time and place of next meeting unanimously selected Newbern. The association upon balloting approved the committee's selection and the 34th annual session will convene in that city June 11-13, 1913.

This afternoon at 2:30 Dr. J. Howell Way, of Waynesville, delivered a very able address before the convention on the subject, "Civic Relations of the Pharmacists."

Tonight between 8:30 and 11 Dr. Way tendered the association members and their wives a reception at his home on Main street.

Washington, June 27.—It became definitely known at the White House today that Charles D. Hilles, President Taft's secretary, can be chairman of the Republican National Committee, if he cares to take the place. With C. P. and the President himself, it was said Mr. Hilles would consult today about the chairmanship of the campaign.

It is not uncommon for a Bermuda lily grower to plant 15,000 bulbs at one time.

Less than 1,500 Europeans reside within the Persian empire.

AFFAIRS IN HARNETT.

Revenue Officers Made Sick—Building Notes—Cotton Statistics.

(Special Star Correspondence.)

Dunn, N. C., June 28.—Revenue Officers Surles and Adams will be very careful hereafter how they quench their thirst with beer when raiding a blockade still. One hot day this week they made a raid on a still in Sampson and found a lot of beer and whiskey, but the birds had flown, so they proceeded to drink a lot of beer which came near killing both officers, and from their condition and suffering the beer was evidently fixed up for the occasion. Both men were laid up for several days with all the symptoms of having been poisoned.

The pie eaters at the Republican counter seem to be up in the air in this part of the country since the Chicago convention. Everybody was for Teddy before that gentleman took the elevator for the ceiling, but we have noticed a scarcity of red bandana handkerchiefs for the past week, and they positively refuse to say just who they are for. It looks as if somebody guessed wrong.

Mr. T. L. Gerald has begun tearing down his wooden building, where he has conducted a very successful livery business for several years, and will erect a much larger brick structure with all the modern conviences. This building is on the same block with the large brick stable which is being erected by Mr. J. H. Ballance.

Work will begin in a few days on the graded school building, which will be remodeled and four large rooms added. A new heating plant will be installed and fire escapes will also be added.

Cotton has been coming in freely for several days, and there is a good deal in the surrounding country yet. There have been 16,700 bales marketed here so far this season, which is far in excess of any previous year.

The crops in the immediate vicinity of town are very good, but we hear the farmers generally say that the prospect is very poor; especially for corn. Light sandy lands seem to have suffered very much from the excessive rains and the cold snap early in the month.

One of the fans in a new zonier is used as an electrode, reducing the number of parts.

E. E. BRITTON'S ELECTION.

Daniels' Elevation to Chairmanship Foreshadowed—Insurance Affairs.

(Special Star Correspondence.)

Raleigh, N. C., June 27.—The election of a North Carolinian in the person of E. E. Britton, of Raleigh, to the position of secretary of the Democratic National convention at Baltimore is a topic of much discussion here as well as of gratification at the honor that comes both to Mr. Britton and to the State through this election. It is generally believed here that the election of Mr. Brittain is a part of a specific programme of that wing of the party for the Presidency, to bring about the election of Editor Josephus Daniels, of the News and Observer, as chairman of the National committee and then have Mr. Britton, his associate editor, made secretary of the National committee, an especially desirable place. The expectation here is that in the event Mr. Daniels is made chairman of the National committee, a place for which he is an active candidate in the event a Presidential nominee to his liking is chosen, that Mr. Woodson, who has for so long been secretary both of the conventions and of the National committee, will have to make a fight for his National committee clerkship against the same interests that wrested the convention clerkship from him and gave it to Mr. Britton.

Insurance Engineering, an insurance journal of New York, in thanking Commissioner of Insurance James R. Young for pictures of the noted Stewart Bros.' fire in Winston-Salem, takes occasion to say that only one other State (Ohio) ranks as high as North Carolina in the matter of running down "fire bugs" through the effective work of special inspectors. Also the paper requests Mr. Young to write for publication a special article on the work of fire marshals. Mr. Young goes July 6th to Detroit to address the National convention of fire marshals on "Prosecutions". He goes from Detroit to Spokane to attend the National convention of State Commissioners of Insurance. As he is chairman of the committee on examinations and a member of the executive committee. He is to deliver an address on "The Fraternal Insurance Situation."

The outdoor season is here. Make the most of it.

KINSTON NEWS NOTES.

Unusual Accident in Greene—Swimming Pool is Established. 6

(Special Star Correspondence.)

Kinston, N. C., June 28.—An unusual accident happened near Snow Hill when Jack Albritton, a well known young man of Greene county, was hit by a spent revolver ball. A party of young men of Snow Hill were on a county road near that town, and one of them tried a shot at a snake by the roadside, the ball striking near the reptile and glancing, passing dangerously near a negro boy working in a field, and striking young Albritton in the forehead. The bullet broke the skin and fell to the ground. The young man was not badly hurt, the force of the ball having been spent in its flight of a hundred yards after first striking. At Farmville, in Pitt county, Leon Joyner was accidentally shot in an equally remarkable manner. Mr. Joyner was removing a bed from its stead when a pistol, which he had neglected to remove from between the bed and bolster, fell to the floor, being discharged in the contact. The bullet struck Joyner on the ankle, inflicting only a slight flesh wound.

Dr. H. O. Hyatt, a prominent physician and sanitarian of this city, is having constructed a swimming pool on property owned by him on Heritage street, which, it is understood, will be donated to the use of any and all young Kinstonians who are inclined to its use. The pool is located in a pretty park strip near Neuse river, and will be supplied by an artesian well. Brick will be used in the construction, with a soft bottom of clean sand, and the dimensions will be sufficient to accommodate a large number of juvenile bathers. Dr. Hyatt's philanthropy is receiving the plaudits of the entire city, and will be one of the most creditable works yet presented in the interest of public health here.

Makes the Nation Gasp.

The awful list of injuries on a Fourth of July staggers humanity. Set over against it, however, is the wonderful healing by Bucklen's Arnica Salve, of thousands, who suffered from burns, cuts, bruises, bullet wounds or explosions. It's the quick healer of boils, ulcers, eczema, sore lips or piles. 25 cents at R. R. Bellamy.

London is the banking center of the world.

An Alien Invasion of New York—Bowery Mourns Loss of Political Prestige—War on Goats—Care of Children.

(Special Star Correspondence.)

New York, June 29.—Statistics just collected here reveal the startling fact that in a few more years if the present rate of foreign immigration continues, New York actually will cease to be an American city to the extent that its native-born population will be in an actual minority.

Already 40 per cent. of the total population is of foreign birth and the proportion is steadily increasing. An analysis of the racial elements composing this vast cosmopolitan population reveals some surprising facts. One of the most striking of these is that the metropolis is being rapidly Russianized. Former subjects of the Czar already outnumber all other foreign nationalities within the city. There are 483,580 of them, or one-fourth of the entire population of St. Petersburg and more than a third of that of Moscow. Next in numerical strength come the Italians. The population of Genoa brought bodily to New York would not come within a hundred thousand of the city's 340,524 inhabitants of that race. All the Irishmen in Cork multiplied two and a half times would not equal the number of Celts in New York, which is 252,528. Out of 18 of the foremost countries, Germany and Ireland alone, are less well represented in 1910 than in 1900. To make the existing slump more remarkable these two nations led all others in 1900. In ten years the German figure has fallen from 324,198 to 279,242, and the Irish colony from 275,073 to 252,528. Of the well known nations the Turks have increased most rapidly in the past decade, having grown in number from 1,400 to 9,982. Newfoundland, not represented in 1900, now has a colony of 1,028. The inclination of the immigrant to remain in New York is shown by the fact that at present the city has 14.4 per cent. of the entire foreign-born population of the United States. Apparently the Dutch are pretty well satisfied with their own country, since but 4,180 of them are included in the city's roster of foreign-born, an increase of but 1,573 in the past ten years. The changing complexion of the foreign invasion is shown in many ways but most graphically perhaps by the predominance of the leading race at public gatherings and in the street cars.

* * *

Nothing that has happened to the Bowery since the passing of Steve Brodie has caused such intense anguish along the venerable thoroughfare as the rumored defection of the clan Sullivan. The old Occidental Hotel, Bowery and Broome, where for years East Side politicians have planned their battles is to be deserted for the hotel St. Denis at Broadway and 11th streets. The old-timers refuse to credit the report, but from Barney Flynn's tea house on the south, to the palm room of "The Alligator" on the north, the Bowery of song and story, what is left of it, is stunned. So benumbing is the report that "Big Tim" Sullivan is to remove to Broadway that the keenest minds are befuddled. At "The Doctors" where before 7 o'clock in the morning a "shock" costs but a nickle and includes a treat by the house, the bartender absent-mindedly treated twice upon hearing the news. The Bowery's most efficient panhandler, "Blind Pete" reached his post on 14th street minus the blue goggles which keep the sun's rays from injuring his eyesight. Of one thing the Bowery feels sure, however, that in honor of the birthday of the leader of the Sullivans in February there will as usual be free shoes for everybody. But the old-timers are worried. In the name of progress even the name of their street has been threatened and now it's political renown seems to be jeopardized.

* * *

Goats with harassed expressions all over New York's farthest north, the Bronx, are scuttling furtively up steep hillsides and into convenient alleys at the sighet of a bluecoat and brass buttons. The Morrisania Court, presided over by Magistrate Breen, resembles a scene in the Alps with goats coming and going. The cause is a police round-up of all Bronx goats owing to the fact that a careless member of the flock consumed the sacred rose garden of a militant citizeness and later refused to permit her to enter her own house. A burning letter from the owner of the rose garden crystallized sectional feeling against a multiplicate of goats and an official raiding party including a police captain and a dignified inspector set out on horseback to bring in the animals. Inside of two hours the police cohorts had 30 goats locked up in the stable. Then the excited owners began to arrive, most of them daughters of sunny Italy. They wanted the goats to milk. Some that were a different kind of goat were wanted anyhow. The charge against the owners was that of having goats without a permit. One Joseph Caprione informed the magistrate that he had a permit for his goat, but the goat ate it. After 15 defendants had explained the merits of their goats, the magistrate, feeling that his own goat was rapidly slipping away, decreed that all the captives should be restored upon the production of a permit. Most of them have been bailed out.

That receding chins breed weak characters, rather than weak characters a retiring facial alignment, is the theory advanced by a New York doctor and dentist who is to be given an opportunity to test his unique theory upon the pupils of one of the city's industrial schools. The serious contention is made that the conformation of children's teeth has much to do with their mentality. "The lower jaw controls the development of the bones of the head," says the exponent of the new theory. These are expanded or contracted according to the position of the lower jaw, which in turn owes much to the condition or more particularly to the placing of teeth." A missing tooth is held to be a calamity which will impede mental progress. As the children upon whom the experiments are to be made are the wards of charity, an examination disclosed plenty of material for the beneficent ministrations of science. Whatever may be the result of proving or disproving the chin and character theory, the subjects of experimentation will at least be the gainers in point of appearance and will receive a lot of expensive dentistry gratis.

One thousand dollars a day, $365,000 annually, is the cost of supplying Gothamites with tri-yearly editions of the telephone directory, the June issue of which is at present being delivered to 280,000 subscribers. The total number of directories to be issued amounts to 1,385,000. Each subscriber receives two books, one for the city and another listing suburban telephones. About half a million of these directories will be delivered by hand, which will require the services of 400 men for a period of 15 days. Even with the three yearly issues it is difficult to keep the telephone directory up to date, and within the past four months two additional exchanges have been added. For a time the new names, "Stagg" and "Woodlawn" will doubtless add to the phone girl's tribulations through forgetfulness on the part of subscribers who have been shifted. The present distribution of 1,385,000 directories forms a sharp contrast to the first issue in 1878. Then there were but 252 subscribers in the entire city.

FIGHTS INDEPENDENCE PLANK

Philippine's Committeeman Opposes Bryan Idea

Baltimore, June 27.—Proud of being the first National committeeman from the Philippine Islands, Adam C. Derkum said yesterday at the Belvedere that he was glad this honor went to the Bureau of Education. Mr. Derkum is a division superintendent of schools in the Philippines and, with his five fellow delegates, is taking great interest in the proceedings of the Baltimore convention.

Asked how the delegation would vote, Mr. Derkum said their minds had not been made up. It is an uninstructed body and each man will cast his ballot for the Presidential candidate who appeals to him.

Mr. Derkum has spent nine years in the islands as a teacher. He knows the people and their needs. He declared that he will endeavor to have any plank relating to the independence for the Filipino stricken out.

"The natives will not be ready for self-government," he said, "for another 20 years." He added that though W. J. Bryan favored Philippine independence, it would be opposed by the delegation from that country.

"Bryan does not know conditions in the islands as I do," concluded Mr. Derkum.

Discussing the islands, he said:

"When the history of the Philippines for the last two decades is written, the Department of Public Instruction will be found to have done some of the best work. Education is progressing rapidly."

Funds raised by popular subscription have given Pittsburg the third largest telescope in the world, a 30-inch refractor.

Avoid the toil and after effects of tiresome rowing. Instead take an

EVINRUDE DETACHABLE ROW BOAT MOTOR

to the river, lake or ocean with you. Clamp it on the back of any row boat and glide across the water in real motorboat fashion. It is a sturdy little 1½ H. P. Engine. Weighs 50 lbs. Is carried like a traveling bag. Works wonderfully. Used the world over. Now on exhibition at

A Perfect Little Propeller.

HOME HEALTH CLUB

By Dr. David H. Reeder, La Porte, Indiana.

Water of Ice: A distinguished physician has said, without reservation, "If human kind had every remedy taken away, except pure water, with intelligent use a great deal could be done, as water comes nearer than any one thing to a universal remedy.

Fortunes have been made and are being made, by fakirs, all the time in the sale of drinking waters, alleged to be from this spring or that, and all backed up by analysis that show how much of this or that valuable medicinal quality they possess. In many instances this water is from a good spring. In many more it comes out of a hydrant and is botted in bottles that have been used over and over again, and perhaps not even so much as rewashed.

If some one, or some thousand of persons, in the water business, could get the truth to be known as to the value of water from natural ice, and could get an honest and effective commercial way of handling it, they could not only get fortunes but would be doing humanity a world of good.

Ignorance has created a prejudice against water of ice and ice water. Another distinguished and accomplished scientist has said:

"In truth, Nature has safeguarded the production of natural ice in a remarkable degree. As the temperature falls in the quiet Winter nights, and the sheet of crystal creeps downward, selective forces draw together and fuse into the mass one substance, water, and push aside the impurities, the organic matter, the salts, bacteria, into the black depths below."

"What will not time subdue?" the old song asks. It does subdue bacteria, for in ice or water, or any substance in which there is little to feed on, the bacteria which are used to the rich foods of the human body gradually perish. Every week that the ice cake floats in the pond, or rests in the sawdust of the ice house, it is growing purer.

The sanitary safety of natural ice is due mainly to these two factors, freezing and storage, which affects freely and automatically a purification equivalent to that produced by water purification plants, only after a considerable expenditure of money and under constant and careful supervision.

This is a very eloquent, yet simple and forcible way of telling how Nature purifies water by frost; how she squeezes out the impurities of water by crystalization.

Distilled, or boiled water, is not so good as a solvent, nor for a beverage, as water that has been purified by freezing, for many reasons. First, because the boiling of water kills it—so to speak—taking away certain elements that are needful to the human economy. Water that has been purified or sterilized, by the freezing process loses only the impurities that should be eliminated. The congealation of water softens it and yet does not take away all its mineral matter but lowers the characteristic to the degree desirable. Scientists and practical physicians are unanimous in the assertion that hard water is dangerous to digestion, and moreover, it assists in hardening the arteries and thus bringing on old age, or senility.

The presence of salts in solution in water from which ice is harvested, or any other fresh water, as to that, impedes the process of freezing, which is very beautiful and interesting, but when the congealation at last takes place at a temperature below 32 degrees, the greater portion of the foreign matter is excluded from the ice, which frequently, is nearer the composition of pure water.

Another interesting fact concerning water of ice for drinking purposes, and its use as a solvent by chemists and pharmacists, is that it can be supplied at a cost of from three to many times less than the alleged springs waters delivered in bottles. The difficulty of delivering water in an uncontaminated condition is very much greater than that of ice. If stored natural ice, free from any adhering particles, is melted, and the resulting water placed in a sterilized container, the product will be on a par to the water as it comes from the spring, and thereby eliminates the chance of infection which spring water is always subject to by its method of delivery.

It is an important thing for every one to learn that seventy-nine and five-tenths per cent of the blood is water and that seventy per cent of the entire human body is water. Knowing this one begins to realize the importance of pure water in this wonderful structure; that is the greater part of life iself. It gives form to the human frame and it maintains the integrity of the tissues. Moreover, it acts as a solvent for the mineral matters of the human body and altogether it is indespensable fluid of our existence.

All this being true is it not the most important of all things to health that water we use in the way of substance should be the very purest obtainable? In human reason there can be no other answer than in the affirmative.

And yet it is true that very few, comparatively, pay any attention whatever to the purity or impurity of the water they drink. As a result, in the same ratio that this heedlessness exists do people grow prematurely aged, thus creating a large decrease in the standard of longevity as an average.

There is no reason, under ordinary circumstances, why life should be shortened and existence handicapped by the use of impure water, and all water is more or less impure; particularly so is that which comes from ordinary, cisterns and such, and from rivers, creeks and lakes from towns and cities generally get their public supply. And these impurities contain among others, more or less dilaterious substances, germs of disease, and always the calcareous particles from earthy salts, that enter and become fixed in the skin, among the tendons, muscles, joints and along the channels of life, the blood vessels, veins and arteries. Thus the skin becomes shriveled and hard, one of the plainest evidences of advancing age—the muscles become stiffened, the tendons unyielding and the joints lose their suppleness. The deposits of calcareous matter along the blood vessels, impeding the circulation, making them brittle in spots and promoting lesions that cause apoplexy, paralysis and the like.

In short, impure water does more harm in curtailing the youth, elasticity and resilience of the human body than all other causes combined, it does the work insiduously, continually and surely.

The facts concerning Nature's ice water—or to be more exact, the water of ice—mentioned at the outset of this writing, solves the inevitable question: "But how can water, absolutely pure, be obtained?"

"Boil the water" say the political health board, through their political organs, and some newspapers repeat that, for the lack of knowledge of a better way. And yet it is better to boil the water and thus throw into the circulation of the blood billions of boiled germ carcasses than to run the risk of allowing the live micro-organisms to infect the intestinal walls and other tissues. Thus in spite of the witty young lady's remark, when told to drink boiled water, in which the microbes and disease germs had been killed, that she would "just as well be an aquarium as a cemetery," Mankind never realizes important necessary—that Nature has not provided—without the use of scientific research and experiment, coupled with ingenuity to achieve it. The history of attempt to purify water in a simple way is a long and interesting one. In it all are thousands of efforts, by way of filters, simple and complex, that inventive genius has devised for the purpose under consideration; subsidence and decantation having been previously found insufficient. Even the famous Pasteur filter has not been an entire success in this thing, the water thus filtered having been found to contain germs and earthy salts not altogether safe.

But, Nature, the Master Alchemist, simplifies the matter by the freezing process described in the early part of this article, and has been doing that ever since creation. However, it was very lately that Chemical Science discovered and proclaimed this fact, and the fact has a long fight before it, yet against ignorance and prejudice.

Take it from the Home Health Club, however, which is exceeding good authority, and from Professor John C. Sparks, water expert for the city of New York, and other distinguished and capable authorities, that the water of ice as told above is the Eureka Spring in all this.

Club Notes.

Dear Doctor:—Have large wart on front finger of left hand which almost covers the end of the finger and extends about half way under the nail; cracks open leaving two distinct parts. It is very painful at such times, pain running up into my upper arm, and finger feverish. It keeps growing larger. I have been told that it is a warty cancer. P. I.

Go to a pachnologist and have him determine whether or not the sore is cancerous. If not, then use the following: First, carefully thin the surface with fine glass paper, or a very sharp knife. Apply either a 10 per cent solution of Chrysorobin (ordinary gutta percha solution) or, in a 10 per cent ether solution. It is best to apply at night and cover so as to prevent soiling the bed clothing. Ordinarily, an application once daily is sufficient but some cases require morning and evening treatment.

If you find it to be cancerous, write me again and I will advise a different treatment.

All readers of this publication are at liberty to write for information pertaining to the subject of health at any time. Address all communications to the Home Health Club, LaPorte, Ind., U. S. A., with name and address in full and at least four cents in postage.

Cautious Through Experience.

"Come over and play with my little boy, sonnie," called the pleasant-faced new neighbor to the solemn-faced urchin on the fence between the two lots.

"Is your little boy sick of anything?" came the child's earnest question.

"No, indeed, sonny. Why?"

"'Cause I've had my tonsils taken out, an' my adenoids removed, an' my appendix cut out, an' I've been vaccinated an' serumized for typhoid an' spinal meningitis, an' I've had antitoxin injected, an' I do hope I won't have to have anything done to me this year, so's for a little while I can have a bit o' fun!"

JULY FIRST

MILLINERY FOR SUMMER A SPECIALTY.

FINE MILLINERY UP-TO-DATE AND REASONABLE

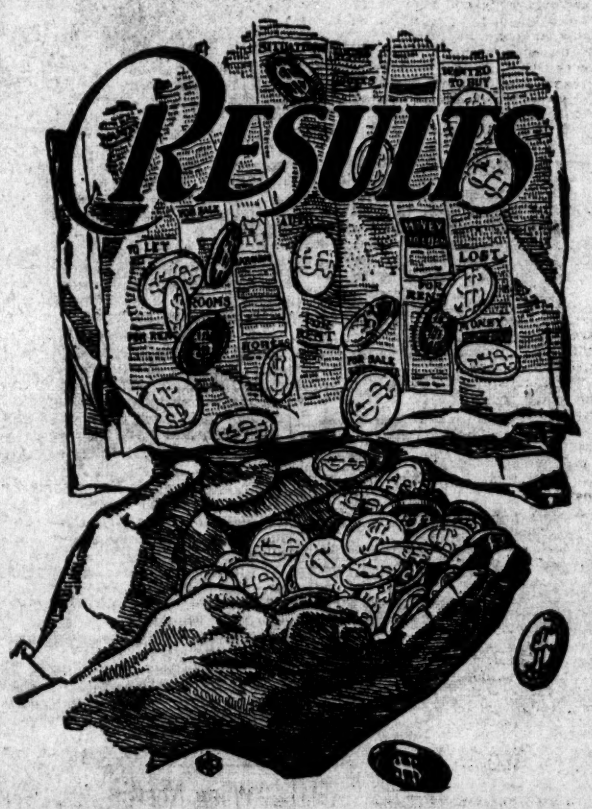
JULY is our Summer Clearance Month. During this month everything is done to reduce stock for inventory. Not a hip hurrah affair, but a steady stream of special reductions lasting the entire month. Nothing shoddy to dispose of, in fact, "shoddy" is a word that might as well have been left out of Webster's as far as we are concerned.

Our Wrightsville Branch For everybody's convenience we have established a branch in the Oceanic Hotel. When at the beach, give us a call. Our terms are cash, but YOU SAVE THE DIFFERENCE:

No. We have not moved our entire Art Department to the beach. We have a complete stock of art goods at both places.

Platt & Haar

Yes, We are getting business at our Oceanic Store from patrons residing from inlet to inlet. Thanks.



are sure to follow the use of Star Business Locals.

Paper Dinner Table Covers

Snow white and sanitary, 66x72 inches three for 25c
$1.50 Fancy Parasols 85c
Porch Screens 98c
Large stock of Hammocks just received, 95c to $6.00
Special prices this week on all Bath Suits. Something new in single piece bath suits.
Byron Collars 15c
We are selling the $1.00 16-button Silk Glove in white and black, for 75c
Large Welt Bedford Cords, special this week for 18c
40-inch white Marquisette, reduced to 25c
All colors of Linen Suiting 20c
36-inch Brown Linen, worth 25c, on sale for 18c
Beautiful Gowns, trimmed with embroidery, linen and val. lace, made of Long Cloth, best workmanship, worth $1.00 and $1.50, this week for 50c and 98c
New lot of Ladies' Panamas, $3.25 to $10.00
All kinds and styles of Ready-to-Wear Garments, either in underwear or top raiment.
Crex Rugs, 9x12 feet $7.98
Best Matting ever sold in Wilmington for 20c
Men's and Boys' Summer Suits for 1-3 less money than you can buy them elsewhere.
Straw Hats of all kinds and descriptions for everyone.
Big line of handsome Trunks for the same money that you have been paying for an ordinary trunk.
Special Bargains will be given this week in Barefoot Sandals and all Summer Shoes and Slippers.

GAYLORD'S

210—212—214 NORTH FRONT STREET.

SOME HINTS FOR SPRING CLEANING

To clean white paint dip a clean flannel in hot water, wring it out and make it into a tight roll. Rub in soap and dip in pipe clay. Use no soda. Go over the white woodwork bit by bit. Polish it with wash leather.

Clean all wood furniture, especially old furniture, with scrupulous care with several washes of lukewarm tea. Then polish it with a mixture of one part olive oil, one part gin and one part vinegar. Some persons pin their faith to the use of one part of boiled linseed oil and vinegar only. Others, again, add a little turpentine to the latter mixture.

All upholstery should be treated with canes, brushes and dusters. Old tapestry and brocade covers are cleaned by rubbing them over with a piece of stale bread.

Rub the glass over pictures with a damp rag and remove any marks with methylated spirit. Then polish them with leather. Gilt frames you brighten with water in which onions have been boiled.

The beautiful color that is the feature of Florentine frames can be restored with the beaten whites of eggs, three or so, into which half an ounce of soda has been stirred. Apply the mixture with a soft brush.

Every leather chair should receive its share of attention, the morocco being treated with white of egg put on with a clean sponge and allowed to dry on.

Clean down all the walls with a broom, the bristles being covered with white linen.

After the windows have been cleaned put down all carpets and wash them bit by bit with water and old yellow soap. Rinse them perfectly and dry them with linen cloths. A very little ammonia may be added to the water, and this will bring up the colors wonderfully.

After the cleaned furniture has been put back into the rooms, the clean curtains are up, the pictures with their frames and glass freshly polished and every little knickknack rubbed with paraffin and daintily refreshed the housekeeper's work is done, and she will be a happier woman for her pains.

Children's Coats

THIS spring the coats for the small girls are extremely attractive. The few designs described below will give the mother some practical suggestions.

One particularly stylish little model is made of white serge and has one of the new narrow and stole shaped collars, trimmed with an inch and a half silk braid. The same braid trims the turned back cuffs.

Black and white are quite a feature of the small girl's wardrobe, one very chic looking coat being made of black and white shepherd's plaid with narrow collar and turned back cuffs of black serge. A wide black patent leather belt is worn with this little coat.

A good looking white cloth coat has inlaid collar and cuffs of Dresden silk finished with stitched bands of cloth. The buttons are also made of the silk, framed with the cloth.

One dainty pink bengaline silk coat for the wee tot is edged all around with hand scallops, the deep collar being finished in the same effect, while a floral design is worked in solid embroidery.

Another scalloped coat is made of white pique, with a deep pointed scalloped collar and scalloped belt.

Needle Points

IF a good buttonhole is desired do not cut the edges crooked or uneven.

In order to insure comfort do not bind the armholes of a shirt or bodice, but overcast neatly.

So that the collar or revers of a coat may lie perfectly flat do not leave any superfluous cloth at the corners.

Do not pull the silk, cotton or wool of featherstitching too tightly; otherwise the pretty effect will be entirely spoiled.

When making a "lapped" seamed skirt do not "lap" the back seam. Should this be done the skirt will appear crooked.

Do not tack the seams of any garment in different directions—that is, upward and downward—or the seams will become crooked.

When pressing a coat or skirt do not damp the whole of the garment; otherwise the cloth will shrink before the pressing can be done.

Do not use blunt scissors or scissors that are too long for cutting tacking threads.

The American Woman's Attitude Toward Panniers

THE fashions brought out by the modistes for the spring and summer give promise of a season of unexampled beauty in everything pertaining to clothes. General outline, colors, fabrics and trimmings—all, in fact, are in wonderfully good taste. No undesirable extreme style has appeared unless one should apply this term of opprobrium to some of the laughable pannier skirts of the season. The pannier skirt, however, when rightly used, is a friend to any figure. It conceals undesirable lines and emphasizes desirable ones, but it needs more than a mechanic to make it. As it is used now, with the suppleat and sheerest of fabrics, it is a mere suggestion of the skirt that was introduced into the European courts by Mme. de Pompadour and that, in the memory of persons not yet white headed, was worn in this country in conjunction with the hoopskirt and crinoline.

EXTREME AND CONSERVATIVE MODES FOR THE PANNIER FROCK

As the pannier skirt is now draped it accentuates length of line and adds little or nothing to the girth of a woman's hips. The pannier, of course, is gathered or plaited into the waistband, but to prevent any idea of bouffantry weights are introduced to drag it downward. Compare this 1912 pannier skirt with the draperies seen in the famous portrait of Marie Antoinette, in which the panniers of her skirt stand out as if they were inflated by a windstorm, and you will realize the difference in the style of today and that of other days. At its worst the pannier skirt reminds one of a very much overloaded donkey, very big in the body part and sloping rapidly toward head and tail. But there is no cause to be alarmed concerning the advent of this old-new mode, for the pannier is as yet only tentative. It is, as it were, on fashion trial, and the woman who has few gowns is going to be slow in risking her allowance on anything so extreme.

So far the pannier is found mostly on gowns that are made for women who have many costumes during a season. This is the reason why ready to wear suits are not often found displaying this effect, and when they do the model usually is marked $50 or more. Later on in the summer there will be no end of pannier effects if the American woman decides that this style is for her.

Bordered materials that are seen this year in such delightful designs are being picked out for the pannier frocks, and the borders will often outline the side draperies. Naturally this side drapery will be entirely out of the question for any but slim, youthful figures. In the lovely soft taffetas which are going to be so much worn this summer the pannier will be quaint, but in chiffon and in the little printed muslins prepared for the season it is going to be at its best.

The French gown of blue and green soft taffeta seen among the illustrations is exceedingly chic. The lines are narrow, yet there is an indubitable pannier, stiffened at the lower edge with a wire hoop to make it stand out from the narrow skirt. The long tight sleeve is also modish. And, apropos of sleeves, among the burning questions of the moment is this one of the manche. Among the innovations in this line is the mousquetaire sleeve. As a type followed to the letter it is generally unbecoming. This sleeve when unlined has to be skin tight and must wrinkle on the arm. How many women can stand such an outline of the arm? There is little danger that this sleeve will be used much during the summer, but when fall and winter materials come in and sleeves are again lined the mousquetaire sleeve will not knock vainly at fashion's door for admission.

Some of the very best Parisian dressmakers are still sending over the kimono sleeve, although somewhat tighter than formerly and with a lengthened armhole. But many are using the sewed in sleeve, often put in with a cord or stitched in a flat seam and of the kimono effect when worn.

Shoulders are very long, sometimes extending well on to the top of the arm, where the tight sleeve is sewed in with as conspicuous a seam as possible.

To come back once more to the pannier drapery, the illustration shows the models which have been accepted by the very best dressmakers. A rather extreme style is seen in the frock of striped taffeta, which has two panniers—one much draped over the hips and another below it, where the skirt is puffed out above a tight sash. The more bouffant the pannier, it seems, the narrower must be the skirt for the sake of contrast.

Among the cuts is a beautiful costume designed for a youthful prima donna, who will wear it at a private concert. The material is turquoise blue brocade, with silver lace on the bodice and a pannier hip drapery confined under straps weighted with silver tassels. Button strap slippers of silver and pale gray silk gloves embroidered in white complete the costume.

CATHERINE TALBOT.

WHEN HOME DYEING IS A SUCCESS

IT is often very convenient to be able to a thing quickly and cheaply at home, and this method frequently prolongs the life of an old garment or accessory hat might otherwise be cast away as worthless.

Dyes are generally sold in small packets. One packet is usually sufficient for a single skirt or blouse or a child's frock, but two should be allowed for an entire dress. Read carefully the directions on the packet and measure out exactly the quantity of water which is there indicated.

The colors which "take" best are navy blue, scarlet, dark brown and dark green. Black sometimes looks a little rusty and pale colors cannot always be obtained in exactly the shades you desire. First wash and dry the garment which is to be dyed. Now, if it is already colored, you must boil it with soda to take out as much as possible of the original tint and form a good foundation for the new one. Fill a large kettle with three gallons of water; add four heaping tablespoonfuls of washing soda, put in the garment and boil it for half an hour, moving it round and round the pan all the time with a copper stick. A great deal of color will come away into the soda water.

Have ready a bucket of clean cold water. Drop the garment into this and leave it to soak while you prepare the dye.

Measure out the quantity of cold water indicated by the directions on the package, put it into the kettle, drop in the dye, add a teaspoonful of salt to "set" the color, put all on the fire and stir the pan till it comes to the boil. Then put in the garment and, still stirring gently, watch carefully to see whether the dye is boiling satisfactorily into the fabric. After the lapse of about a quarter of an hour dip a white rag into the pan. If it comes out still white you may know that all the dye has worked into the garment, but if it comes out colored you will know that you must boil and stir a little longer.

Have ready a bucket of cold water near the stove. Take the garment out of the kettle on the ends of two sticks and drop it into the bucket. Run off the water from it and add fresh three or four times. Then take out the garment, wring it lightly and hang it up to dry, being careful to arrange it on the line in such a way that it will crease as little as possible.

Materials that dye well are linen, holland, serge, hopsack, china and shantung silks, ribbons of a good quality and all woven things, such as stockings and jerseys. Materials that should not be dyed at home, for they are often spoiled in the process, are velvet and velveteen, face cloth, chiffon, glace silk, net, feathers, flowers and hat shapes of felt and beaver. A straw hat may often be dyed satisfactorily, but this is best done by painting on a mixture which is sold for the purpose.

FOR THE SUMMER GIRL

WHITE crape of a fine cotton variety is making some of the daintiest gowns for the summer girl this season. The very attractive model illustrated is of this fabric, with the skirt mounted in two accordion plaited flounces and

GOWN OF WHITE CRAPE.

the folds caught with a handsome bow of white satin ribbon.

The bodice is carried out in knife plaited crape.

When Nerves Appear

FRESH air will string up any group of nerves not hopelessly demoralized. When you feel that "flying to pieces" inclination overtaking you, jerk yourself to order with the checkrein of determination and then if you cannot regain self control stop anything on earth you may be doing and go out of doors. If you cannot leave the home, lean out of a window or step for a little while on a porch. You will not lose any time—you will, in fact, gain time by increasing efficiency in whatever you may be doing. Sleep also is a great restorer of nerves to a normal tone, and sleeping with all windows open secures for us two nerve cures at the same time. In foods, raw onions, carrots, lettuce and celery, with plenty of olive oil, are excellent nerve foods, all valuable as aids in the good work, but the chief remedy is strong will and the compelling of your body to obey your mind.

WHAT TO DO WITH STALE BREAD

THE housewife may make many attractive dishes with the stale bread that is bound to accumulate in all households by incorporating them into an omelet or by making a very tasty cereal of the crumbs.

Omelet of Bread.

For the bread omelet make a white sauce and pour while hot over one-half cupful of soft breadcrumbs, mixing and mashing them well. Next beat until thick the yolks of three eggs and stir them with a dash of cayenne and salt and pepper into the white sauce mixture. Cut and fold into this the stiffly beaten whites of the three eggs. Turn into a hot buttered frying pan and cook lightly. Set pan in the oven to dry off the top of the omelet.

Bread Cereal.

A very tasty cereal is made with stale pieces of bread by simply drying them in the oven until crisp and brown, rolling on a board and putting through a coarse grinder. This is good served warm with cream and sugar.

Brown Betty.

A choice recipe for brown betty consists in placing in a buttered baking dish alternate layers of chopped apples and stale breadcrumbs. Flavor each layer with cinnamon and sugar and dots of butter. Bake with the dish covered for an hour, removing the cover when it is well started, and brown the crumbs on top. Serve with hard or liquid sauce.

The Newest In Nickel

SOMETHING new in nickelware is the "three-in-one" tray accessory. It consists of a tea or coffee pot, cream jug and sugar bowl, each so made that it fits above the other, thus forming a unique whole. It is complete and inexpensive. Often it is hard to arrange a small breakfast or invalid's tray in an inviting fashion without crowding the various pieces of china and silver together. This little nickel device will be found a great help and give at the same time a novel air to the tray, causing the invalid's eyes to brighten with pleasure.

A nickel or copper plated percolator to be attached with cord to the gas jet is something that will be found convenient to use under the teakettle or chafing dish, thus doing away with the troublesome alcohol lamp, which many nervous women do not care to use.

For traveling, too, this percolator will be found very handy, as it is often enjoyable to give a "chafing dish supper" in one's own apartments, and with this new device all the annoyance of carrying around or using alcohol is avoided. There is nothing whatever to do but adjust the percolator, put the tube over the gas jet and apply the match to same and the trick is done.

Nickel plated vegetable dishes now come on the order of silver ones, only many times less expensive. Some of these are made with divided porcelain dishes inside and a tiny hole into which the hot water is run to keep the vegetables hot while on the serving table.

Get Out Your Old Time Chantilly Parasol Cover

CHANTILLY LACE PARASOL IN NEW MOUNTING.

YEARS ago chantilly lace parasols were the fashion, and lucky the woman who possesses a parasol cover preserved as an heirloom. The chantilly lace cover seen in the illustration is an old one mounted over a carriage parasol in the favorite high "cup" shape and having a border of deep blue satin on a white ground.

EXERCISE AND HEALTH FOR BUSINESS GIRLS

DEVOTE a few minutes night and morning to simple physical exercise and digestive troubles will soon disappear. Your complexion will grow clearer and your figure more erect.

Take pains, by the way, always to walk with well poised body and a light, brisk step. It is impossible to walk along briskly and still feel wretched. Your attitude has a great effect on your mind.

Now, as for meals. Few business and working girls eat enough fruit, though it is cheap enough for the most slender purse and necessary to every one leading a sedentary life.

You all take too much starchy food and drink far too much tea. If you can manage it have cocoa or coffee for breakfast instead. At any rate, give up making your lunch of a cup of tea, with bun or biscuit and butter and pastry. Take soup, fish or an egg instead. It costs no more. Finish your meal with a banana, apple or orange.

Instead of afternoon tea have a glass of milk with a bar of chocolate or indulge in your favorite cake. Drink plenty of water.

A Swinging Shelf

ONE of the most convenient things for the kitchen or dining room is the swinging shelf. The shelf should be of convenient width, and the length should conform to the situation in which it is placed. A board, or boards joined together, about two feet wide and as long as you like it, should have attached to the front side of it by a hinge a leg or standards, or there may be two, one at each end. The back of the shelf should be joined to the wall by hinges, and it can thus be lifted and buttoned or hooked to the wall, out of the way, or dropped down, resting on the front legs to form a table. There is nothing more convenient, yet few kitchens have them.

Norfolk Jackets Fashionable

The Norfolk jacket has appeared again and will probably emphasize the popularity of the plaited jacket with its loose belt. Last year the jacket was worn in dark green, blue and in scarlet with white serge and white linen skirts. This year it is part of the suit. It also appears in summer ratine.

A Couch for His Highness the Baby

BABY BED OF WICKER AND WHITE WOOD.

THE brand new baby no longer has a temporary sleeping place made out of a ribbon trimmed clothes basket. His special wicker bed, with a wicker canopy and luxurious lace and quilted silk lining, is all ready for his comfort. The pretty sleeping basket may be lifted from its white wood stand and carried from place to place.

Gown For Spring Bride

WHITE duchess satin, which for so long a time was considered by the bride as the only possible wear on her wedding day, has ceased to be imperative. Any soft white fabric is now adopted, and consequently the bride who has small means at her disposal can practice her little economies without imperiling her reputation for being up to date in the matter of her clothes.

To many women, too, the cold effect of pure white is very unbecoming in full daylight, and the bride of today has strayed even farther from the path of convention in some cases by mounting the white material of her wedding dress over very pale rose pink, so that it assumes the very faintiest glow possible, like the white outer petals of a blush rose. This is a far more becoming expedient than the deep cream frock or even the old ivory tints which are so cleverly reproduced nowadays.

GOTHAM'S ELECTRICAL GIANT

(Continued from Page Nine.)

kerage district over the action of the refiners this week in petitioning Congress for the enactment of a free sugar bill in order to benefit the consumers of the country. They explain their cynicism as to the sincerity of this sudden solicitude of the Sugar Trust and its fellows for the public by referring to conditions last Fall when the foreign corner and the shortage in the raw supply gave these public spirited concerns an opportunity to mark up prices and to sell their accumulated stocks at a tremendous advance. At that time, according to these experts, the so-called independent refiners outdid even the trust in the skyrocketing process to which prices were subjected. The only thing, according to these authorities, that prevented the refiners from exacting a still heavier toll from the users of sugar was the coming into the market of the domestic supply of beet sugar, which sent prices down and saved hundreds of thousands of dollars to the public. They attribute the present concerted efforts of the refiners to bring about the enactment of a free sugar law to the anxiety of the directing powers of these corporations to rid themselves of the dangerous competition of the domestic sugar growing industry, which would leave them again undisputed masters of the sugar market.

* * *

If paper bags all over the country double in price, it will be due to Nicholas Soyer, chef of kings, creator of the gustatory delights of the Brooks Club, in London, and apostle of paper bag cookery which he is publicly demonstrating to New York housewives. The famous chef offers a wager of $100,000 upon his ability to render a five-year-old hen as tender as a broiler by the paper bag method and devotees of the pot, kettle and frying pan who got to his exhibitions to scoff remain to marvel. In his demonstrations the famous chef uses five gas ranges, a dozen kitchen tables and paper bags, but no pots and pans. Fruit stewed in paper bags without water is turned out simultaneously with bags of baked fish, spaghetti, roast chicken, braised squab, goulash or any combination of a dozen or more dishes selected from a list including everything from soup to desert. Applying the acid test to his theories, the paper bag apostle sells his productions to his auditors at cost. "With a litle butter or drippings," his instructions run, "grease the inside of the bag. Whatever is to be cooked is then placed in the bag and put into the oven to cook slowly so that all the juices are retained. Season meat after it comes out as doing so before makes it tough. If a bag breaks, repair it with paper and flour paste." These and many other directions along with the proofs of the pudding Mr. Soyer will spread broadcast after converting New York.

* * *

A $50,000 game of pool witnessed by men whose fortunes aggregated more than $20,000,000 with a return match scheduled a few days hence has stirred Broadway to a pitch of excitement seldom felt during its Summer season of lethargy. The match was between two amateurs, the manager of a big fifth avenue hotel, and the head of a brokerage concern. A friendly rivalry of long standing between the players led to a challenge. In a joking spirit a man well known at the old Sheepshead Bay race track offered to wager $1,000 on one of the contestants. This offer found a taker and other wagers were made until $20,000 in bets had been placed in one hotel alone before the game started. So close was the score all through the game that during the last five minutes $5,000 was wagered on the outcome. The game was played in the biggest billiard room in the city and an attendant was kept busy answering incessant telephone calls for the score from nearly every brokerage firm in the city. Other persons playing pool and billiards at the time quickly dropped their games and with the attendants and spectators hung upon the inferior shots of the amateur contestants. Even the cashier deserted his counter to watch. The final score after several hours of play was 125 to 114. A curious feature of the exciting event was that neither player had wagered a cent on the game. Broadway is now breathlessly awaiting the return match.

* * *

Headkeeper "Bill" Snyder, of the Central Park menagerie has just turned over to the city treasury $685 as a result of the annual sale of homegrown live stock, a varied assortment of 30 horned Dorset ewes from the park sheepfold, 21 horned Dorset ram lambs, two patriarchs of the same breed, seven fallow deer, three English red deer, and as a by-product, 813 pounds of wool. The two big rams went for a dollar each, or one-third of the sum realized for their shorn wool. The price of lamb was disappointing since $1.50 purchased a small specimen and $5. the large sizes. A pointer for the city sheepmen lies in the price established for the ewes, $7 to $12.50. While lamb stew will be the fate of the majority of the lambs, several were bought for pets. In sharp contrast to the disappointing result of the sheep fold surplus are the prices set for deer, fallow deer bringing $90 a pair and English red deer $15 apiece. Coming at a time of high meat prices, it was expected that mutton and lamb would find a more profitable market.

—LONGACRE.

TWO PERSONS DIE IN FLAMES.

Three Others Seriously Injured in a Blaze at Louisville.

Louisville, Ky., June 28.—Two persons were killed and three seriously injured in a fire that started on the second floor dormitory of a business building here early today.

One of the victims was a homeless woman. Last night she appealed at the dormitory for shelter and it was given her. This morning her charred body was found in the kitchein. Like the others, she had been overcome by smoke, and before firemen found her she was burned to death. She had given her name as Lula Day.

The other person cremated was Cromey van Nort, a chauffeur. Of the three injured, Charles Rogers, a newspaper man, is not expected to survive.

Good habits make for good health.

NORTH CAROLINA SECOND.

Ranks Next to Bay State in the Cotton Industry.

Washington, June 23.—Thirteenth census statistics showing the number of establishments, persons engaged, power, capital, expenses, products, and other general details of the manufacture of cotton goods, including cotton small wares, in the United States, by States, are given in an advance census bulletin which will be issued by Director Durand, of the Bureau of the Census, Department of Commerce and Labor. It was prepared under the supervision of William M. Steuart, chief statistician for manufactures.

The industry here considered was, in value of products, seventh in rank among the leading industries during the census year. It includes in addition to cotton mills proper, the establishments that make a specialty of small wares, such as braids, tapes, bindings, corset and shoe laces, and the like.

In 1909 there were 1,324 establishments engaged in this industry. The total number of persons engaged was 387,771, of which 377 were proprietors and firm members; 4,084 salaried officers, superintendents, and managers; 3,413 male and 1,017 female clerks. The average number of wage earners was 378,880; the number in the maximum month, December, was 385,529, and in the minimum month, January, 374,433. The total number of wage earners on December 15th, 1909, was 387,698, of which 197,420 were males and 150,057 were females, 16 years of age and over, while 21,024 males and 19,197 females, were under 16. The primary horse power was 1,296,517.

The capital invested was $822,237,529. The total expenses were $554,221,688, of which amount officials received $10,417,443; clerks $3,994,315; wage earners $132,859,146; fuel and rent of power $13,985,896; other materials, $357,023,574; rent of factory or works, $442,284; taxes, including internal revenue, $5,754,208; contract work, $2,157,069, and other miscellaneous, $27,587,754. The value of products was $628,391,813. The value added by manufacture, which is the difference between cost of materials and value of products, was $257,382,343.

The number of wage earners and the value added by manufactures are, on the whole, a better measure of the relative importance of manufacturing industries than the gross value of products. In some industries the value of the materials used constitutes by far the larger part of the total value of products, the manufacturing process involving the addition of only a small amount of labor cost and other expenses and of manufacturers' profit to the cost of the materials. Moreover, in some of the industries there is a much greater duplication in the gross value of products than in others, such duplication being due to the use of the product of one establishment in the industry as material for another establishment. This duplication, of course, does not appear in the value added by manufacture.

In average number of wage earners, the ranking order or the ten leading States was: Massachusetts with 108,914; North Carolina, 47,231; South Carolina 45,454; Rhode Island, 28,786; Georgia, 27,803; New Hampshire, 22,290; Pennsylvania, 16,293; Maine, 14,634; Connecticut, 14,360; Alabama, 12,731.

In value of products: Massachusetts, $186,462,313; North Carolina, $72,680,385; South Carolina, $65,929,585; Rhode Island, $50,312,597; Georgia, $48,036,817; Pennsylvania, $33,917,033; New Hampshire, $33,601,830; Connecticut, $24,2318,81; Alabama, $23,211,748; Maine, $21,932,225.

In value added by manufacture: Massachusetts, $81,305,000; Rhode Island, $24,911,000; South Carolina, $24,026,000; North Carolina, $23,992,000; Georgia, $15,988,000; Pennsylvanit, $15,160,000; New Hampshire, $14,477,000; Connecticut, $12,272,000; Maine, $10,541,000; New York $8,625,066.

New Orleans, June 25.—Several dozens flood refugees have been given quarters at the United States naval station at Algiers and provision has been made to provide government rations. Algiers and Gretna are still threatened by flood waters from Hymelia and the levees back of these towns are being constantly patrolled. Mrs. William Molaison, a refugee at the naval station, yesterday became the mother of a ten-pound boy. A naval officer acted as Godfather and the infant was christened Stonewall Lee Molaison.

Baltimore, June 25.—Carter H. Harrison, mayor of Chicago, declared last night that if the Baltimore convention nominated a progressive candidate and placed before the people a progressive platform, a great Democratic victory would sweep the country next November.

Of the 112 tourists who lost their lives last year by Alpine ascents 11 were women.

Ends Hunt for Rich Girl.

Often the hunt for a rich wife ends when the man meets a woman that uses Electric Bitters. Her strong nerves tell in a bright brain and even temper. Her peach-bloom complexion and ruby lips result from her pure blood; her bright eyes from restful sleep; her elastic step from firm, free muscles, all telling of the health and strenth Electric Bitters give a woman, and the freedom from indigestion, backache, headache, fainting and dizzy spells they promote. Everywhere they are woman's favorite remedy. If weak or ailing try them. 50c at R. R. Bellamy.

Bowels are Basis of Child Health

The careful mother, who watches closely the physical peculiarities of her children, will soon discover that the most important thing in connection with a child's constant good health is to keep the bowels regularly open. Sluggish bowels will be followed by loss of appetite, restlessness during sleep, irritability and a dozen and one similar evidences of physical disorder.

At the first sign of such disorder give the child a teaspoonful of Dr. Caldwell's Syrup Pepsin at night on retiring and repeat the dose the following night if necessary—more than that will scarcely be needed. You will find that the child will recover its accustomed good spirits at once and will eat and sleep normally.

This remedy is a vast improvement over salts, cathartics, laxative waters and similar things, which are altogether too powerful for a child. The homes of Mrs. Vallie Utley, Keyser, N. C., and Mrs. E. L. Hair, Dalton, Ga., are always supplied with Dr. Caldwell's Syrup Pepsin, and with them, as with thousands of others, there is no substitute for this grand laxative. It is really more than a laxative, for it contains superior tonic properties which help to tone and strengthen the stomach, liver and bowels so that after a brief use of it all laxatives can be dispensed with and nature will do its own work.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

EAST CAROLINA TEACHERS' TRAINING SCHOOL.

A State school to train teachers for the public schools of North Carolina. Every energy is derected to this one purpose. Tuition free to all who agree to teach. Fall Term begins September 24, 1912.
